

Services like quick downloading within five minutes, convenient and safe payment channels made for your convenience. Even newbies will be tricky about this process. Unlike product from stores, quick browse of our N16291GC10 practice materials can give you the professional impression wholly. So, they are both efficient in practicing and downloading process. By the way, we also have free demo as freebies for your reference to make your purchase more effective.

## N16291GC10 Exam Syllabus & New N16291GC10 Exam Experience

Our N16291GC10 Study Guide is famous for its instant download, we will send you the downloading link to you once we receive your payment, and you can down right now. Besides the N16291GC10 study guide is verified by the professionals, so we can ensure that the quality of it. We also have free update, you just need to receive the latest version in your email address. If you don't have it, you can check in your junk mail or you can contact us.

## Oracle N16291GC10 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>• SuiteCloud Platform: This section of the exam measures skills of NetSuite Automation Developers and covers the use of SuiteFlow, SuiteScript, and SuiteTalk to automate and integrate business processes. It involves understanding the sequence of creating SuiteFlows, identifying running automations, and managing SuiteBundles. Candidates must also distinguish between managed and non-managed bundles, update existing ones, and apply REST or SOAP Web Services, ODBC, and CSV Import methods to manage NetSuite data effectively.</li></ul>                                                                                                                                          |
| Topic 2 | <ul style="list-style-type: none"><li>• Sitebuilder: This section of the exam measures skills of NetSuite Configuration Specialists and focuses on customizing NetSuite forms and fields. It includes recognizing appropriate form types for given use cases, understanding field-level versus form-level configurations, and applying restrictions for user-specific access. The section evaluates knowledge of creating online forms, adjusting field display types, and managing data through custom fields and records. Candidates must differentiate between custom records and custom lists, configure attributes for custom record types, and identify proper use cases for "Record is Parent" or sublist publishing.</li></ul> |
| Topic 3 | <ul style="list-style-type: none"><li>• Data Security: This section of the exam measures skills of Information Security Specialists and focuses on managing access and safeguarding sensitive data within NetSuite. It includes understanding how to secure the File Cabinet, configure login security, and set up Two-Factor Authentication or Single Sign-On. Candidates are evaluated on recognizing permissions with high access levels, mitigating data risks when employees exit the organization, and managing the security impact of changing field values on reports.</li></ul>                                                                                                                                               |
| Topic 4 | <ul style="list-style-type: none"><li>• Setup and Administration: This section of the exam measures skills of NetSuite System Administrators and focuses on system configuration, environment management, and role-based security. It covers best practices for assigning custom roles, handling global permissions, and defining subsidiary-level access. Candidates are tested on the correct use of the Administrator role, user access configurations, multi-language settings, and environment management between Sandbox, Production, and Release Preview. Additionally, the section assesses knowledge of advanced CSV import options, troubleshooting import errors, and applying SuiteCloud Plus features.</li></ul>          |
| Topic 5 | <ul style="list-style-type: none"><li>• SuiteAnalytics: This section of the exam measures skills of NetSuite Reporting Analysts and covers the ability to define and optimize advanced saved searches to achieve specific business results. It includes identifying which records to use as the basis for searches, comparing sharing methods for reports and searches, and selecting the most effective ways to monitor saved search performance. Candidates are also assessed on their understanding of dashboard publishing, customization, and the comparison of dashboard elements to meet user requirements.</li></ul>                                                                                                           |
