

Latest Upload AAPC Exam CPC Reviews - CPC Certified Professional Coder (CPC) Exam Download Pdf

BTW, DOWNLOAD part of Free4Torrent CPC dumps from Cloud Storage: <https://drive.google.com/open?id=1o-cSyDFMSjo1k-Ka7y-ad8C4yskr9AI5>

Whereas the other two AAPC CPC practice test software are concerned both are the mock AAPC CPC exam and give you real-time AAPC CPC exam environment for quick and complete AAPC CPC Exam Preparation. Our CPC test dumps pdf can help you clear exam and obtain exam at the first attempt.

About the materials that relate to AAPC CPC exam, many websites can offer the exam materials. But these websites can't guarantee the quality of the exam dumps, meanwhile when you fail the exam, they can't also give you FULL REFUND guarantee. Compared with common reference materials, Free4Torrent AAPC CPC certification training materials is the tool that worth your use. With the help of Free4Torrent AAPC CPC Real Questions and answers, you can absolutely well prepare for the exam and pass the exam with ease. If you want to great development in IT industry, you need to take IT certification exam. If you want to pass your IT certification test successfully, it is necessary for you to use Free4Torrent exam dumps.

100% Pass 2026 AAPC High Hit-Rate CPC: Exam Certified Professional Coder (CPC) Exam Reviews

The person who has been able to succeed is because that he believed he can do it. Free4Torrent is able to help each IT person, because it has the capability. Free4Torrent AAPC CPC exam training materials can help you to pass the exam. Any restrictions start from your own heart, if you want to pass the AAPC CPC examination, you will choose the Free4Torrent.

AAPC CPC Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Integumentary System: This section of the exam measures the skills of medical coders and covers procedures related to the skin and related structures. Topics include excisions, biopsies, repairs, and destruction services, focusing on accurate code selection and modifier usage for integumentary interventions.
Topic 2	<ul style="list-style-type: none"> Applying the ICD-10-CM Guidelines: This section of the exam measures the skills of coding specialists and covers how to apply official ICD-10-CM guidelines to real-world coding scenarios. It emphasizes the hierarchy of instructional notes, general and chapter-specific rules, and how to make judgment calls within compliant coding frameworks.
Topic 3	<ul style="list-style-type: none"> Review of Anatomy: This section of the exam measures the skills of coding specialists and covers a high-level understanding of human anatomy. It includes organs, systems, directional terminology, and anatomical locations, enabling coders to link procedures and diagnoses to the correct bodily structures with accuracy and consistency.
Topic 4	<ul style="list-style-type: none"> Cardiovascular System: This section of the exam measures the skills of coding specialists and addresses services related to the heart, arteries, and veins. It involves the coding of diagnostic and therapeutic procedures, including catheterizations, bypasses, and repairs.
Topic 5	<ul style="list-style-type: none"> Anesthesia: This section of the exam measures the skills of medical coders and involves coding anesthesia services based on surgical site, complexity, and time. It tests the understanding of anesthesia modifiers and the importance of linking anesthesia codes with the correct primary procedures.
Topic 6	<ul style="list-style-type: none"> Respiratory System: This section of the exam measures the skills of medical coders and evaluates the ability to code procedures involving the nose, sinuses, larynx, trachea, bronchi, and lungs. Attention is given to services like endoscopies, excisions, and resections within the respiratory tract.
Topic 7	<ul style="list-style-type: none"> Urinary System and Male Genital System: This section of the exam measures the skills of medical coders and assesses understanding of procedures on kidneys, bladder, ureters, prostate, and male reproductive organs. Proper use of CPT codes for surgical and diagnostic interventions is tested.
Topic 8	<ul style="list-style-type: none"> Pathology & Laboratory: This section of the exam measures the skills of medical coders and includes lab tests, specimen analysis, and pathological examination procedures. It ensures that coders understand how to apply codes for chemistry panels, cultures, and histopathological diagnostics.
Topic 9	<ul style="list-style-type: none"> Female Reproductive System and Maternity Care & Delivery: This section of the exam measures the skills of coding specialists and evaluates coding accuracy for gynecological and obstetric procedures. It includes deliveries, antepartum care, cesarean sections, and surgical procedures involving female reproductive anatomy.
Topic 10	<ul style="list-style-type: none"> Endocrine System and Nervous System: This section of the exam measures the skills of medical coders and assesses the ability to assign codes for surgeries involving glands, the brain, spinal cord, and peripheral nerves. Procedures like resections and electrical stimulation are part of the evaluated content.
Topic 11	<ul style="list-style-type: none"> Evaluation & Management Services: This section of the exam measures the skills of coding specialists and covers office visits, hospital care, consultations, and other E & M services. It tests the understanding of time-based coding, medical decision-making, and history and exam components per current CMS guidelines.
Topic 12	<ul style="list-style-type: none"> Radiology: This section of the exam measures the skills of coding specialists and focuses on diagnostic imaging procedures including X-rays, CT scans, MRIs, ultrasounds, and nuclear medicine. It emphasizes proper selection of codes based on anatomical site and modality used.
Topic 13	<ul style="list-style-type: none"> Special Senses (Ocular and Auditory): This section of the exam measures the skills of coding specialists and covers the coding of procedures related to the eyes and ears. Topics include surgeries on the cornea, retina, and middle ear, as well as related diagnostic procedures.

AAPC Certified Professional Coder (CPC) Exam Sample Questions (Q74-Q79):

NEW QUESTION # 74

This 27-year-old male has morbid obesity with a BMI of 45 due to a high calorie diet. He has decided to have an open Roux-en-Y gastric bypass. The patient is brought to the operating room and placed in supine position.

A midline abdominal incision is made. The stomach is mobilized, and the proximal stomach is divided and stapled creating a small proximal pouch in continuity with the esophagus. A short limb of the proximal bowel of 155 cm is divided. It is brought up and anastomosed to the gastric pouch. The other end of the divided bowel is connected back into the distal small bowel to the short limb's gastric anastomosis to restore intestinal continuity. The abdominal incision is closed.

What are the procedure and diagnosis codes for this encounter?

- A. 43847, E66.01, Z68.42
- B. 43645, E66.8, Z68.42
- C. 43644, E66.01, Z68.43
- D. 43847, E66.9, Z68.42

Answer: A

Explanation:

* Open Roux-en-Y Gastric Bypass: The procedure involves creating a small gastric pouch and anastomosing it to the jejunum.

* CPT Code 43847: This code describes a surgical gastric restrictive procedure with gastric bypass for morbid obesity, open.

* ICD-10-CM Code E66.01: This code represents morbid (severe) obesity due to excess calories.

* ICD-10-CM Code Z68.42: This code indicates a BMI of 45.

* AMA's CPT Professional Edition (current year)

* ICD-10-CM (current year)

NEW QUESTION # 75

What is the muscular ring around a lumen that contracts to control flow through that lumen called?

- A. Snare
- B. Sphincter
- C. Stricture
- D. Sinus

Answer: B

Explanation:

A sphincter is a muscular ring that encircles a lumen (or passage) and contracts to control the flow of substances through it.

Sphincters are found throughout the body in areas such as the gastrointestinal tract (e.g., the lower esophageal sphincter, pyloric sphincter, anal sphincter) and the urinary system (e.g., urethral sphincter), where they regulate the passage of food, waste, and other materials.

A: Stricture refers to an abnormal narrowing of a passage or duct in the body, often due to scarring or disease, not a muscular ring.

B: Snare is a surgical instrument, not a structure within the body.

D: Sinus refers to a cavity or channel within bone or tissue, unrelated to muscle control of flow.

Therefore, the correct answer is C. Sphincter.

NEW QUESTION # 76

A patient with abnormal growth had a suppression study that included five glucose tests and five human growth hormone tests.

What CPT@ coding is reported?

- A. 80430, 82947, 83003
- B. 80430, 82947 x 5, 83003 x 5
- C. 82947 x 5, 83003 x 5
- D. 80430, 82947 x 2, 83003

Answer: B

Explanation:

1. Procedure and CPTCode Selection:

The patient underwent a suppression study involving five glucose tests and five human growth hormone tests.

CPTCode 80430 represents a suppression panel specifically for growth hormone studies, which includes various assessments for diagnosing abnormal growth.

CPTCode 82947 is used for each glucose test performed, and since five glucose tests were conducted, it should be coded as 82947 x 5.

CPTCode 83003 is used for each human growth hormone test performed, and since five tests were conducted, it should be coded as 83003 x 5.

2. Rationale for Excluding Other Options:

Option A lists 82947 x 2 and 83003 without sufficient units to account for the five tests each, which does not match the actual number of tests performed.

Option B omits the suppression panel code 80430, which is necessary for documenting the overall suppression study.

Option D does not provide the correct quantity of glucose and growth hormone tests, which were each performed five times.

3. AAPC and CPTCoding Guidelines:

According to AAPC guidelines, when a suppression panel includes multiple components that are performed more than once, the specific panel code 80430 should be used along with the correct number of individual component codes.

Therefore, the correct answer is C. 80430, 82947 x 5, 83003 x 5.

NEW QUESTION # 77

An elderly patient comes into the emergency department (ED) with shortness of breath. An ECG is performed. The final diagnosis at discharge is impending myocardial infarction.

According to ICD-10-CM guidelines, how is this reported?

- A. I21.3, R06.02
- B. I20.0
- C. R06.02
- D. I20.0, R06.02

Answer: A

Explanation:

Impending myocardial infarction is reported with I21.3 for a myocardial infarction (acute). The shortness of breath, which is a symptom, is coded separately as R06.02. According to ICD-10-CM guidelines, when a definitive diagnosis is established, the diagnosis code is sequenced first followed by symptom codes.

References: ICD-10-CM (current year), Chapter 9: Diseases of the Circulatory System (I00-I99), ICD-10-CM Official Guidelines for Coding and Reporting, Section I.C.9.e.4.

NEW QUESTION # 78

A 35-year-old female has cancer in her left breast. The surgeon performs a mastectomy, removing the breast tissue, skin, pectoral muscles, and surrounding tissue, including the axillary and internal mammary lymph nodes.

Which mastectomy code is reported?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

For a mastectomy that involves removing the breast tissue, skin, pectoral muscles, and surrounding tissue, including the axillary and internal mammary lymph nodes, the appropriate CPT code is:

19306: Mastectomy, radical, including pectoral muscles, axillary lymph nodes.

This code captures the extent of the surgery, including the removal of the breast tissue, skin, pectoral muscles, and lymph nodes.

CPT Professional Edition (current year)

Surgery guidelines for mastectomy procedures

NEW QUESTION # 79

In the past few years, CPC study materials have helped countless candidates pass the CPC exam. After having a CPC certification, some of them encountered better opportunities for development, some went to great companies, and some became professionals in the field. CPC study materials have stood the test of time and market and received countless praises. Through the good reputation of word of mouth, more and more people choose to use CPC Study Materials to prepare for the CPC exam, which makes us very gratified. Please be assured that we will stand firmly by every warrior who will pass the exam. CPC study materials have the following characteristics:
