

Efficient Pdf CTS-I Braindumps - Find Shortcut to Pass CTS-I Exam

Appendix A: CTS-I Exam Content Outline

The AVIXA CTS-I job description as established by the Job Task Analysis is as follows:

A Certified Technology Specialist Installer:

- Installs, configures, and maintains audiovisual solutions.
- Coordinates, communicates, and documents ongoing installation responsibilities and activities.
- Performs system tests, conducts training, and provides project closeout documentation.

A recommended 3-4 years' of audiovisual installation experience accompanies the theoretical and practical competencies.

The CTS-I exam specifications were developed by combining the importance, criticality, and frequency data obtained from the Job Task Analysis study. The resulting data were converted to percentages and the percentages were used to determine the number of questions related to each domain and task that should appear on the multiple-choice CTS-I examination. The test specifications in the table below list how many questions are included in each Domain and Task and the percentage of the test included in each domain. The Job Task Analysis Final Report can be downloaded at www.AVIXA.org/cts/ under "CTS-I Resources."

NOTE: Applicants and stakeholders should download the most up-to-date free edition of the CTS-I Candidate Handbook that may include important policy and procedure updates by going to the AVIXA website at www.AVIXA.org. Date of this version is 11/13/2023. ©2023 AVIXA®

AVIXA CTS-I Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Install AV Systems: This is the largest and most heavily weighted domain, covering the complete hands-on installation process — assembling and wiring AV racks, placing and mounting equipment, terminating cables, configuring network and device settings, and finishing with system testing and calibration to ensure proper operation.

Topic 2	<ul style="list-style-type: none"> • Conduct Post Project Activities (e.g., support, warranties, maintenance): This domain addresses responsibilities that extend beyond project handover, including routine maintenance of AV systems and equipment, as well as diagnosing and repairing faults, handling warranty claims, and troubleshooting system issues after installation.
Topic 3	<ul style="list-style-type: none"> • Implement Pre-Installation Activities: This domain covers the groundwork required before physical installation begins, including reviewing project documentation and design drawings, conducting site surveys, assessing facility readiness, and preparing materials, tools, and logistics for the upcoming installation.
