

# HPE7-A03 Examengine - HPE7-A03 Prüfungen

2026 Die neuesten EchteFrage HPE7-A03 PDF-Versionen Prüfungsfragen und HPE7-A03 Fragen und Antworten sind kostenlos verfügbar: <https://drive.google.com/open?id=1TLYTRxTIFI-fK1py2mzCuw8wWWt3J-gW>

Der Traum von IT ist immer gering in Wirklichkeit. Aber der Traum, die HP HPE7-A03 Zertifizierungsprüfung zu bestehen, ist absolut in reichweite, wenn Sie EchteFrage benutzen. Wir EchteFrage bietet Ihnen hochwertigen Service, und die Genauigkeit der Fragenkataloge zur HP HPE7-A03 Zertifizierungsprüfung ist so hoch, dass die Bestehensrate der HP HPE7-A03 Zertifizierungsprüfung 100% beträgt. Solange Sie EchteFrage wählen, können wir Ihnen versprechen, dass Sie die HP HPE7-A03 Zertifizierungsprüfung bestimmt bestehen!

## HP HPE7-A03 Prüfungsplan:

Thema	Einzelheiten
Thema 1	<ul style="list-style-type: none"><li>Analyze Requirements: It focuses on determining possible high-level solutions. The topic also discusses mapping the needs into technical solutions and evaluating the proposed solution against project objectives and dependencies. Moreover, it also focuses on documenting assumptions.</li></ul>
Thema 2	<ul style="list-style-type: none"><li>Discover Requirements: This topic defines the goals and identifies the current environment and the objectives. Lastly, it also focuses on collecting information.</li></ul>
Thema 3	<ul style="list-style-type: none"><li>Propose the Solution: The focal point of this topic is creating the design documentation and the final design. Moreover, the topic also focuses on presenting the solution.</li></ul>
Thema 4	<ul style="list-style-type: none"><li>Architect the Solution: It measures your knowledge about identifying the solution options, designing high-level topologies, selecting the correct products, and determining the suitable overlay and underlay design. Additionally, the topic discusses how to verify that the design meets the original requirements.</li></ul>

## HPE7-A03 Prüfungen, HPE7-A03 Prüfungs-Guide

Die Prüfungsfragen und Antworten von EchteFrage HP HPE7-A03 bieten Ihnen alles, was Sie zur Prüfungsvorbereitung brauchen. Für HP HPE7-A03 Prüfung können Sie auch Lernhilfe aus anderen Websites oder Büchern finden. Aber Hauptsache ist es, sie müssen logisch verbinden. Unsere HP HPE7-A03 Zertifizierungsantworten ermöglichen es Ihnen, mühelos die Prüfung zum ersten Mal zu bestehen. Zugleich können Sie auch viele wertvolle Zeit sparen.

## HP Aruba Certified Campus Access Architect Exam HPE7-A03 Prüfungsfragen mit Lösungen (Q37-Q42):

### 37. Frage

XYZ Regional Hospital is an integrated healthcare system of hospitals, neighborhood health centers, and small doctor offices. XYZ Regional Hospital has recently merged with 4x neighborhood health centers and 125 doctor branch offices. The wireless, wired access, and AAA solutions are outdated and need to be replaced

XYZ Regional Hospital is looking to future-proof and improve efficiency across all sites by enhancing wired and wireless access and migrating to a centralized and unified wired/wireless and policy management that can provide uninterrupted availability of all systems. Locations:

- XYZ Regional Hospital is located in New York City
- Dila Health Center is located in City A
- Mount Health Center is located in City B
- Rock Health Center is located in City C
- Branch clinics are located at different locations across the United States Requirements:
- Provide, via management software, one single pane of glass to manage wired and wireless IANs. and VPNs across campus, branch, and remote via web/cloud architecture providing near real-time Insight. troubleshooting tools, and Service Level performance reporting.
- Seamless integration across wired, wireless. WAN. SD-Branch. IoT
- Provide secure wireless access to all the employees of the Regional Hospital and partners, as well as provide wireless Internet access to medical citizens when they visit our facilities.
- All-access points must support the following features and specifications: 802.11ax (Wi-Fi 6E Certified)
- Security options including WPA2/WPA3. 802.1X with Radius secure authentication
- Identify and authenticate every wireless and wired device
- End-to-end role-based security
- Seamless mobility across the hospital for medical learners, patients, and visitors
- Cuts Wi-Fi deployment times from days to hours and enables Zero-Touch deployments across the site
- Establishes a resilient, future-ready network infrastructure with the intelligence, scalability, and intuitive toolsets to meet emerging needs
- Fully redundant branch solution with dynamic path selection to the hospital A Regional Hospital will be implementing RADIUS authentication across all their switches. They are looking for a solution wherein they can use HPE Aruba Networking ClearPass Policy Manager to allow staff members from five different teams (AV team, security team, desktop/printer team, voice team, network & security team) to register these types of devices and control access to them to a specific team. This registration, visibility, and access control to devices must be self-service In addition, device registration needs to be removable on a scheduled basis.

What is the most appropriate solution for the hospital's requirements?

- A. HPE Aruba Networking ClearPass Device Registration
- B. HPE Aruba Networking ClearPass Device Insight
- C. HPE Aruba Networking ClearPass Endpoint Repository
- D. HPE Aruba Networking ClearPass Device Profiler

**Antwort: A**

### 38. Frage

A large multinational financial institution has contracted you to design a new full-stack wired and wireless network for their new 6-story regional office building. The bottom two floors of this facility will be retail space for a large banking branch. The upper floors will be carpeted office space for corporate users, each floor being approximately 100,000 sq ft (9290 sq m). Data centers are all offsite and will be out of scope for this project. The customer is underserved by its existing L2- based network infrastructure and would like to take advantage of modern best practices in the new design. The network should be fully resilient and fault-tolerant, with dynamic segmentation at the edge.

The retail space will include public guest Wi-Fi access. Retail associates will have corporate tablets for customer service, and there will be a mix of wired and wireless devices throughout the retail floors. The corporate users will primarily use wireless for connectivity, but several wired clients, printers, and hard VoIP phones will be in use.

The customer is also planning on renovating the corporate office space in order to take advantage of 'smart office' technology. These improvements will drive blue-dot wayfinding, presence analytics, and other location-based services.

The client decided that they would like to manage two wiring closets as a single stack with a total of 10 switches and a minimum transport speed of 25Gbps over OM4 MM fiber. They would also like to keep the stacking cabling cost to a minimum.

Which stacking components would be required to meet the customer's requirements in the most cost-effective way if the closets were 190 m (620 ft) apart? (Choose two.)

- A. SFP56 transceivers

- B. 25G DAC cables
- C. SFP28 transceivers
- D. 50G DAC cables

**Antwort: B,C**

### 39. Frage

identify the stakeholders when gathering information for the network design and new IDF/MDF design. (Select two.)

- A. Facility manager
- B. Help desk manager
- C. Chief Financial Officer
- D. Network Operations manager

**Antwort: B,D**

Begründung:

When designing a network and considering new Intermediate Distribution Frame/Main Distribution Frame (IDF/MDF) deployments, it's essential to gather information from various stakeholders to ensure the design meets all operational and organizational requirements. According to Aruba Campus Access learning resources, the Help Desk Manager and Network Operations Manager are crucial stakeholders in this process. The Help Desk Manager provides insights into common issues, user complaints, and service requests, which can influence network design decisions to improve user experience and operational efficiency. The Network Operations Manager, on the other hand, offers a technical perspective on network management, maintenance requirements, and operational challenges. Engaging with these stakeholders ensures that the network design is aligned with both user needs and technical operational standards, contributing to a more resilient, efficient, and user-friendly network infrastructure.

### 40. Frage

XYZ Regional Hospital is an integrated healthcare system of hospitals, neighborhood health centers, and small doctor offices. XYZ Regional Hospital has recently merged with 4x neighborhood health centers and 125 doctor branch offices. The wireless, wired access, and AAA solutions are outdated and need to be replaced.

XYZ Regional Hospital is looking to future-proof and improve efficiency across all sites by enhancing wired and wireless access and migrating to a centralized and unified wired/wireless and policy management that can provide uninterrupted availability of all systems.

Locations:

- XYZ Regional Hospital is located in New York City
- Dila Health Center is located in City A
- Mount Health Center is located in City B
- Rock Health Center is located in City C

- Branch clinics are located at different locations across the United States Requirements:

- Provide, via management software, one single pane of glass to manage wired and wireless LANs, and VPNs across campus, branch, and remote via web/cloud architecture providing near real-time insight, troubleshooting tools, and Service Level performance reporting.

- Seamless integration across wired, wireless, WAN, SD-Branch, IoT

- Provide secure wireless access to all the employees of the Regional Hospital and partners, as well as provide wireless Internet access to medical citizens when they visit our facilities.

- All-access points must support the following features and specifications: 802.11.ax (Wi-Fi 6E Certified)

- Security options including WP2/WPA3, 802.1X with Radius secure authentication

- Identify and authenticate every wireless and wired device

- End-to-end role-based security

- Seamless mobility across the hospital for medical teams, patients, and visitors

- Cuts Wi-Fi deployment times from days to hours and enables Zero-Touch deployments across the site

- Establishes a resilient, future-ready network infrastructure with the intelligence, scalability, and intuitive toolsets to meet emerging needs

- Fully redundant branch solution with dynamic path selection to the hospital A Regional Hospital will be implementing RADIUS authentication across all their switches. They are looking for a solution wherein they can use HPE Aruba Networking ClearPass Policy Manager to allow staff members from five different teams (AV team, security team, desktop/printer team, voice team, network & security team) to register these types of devices and control access to them to a specific team.

This registration, visibility, and access control to devices must be self-service. In addition, device registration needs to be removable

on a scheduled basis.

What is the most appropriate solution for the hospital's requirements?

- A. HPE Aruba Networking ClearPass Device Registration
- B. HPE Aruba Networking ClearPass Device Insight
- C. HPE Aruba Networking ClearPass Endpoint Repository
- D. HPE Aruba Networking ClearPass Device Profiler

**Antwort: A**

Begründung:

ClearPass Device Registration provides self-service onboarding for non-802.1X devices, allows role-based ownership by different teams, and supports scheduled removal. This directly matches the hospital's requirement to let multiple staff groups register and control their own device types with automated lifecycle management.

#### 41. Frage

A large multinational financial institution has contracted you to design a new full-stack wired and wireless network for their new 6-story regional office building. The bottom two floors of this facility will be retail space for a large banking branch. The upper floors will be carpeted office space for corporate users, each floor being approximately 100.000 sq ft (9290 sqm). Data centers are all off site and will be out of scope for this project. The customer is underserved by its existing L2-based network Infrastructure and would like to take advantage of modern best practices in the new design. The network should be fully resilient and fault-tolerant, with dynamic segmentation at the edge.

The retail space will include public guest Wi-Fi access. Retail associates will have corporate tablets for customer service, and there will be a mix of wired and wireless devices throughout the retail floors. The corporate users will primarily use wireless for connectivity, but several wired clients, printers, and hard VoIP phones will be in use.

The customer is also planning on renovating the corporate office space in order to take advantage of 'smart office' technology. These improvements will drive blue-dot wayfinding, presence analytics, and other location-based services.

The client has decided that more critical switch stacks supporting Contact Center resources will need to support greater than 600W of CL4 PoE and have redundant power supplies. These stacks will have approximately six members.

What would be the most economical choice Aruba switch series to meet these requirements?

- A. Aruba CX6300F
- B. Aruba CX 6400
- C. Aruba CX 6100
- D. Aruba CX6200M

**Antwort: D**

#### 42. Frage

.....

HP HPE7-A03 Zertifizierungsprüfung ist heute sehr populär. Wollen Sie an der HPE7-A03 Prüfung teilnehmen? Tatsächlich ist diese Prüfung sehr schwierig. Aber es bedeutet nicht, diese Prüfung mit guter Note sehr leicht zu bestehen. So, wissen Sie den kürzesten Weg zum Erfolg? Das ist natürlich die HPE7-A03 Dumps von EchteFrage.
