

CLT Dumps und Test Überprüfungen sind die beste Wahl für Ihre MSSC CLT Testvorbereitung

MSSC CLT Practice Test (Certified Logistics Technician)

New hazmat employees must be trained within one year of their hire. - correct answer False

Which mode of transportation is best for moving items very quickly? - correct answer Air

Customer requirements as specified by a picking document: - correct answer Order

A pallet of boxes of products is an example of a: - correct answer Transport package

In JIT inventory control, having one item too many is as bad as having one item too few. - correct answer True

Who developed the JIT concept of inventory control? - correct answer Japanese

HAZCOM is another word for: - correct answer The Right to Know law

The process of using materials to contain and protect a product during handling, storage and shipping is called: - correct answer Packaging

Which government agency regulates the import of food and cosmetics into the U.S? - correct answer FDA

Which of the following is a powered storage device that moves either horizontally or vertically to bring stored material to order pickers? - correct answer Carousel

Which mode of transportation is the fastest for long distances? - correct answer Air

Unsere Webseite Zertprüfung tun unser Bestes, damit wir den Kandidaten den besten und bequemsten Kundendienst bieten können. Dank unseren gemeinsamen Anstrengungen haben die Erfolgsquote von Zertprüfung zur MSSC CLT Zertifizierungsprüfung 100% erreicht. Wenn Sie unsere Schulungsunterlagen zur MSSC CLT Zertifizierungsprüfung kaufen, können Sie zudem eine einjährige Aktualisierung kostenlos genießen. Bitte beeilen Sie sich!

MSSC CLT Prüfungsplan:

Thema	Einzelheiten
Thema 1	• Safety Principles: This section of the exam measures skills of the Certified Logistics Associate and covers essential workplace safety guidelines and procedures needed to maintain a secure working environment and prevent common injuries.
Thema 2	• Packaging and Shipping: This section of the exam measures skills of the Certified Logistics Technician and covers the necessary techniques for securing goods safely for transit, selecting the right containers, and correctly labeling them for outbound transportation.

Thema 3	• Safe Material Handling and Equipment Operation: This section of the exam measures skills of the Certified Logistics Associate and covers the proper methods for safely moving materials and the correct operation of common handling equipment like forklifts and pallet jacks.
Thema 4	• Order Processing: This section of the exam measures skills of the Certified Logistics Technician and covers the steps required to accurately manage and fulfill customer requests, including picking and preparing the correct items for dispatch.
Thema 5	• Dispatch and Tracking Operations: This section of the exam measures skills of the Certified Logistics Technician and covers the procedures for organizing shipments, coordinating carriers, and monitoring the progress of goods in transit until they reach their destination.
Thema 6	• The Logistics Environment: This section of the exam measures skills of the Certified Logistics Associate and covers the standard operational setting, including the various facilities, equipment, and regulatory factors that affect daily logistics tasks.
Thema 7	• The World of Logistics and the Global Supply Chain: This section of the exam measures skills of the Certified Logistics Associate and covers the foundational knowledge of how logistics fits into the broader global economy and the movement of goods from their origin to the final consumer.
Thema 8	• Product Storage: This section of the exam measures skills of the Certified Logistics Technician and covers the best practices for organizing, locating, and maintaining products within a warehouse to maximize space efficiency and minimize damage or loss.
Thema 9	• Inventory Control: This section of the exam measures skills of the Certified Logistics Technician and covers the methods used to track stock levels, perform cycle counts, and reconcile inventory discrepancies to maintain high accuracy and prevent shortages or overstock.
Thema 10	• Work Communication: This section of the exam measures skills of the Certified Logistics Associate and covers the ability to effectively share information, follow verbal and written instructions, and clearly document tasks in a logistics environment.
Thema 11	• Evaluation of Transportation Modes (Truck, Air, Rail, Water): This section of the exam measures skills of the Certified Logistics Technician and covers the ability to compare and select the most appropriate transportation methods based on factors like cost, speed, and the nature of the freight being moved.
Thema 12	• Product Receiving: This section of the exam measures skills of the Certified Logistics Technician and covers the technical procedures for inspecting, verifying, documenting, and correctly transferring incoming shipments of goods into storage facilities.
Thema 13	• Information Systems: This section of the exam measures skills of the Certified Logistics Associate and covers understanding and using the basic technology and software systems necessary to track, manage, and execute logistics operations, such as inventory or shipment records.
Thema 14	• Measuring Weight & Volume: This section of the exam measures skills of the Certified Logistics Technician and covers the technical computations needed to correctly size packages and calculate accurate weight and cubic volume for shipping costs and load planning.
Thema 15	• Safe Handling of Hazardous Materials: This section of the exam measures skills of the Certified Logistics Technician and covers the specific regulations, documentation, and protective measures required for storing and moving dangerous goods safely.

CLT Prüfungs-Guide - CLT Tests

Sorgen Sie noch um die Prüfungsunterlagen der MSSC CLT? Jetzt brauchen Sie keine Sorgen! Weil uns zu finden bedeutet, dass Sie schon die Schlüssel zur Prüfungszertifizierung der MSSC CLT gefunden haben. Wir Zertprüfung beschäftigen uns seit Jahren mit der Entwicklung der Software der IT-Zertifizierungsprüfung. Jetzt genießen wir einen guten Ruf weltweit. Wir bieten Ihnen die effektivsten Hilfe bei der Vorbereitung der MSSC CLT.

MSSC Certified Logistics Technician (CLT) 4.0 CLT Prüfungsfragen mit Lösungen (Q45-Q50):

45. Frage

What action is required by the consignee to complete the delivery receipt?

- A. create carrier freight bill
- **B. inventory and inspection of materials**
- C. notify supervisor
- D. put away materials

Antwort: B

Begründung:

Completion of proof-of-delivery relies on verifying that what arrived matches what was shipped and is in acceptable condition. The consignee (receiving facility) performs inventory and condition checks before signing delivery documents. CLT receiving/dispatch content reinforces verifying quantities, item identity, and damage status against the pre-advice (ASN) and shipping documents prior to formal acceptance. Creating a carrier freight bill is the carrier's function; putaway happens after acceptance and documentation. Notifying a supervisor may occur if discrepancies are found, but the core requirement to complete delivery documentation is to perform inventory and inspection, ensuring accurate receipt records for subsequent inventory updates and claims processing if needed.

46. Frage

Pick-to-light systems provide a fast and accurate way to do which of the following?

- **A. automatically verify a correct pick**
- B. calculate lighting brightness
- C. interface information to truck drivers
- D. select house lighting schemes

Antwort: A

Begründung:

A Pick-to-Light (PTL) system is a semi-automated order fulfillment technology that uses light displays to guide workers to the correct picking locations. According to CLT's "Order Processing" materials, PTL increases speed and accuracy by illuminating the bin or slot containing the required item, while digital displays show quantity and confirmation buttons verify completion. This eliminates paper pick lists and reduces errors associated with manual documentation. Unlike systems that rely on visual searches or scanning after the fact, PTL enables real-time verification at the point of pick. The CLT curriculum emphasizes that these systems improve worker productivity and throughput while reducing training time. PTL technology integrates with the Warehouse Management System (WMS) to automatically update inventory balances and order status once confirmed.

47. Frage

Which of the following is NOT the purpose of JIT?

- A. minimize inventory
- **B. easily place inventory into stock**
- C. produce only the exact number of units needed at a specific time
- D. respond quickly to changes in demand

Antwort: B

Begründung:

JIT is designed to synchronize production with demand, reduce WIP and finished-goods inventory, and eliminate non-value-added activities. Its aims include quick response, minimal buffers, and producing to actual need. "Easily place inventory into stock" implies

building inventory and storing it-a practice JIT explicitly seeks to avoid.
Reference:

48. Frage

Which of the following is a process in which individually separate, but related items are grouped, packaged, and supplied together as one shipment?

- A. Bunching
- B. Packing
- C. Banding
- **D. Kitting**

Antwort: D

Begründung:

Kitting is the packaging process in which multiple, related components are gathered and supplied as a single unit or kit. The CLT "Packaging and Shipment" standard defines kitting as a value-added service that increases efficiency and accuracy for assembly operations or customer orders requiring several parts to function together. Instead of picking each part separately for every order, kits are pre-assembled and stored as one SKU. This reduces handling time, speeds order fulfillment, and minimizes picking errors. Kitting is common in electronics, automotive, and e-commerce logistics, where accessory bundles or repair kits are shipped together. CLT emphasizes that accurate labeling, documentation, and inventory tracking are essential to maintain visibility for the combined components. Proper kitting enhances space utilization, simplifies downstream assembly, and improves customer satisfaction by ensuring all required parts arrive together and ready for use.

49. Frage

An outbound order must be checked for all of the following EXCEPT

- A. damaged condition
- **B. correct dock for loading**
- C. customer address
- D. item and count accuracy

Antwort: B

Begründung:

In the MSSC Certified Logistics Technician (CLT 4.0) standards, the final inspection of an outbound order focuses on product condition, item accuracy, and shipping documentation. Before an order leaves the facility, warehouse staff must confirm that all items are in good condition (free from visible damage), the counts match the packing list or manifest, and that the customer address and shipping labels are accurate. These checks ensure that shipments meet quality expectations and reduce costly returns or claims. However, confirming the correct dock for loading is a facility-level logistics coordination task, not part of the order verification process. Dock assignment is typically controlled by dispatch or the warehouse management system (WMS) to optimize carrier scheduling and loading efficiency. The CLT curriculum distinguishes between quality assurance tasks (verifying accuracy, packaging, and labeling) and logistical operations (assigning docks, sequencing trailers). Therefore, verifying the correct dock is not a required outbound order check, making option D the correct answer.

This aligns with CLT's Packaging and Shipment and Dispatch and Tracking key activities, which emphasize product verification, documentation accuracy, and load integrity before release-not dock allocation management.

50. Frage

.....

Wenn Sie Zertprüfung wählen, würden wir mit äußerster Kraft Ihnen helfen, die MSSC CLT Prüfung zu bestehen. Außerdem bieten wir einen einjährigen kostenlosen Update-Service. Zögern Sie nicht, wählen Sie doch Zertprüfung. Er würde die beste Garantie für die MSSC CLT Zertifizierungsprüfung sein. Fügen Sie doch die Produkte von Zertprüfung in Ihren Einkaufswagen hinzu.
