

100% Pass Quiz NCA-6.10 - High Hit-Rate Nutanix Certified Associate v6.10 Trustworthy Exam Torrent

BONUS!!! Download part of PrepAwayExam NCA-6.10 dumps for free: <https://drive.google.com/open?id=1nk6zB0MUDhZiQjki11Vu4prUimWequau>

In the process of using the Nutanix Certified Associate v6.10 study training dumps, once users have any questions about our study materials, the user can directly by E-mail us, our products have a dedicated customer service staff to answer for the user, they are 24 hours service for you, we are very welcome to contact us by E-mail and put forward valuable opinion for us. Our NCA-6.10 latest questions already have many different kinds of learning materials, users may be confused about the choice, what is the most suitable NCA-6.10 Test Guide? Believe that users will get the most satisfactory answer after consultation. Our online service staff is professionally trained, and users' needs about NCA-6.10 test guide can be clearly understood by them. The most complete online service of our company will be answered by you, whether it is before the product purchase or the product installation process, or after using the NCA-6.10 latest questions, no matter what problem the user has encountered.

Our NCA-6.10 exam questions can meet your needs to the maximum extent, and our NCA-6.10 learning materials are designed to the greatest extent from the customer's point of view. So you don't have to worry about the operational complexity. As soon as you enter the learning interface of our system and start practicing our NCA-6.10 Learning Materials on our Windows software, you will find small buttons on the interface. These buttons show answers, and you can choose to hide answers during your learning of our NCA-6.10 exam quiz so as not to interfere with your learning process. Every aspect is perfect.

Valid NCA-6.10 Cram Materials & Valid NCA-6.10 Exam Pdf

Our company has established a long-term partnership with those who have purchased our NCA-6.10 exam guides. We have made all efforts to update our product in order to help you deal with any change, making you confidently take part in the exam. We will inform you that the NCA-6.10 Study Materials should be updated and send you the latest version in a year after your payment. We will also provide some discount for your updating after a year if you are satisfied with our NCA-6.10 exam prepare.

Nutanix Certified Associate v6.10 Sample Questions (Q75-Q80):

NEW QUESTION # 75

An administrator needs to enable Self Service Restore (SSR) on a Nutanix-hosted VM. What is required for the administrator to complete this task?

- **A. Nutanix Guest Tools**
- B. VMWare Tools
- C. A Storage Container
- D. Prism Central

Answer: A

Explanation:

To enable Self Service Restore (SSR) on a Nutanix-hosted VM, the VM must have Nutanix Guest Tools (NGT) installed. NGT provides integration between the VM and the Nutanix cluster, allowing features like file-level restore, application-consistent snapshots, and SSR. Administrators can use Prism Central or Element to manage SSR after enabling NGT on the VM.

* A. A Storage Container: Incorrect, as a storage container is required for storing snapshots but is not specific to SSR.

* B. Nutanix Guest Tools: Correct, as NGT is essential for enabling SSR functionality.

* C. Prism Central: Incorrect, as Prism Central helps manage SSR but is not directly required to enable it.

* D. VMWare Tools: Incorrect, as this is specific to VMware environments and not Nutanix AHV.

References:

Nutanix Guest Tools Installation Guide.

Nutanix Administration Guide: Enabling and Managing SSR.

NEW QUESTION # 76

Which Nutanix Disaster Recovery component or feature provides the best Recovery Time Objective (RTO)?

- A. Availability Zone
- B. Async
- **C. Metro Availability**
- D. NearSync

Answer: C

NEW QUESTION # 77

What is true when adding a storage-only node to the cluster?

- **A. It must have the same hypervisor as the other nodes in the cluster.**
- B. It can have a different hypervisor than the other nodes in the cluster.
- C. Nutanix Files must be deployed.
- D. Nutanix Objects must be deployed.

Answer: A

Explanation:

The correct answer is C. It must have the same hypervisor as the other nodes in the cluster.

When adding a storage-only (SO) node to a Nutanix cluster:

* It must run the same hypervisor as the existing nodes.

* The SO node does not host VMs but participates in the storage layer to increase capacity and performance.

* Nutanix currently does not support mixed hypervisors (e.g., combining AHV with ESXi) within the same cluster, even for storage-only nodes.

Clarifications:

* A & B: Neither Nutanix Files nor Objects are required for adding storage-only nodes.

* D: Cross-hypervisor configuration is unsupported at the cluster level.

Official Reference:

* Nutanix Hardware Administration Guide - Storage-Only Node Requirements

* Excerpt: "All nodes in a cluster, including storage-only nodes, must run the same hypervisor type."

NEW QUESTION # 78

An administrator is creating a Linux VM and must decide which is the correct timezone to choose.
Which timezone should the administrator select for this VM?

- A. Local
- **B. UTC**
- C. Eastern
- D. Central

Answer: B

Explanation:

The correct answer is B. UTC.

When creating Linux VMs in a Nutanix environment (or in any enterprise-grade production environment), it is best practice to use UTC(Coordinated Universal Time) as the system timezone. This ensures:

- * Consistency across distributed systems
- * Accurate log correlation
- * Avoidance of issues with daylight saving time (DST)
- * Simplified centralized monitoring and troubleshooting

Clarifications:

- * A (Eastern) and D (Central) are region-specific and may introduce time skew across systems.
- * C (Local) is ambiguous and depends on the underlying hardware or hypervisor setting, which can lead to inconsistent behavior.

Official Reference:

- * Linux Admin Best Practices
- * Nutanix Best Practices Guide - VM Provisioning Section
- * Excerpt: "For consistency across environments, it is recommended to configure all Linux virtual machines to use UTC timezone, particularly in clustered and distributed applications."

NEW QUESTION # 79

An administrator is performing AHV upgrades on an 8-node cluster configured with Redundancy Factor 3.
How many nodes would be placed into maintenance mode simultaneously?

- A. 0
- B. 1
- **C. 2**
- D. 3

Answer: C

Explanation:

In a cluster configured with Redundancy Factor 3 (RF3), the system ensures that data is replicated across at least three nodes to tolerate the failure of two nodes. During an AHV upgrade, Nutanix only places one node at a time into maintenance mode, even in an RF3 configuration, to minimize the impact on data redundancy and cluster operations.

- * A. 1: Correct, as AHV upgrades proceed node by node in RF3.
- * B. 2, C. 3, D. 4: These options are incorrect, as only one node is upgraded at a time regardless of RF3.
