Free PDF Microsoft SC-100 Unparalleled New Dumps Ebook
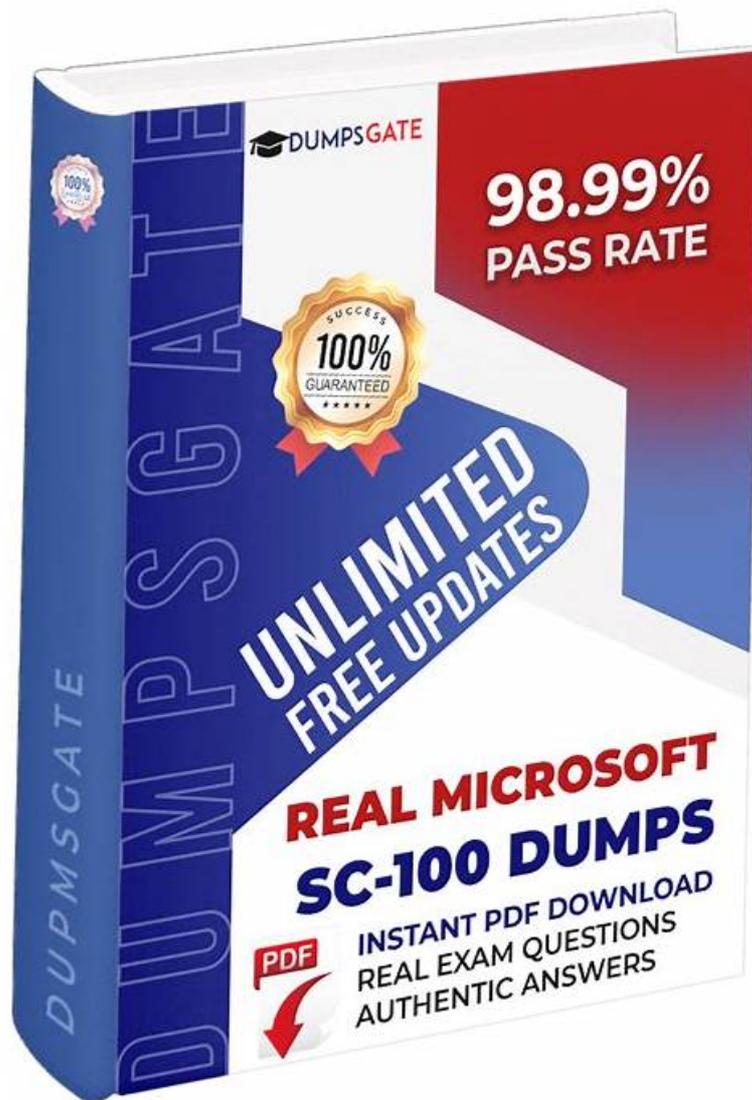

To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace. Contemporarily, social competitions stimulate development of modern science, technology and business, which revolutionizes our society's recognition to SC-100 Exam and affect the quality of people's life. Our SC-100 exam question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the SC-100 guide torrent.

Microsoft SC-100 Certification Exam is designed for cybersecurity architects, security engineers, and other IT professionals who are responsible for securing their organization's systems and data. SC-100 exam covers a wide range of topics, including threat protection, security management, identity and access management, and network security. SC-100 exam is designed to test the candidate's knowledge and skills in each of these areas, as well as their ability to design and implement effective security solutions.

Earning the Microsoft SC-100 certification can open up many career opportunities in the cybersecurity field. Certified professionals can work as cybersecurity architects, consultants, analysts, or engineers. They can also work for various organizations, such as government agencies, financial institutions, healthcare providers, and technology companies. With the increasing demand for cybersecurity professionals, having the Microsoft SC-100 Certification can give you a competitive edge and help you stand out in the job market.

Microsoft SC-100: Microsoft Cybersecurity Architect is a certification exam designed for cybersecurity professionals who want to validate their expertise in securing Microsoft technologies. SC-100 exam is ideal for those who are responsible for designing, implementing, and maintaining security solutions for Microsoft Azure, Microsoft 365, and hybrid environments.

New SC-100 Dumps Ebook | 100% Free Latest Microsoft Cybersecurity Architect Latest Learning Material

Our SC-100 study guide boosts both the high passing rate which is about 98%-100% and the high hit rate to have few difficulties to pass the test. Our SC-100 exam simulation is compiled based on the resources from the authorized experts' diligent working and the Real SC-100 Exam and confer to the past years' exam papers thus they are very practical. The content of the questions and answers of SC-100 exam quiz is refined and focuses on the most important information.

Microsoft Cybersecurity Architect Sample Questions (Q259-Q264):

NEW QUESTION # 259
You have a Microsoft Entra tenant. The tenant contains 500 Windows devices that have the Global Secure Access client deployed.
You have a third-party software as a service (SaaS) app named App1.
You plan to implement Global Secure Access to manage access to App1.
You need to recommend a solution to manage connections to App1. The solution must ensure that users authenticate by using their Microsoft Entra credentials before they can connect to App1.
What should you include the recommendation?

- A. an internet access traffic forwarding profile
- B. a private access traffic forwarding profile
- C. a Quick Access app
- D. a Global Secure Access app

Answer: D

NEW QUESTION # 260
Hotspot Question
Your company is migrating data to Azure. The data contains Personally Identifiable Information (Pll). The company plans to use Microsoft Information Protection for the Pll data store in Azure.
You need to recommend a solution to discover PII data at risk in the Azure resources.
What should you include in the recommendation? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:
Box 1: Azure Purview
Microsoft Purview is a unified data governance service that helps you manage and govern your on-premises, multi-cloud, and software-as-a-service (SaaS) data.
Microsoft Purview allows you to:
Create a holistic, up-to-date map of your data landscape with automated data discovery, sensitive data classification, and end-to-end data lineage.
Enable data curators to manage and secure your data estate.
Empower data consumers to find valuable, trustworthy data.

Box 2: Microsoft Defender for Cloud
Microsoft Purview provides rich insights into the sensitivity of your data. This makes it valuable to security teams using Microsoft Defender for Cloud to manage the organization's security posture and protect against threats to their workloads. Data resources remain a popular target for malicious actors, making it crucial for security teams to identify, prioritize, and secure sensitive data resources across their cloud environments. The integration with Microsoft Purview expands visibility into the data layer, enabling security teams to prioritize resources that contain sensitive data.

NEW QUESTION # 261
Your company has an Azure subscription that has enhanced security enabled for Microsoft Defender for Cloud.
The company signs a contract with the United States government.
You need to review the current subscription for NIST 800-53 compliance.
What should you do first?

- A. From Defender for Cloud, add a regulatory compliance standard.
- B. From Microsoft Sentinel, configure the Microsoft Defender for Cloud data connector.
- C. From Defender for Cloud, review the secure score recommendations.
- D. From Defender for Cloud, review the Azure security baseline for audit report.

Answer: A

Explanation:

NEW QUESTION # 262
You have an Azure subscription and a Microsoft 365 subscription. All users are assigned Microsoft 365 E5 licenses. All computers run Windows 11 and are Microsoft Entra joined.
You need to recommend a solution to prevent computers that run early builds of Windows 11 from connecting to Microsoft 365 services.
Which two types of policies should you include in the recommendation? Each correct answer presents part of the solution.

- A. Microsoft Intune compliance policy
- B. Microsoft Entra ID Protection sign-in risk policy
- C. Microsoft Entra Conditional Access policy
- D. Microsoft Defender for Endpoint endpoint security policy
- E. Microsoft Defender for Cloud regulatory compliance policy

Answer: A,C

NEW QUESTION # 263
You need to recommend a SIEM and SOAR strategy that meets the hybrid requirements, the Microsoft Sentinel requirements, and the regulatory compliance requirements.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Segment Microsoft Sentinel workspaces by:	
	Azure AD tenant
	Enterprise
	Region and Azure AD tenant

Integrate Azure subscriptions by using:	
	Self-service sign-up user flows for Azure AD B2B
	Self-service sign-up user flows for Azure AD B2C
	The Azure Lighthouse subscription onboarding process

Answer:

Explanation:
