Now, you can totally feel relaxed with the assistance of our AP-219 study materials. Our products are reliable and excellent. What is more, the passing rate of our AP-219 Study Materials is the highest in the market. Purchasing our AP-219 study materials means you have been half success. Good decision is of great significance if you want to pass the AP-219 exam for the first time.

Salesforce Order Management Administrator Accredited Professional Sample Questions (Q68-Q73):

NEW QUESTION # 68

An administrator needs to ensure that the Orders coming from B2C Commerce honor some business rules which need to be the same in both B2C and Order Management. This validation must happen before the Order Summary object is created. What can the administrator suggest to the developer to implement this requirement?

- A. Use a SalesforceLabs solution
- **B. Handle this in the Commerce System originating the Orders.**
- C. Use an AppExchange solution
- D. Write an Apex class with the validation rules and expose it as an Invocable Action

Answer: B

Explanation:

The administrator can suggest to the developer to handle this requirement in the Commerce System originating the Orders. This way, the validation rules can be applied before the orders are sent to Order Management via the B2C Commerce Integration. The B2C Commerce Integration imports order data into Order Management and creates Order Summary records based on the order data. The validation must happen before the Order Summary object is created, so it cannot be done in Order Management using Apex or other tools. Reference: B2C Commerce Integration, Order Management Lifecycle

NEW QUESTION # 69

Which two Order Management objects have their tabs set to Tab Hidden by default?

- A. Fulfillment Orders
- **B. Locations**
- **C. OrderDeliveryMethod**
- D. SalesLocation
- E. Accounts

Answer: B,C

Explanation:

The OrderDeliveryMethod and Locations objects have their tabs set to Tab Hidden by default. These objects are used to store information about how an order is delivered and where it is fulfilled from, respectively. They are not meant to be accessed directly by

users, but rather through related lists or lookup fields on other objects. Reference: Order Management Objects

NEW QUESTION # 70

What is the required amount of test code coverage when deploying an Apex class?

- A. 0.85
- B. 0.65
- C. 0.55
- **D. 0.75**

Answer: D

Explanation:

The required amount of test code coverage when deploying an Apex class is 75%. This means that at least 75% of the Apex code must be covered by unit tests, and all of those tests must complete successfully. Verified

Reference: https://developer.salesforce.com/docs/atlas.en-us.apexcode.meta/apexcode/apex_deploying_ant_deploy.htm

NEW QUESTION # 71

A company's service team should not see Process Exceptions on any Order Summaries. How can an administrator meet these requirements?

- **A. Create a copy of the Order Summary lightning record page for the service team and remove the Process Exceptions component. Activate the lightning record page by profile for all Service team profiles.**
- B. Modify the service team profiles to remove access to the lightning component and all associated Apex classes
- C. Add a filter to the Process Exception component on the Order Summary lightning record page to hide the component for the service team's Profile
- D. Modify the Order Summary page layout to remove visibility to the Process Exception component for Service team profiles

Answer: A

NEW QUESTION # 72

How can an administrator synchronize licenses from the production org when preparing a sandbox for development?

- A. Import a Change Set
- **B. Run the Match Production Licenses to Sandbox without a Refresh tool in Setup**
- C. Use a custom shell script
- D. Export a Change Set

Answer: B

Explanation:

The best way for an administrator to synchronize licenses from the production org when preparing a sandbox for development is to run the Match Production Licenses to Sandbox without a Refresh tool in Setup. This tool allows administrators to match their sandbox licenses with their production licenses without refreshing their sandbox. This way, the administrator can ensure that the sandbox has the same number and type of licenses as the production org, and avoid any license-related issues when developing or testing in the sandbox. Verified Reference: https://help.salesforce.com/s/articleView?id=sf.data_sandbox_licenses.htm&type=5

NEW QUESTION # 73

.....

Whether you prefer web-based practice exam, desktop-based exam, or PDF real questions, we've got you covered. We believe that variety is key when it comes to Salesforce AP-219 Exam Preparation, and that's why we offer three formats that cater to different learning styles and preferences.
