## Citrix 1Y0-205 Exam Dumps.zip & Pdf 1Y0-205 Format

The content of our three versions of 1Y0-205 exam questions is the absolute same, just in different ways to use. Therefore, you do not worry about that you get false information of 1Y0-205 guide materials. According to personal preference and budget choice, choosing the right goods to join the shopping cart. The 3 formats of 1Y0-205 Study Materials are PDF, Software/PC, and APP/Online. Each format has distinct strength and advantages to help you pass the exam.

## Citrix Virtual Apps and Desktops Administration Sample Questions (Q27-Q32):

### NEW QUESTION # 27

Scenario: A Citrix Administrator is configuring the Citrix Workspace app to allow users to access their applications and desktops. Management requires that users can log on to the environment from any device without having to remember the server address. What should the administrator do to meet these requirements?

- A. Configure a DNS Service Record for the Citrix Workspace app.
- B. Allow users to download the configuration from Citrix.com.
- C. Deploy and configure the Citrix Workspace app using scripts.
- D. Configure the Citrix Workspace app using a Group Policy Template File.

**Answer: A**

Explanation:

By configuring a DNS SRV record pointing to the StoreFront or Citrix Gateway address, users can log on to Citrix Workspace without manually entering a server address. This allows seamless access from any device while meeting management's requirement for ease of use.

### NEW QUESTION # 28

Scenario: A Citrix Administrator needs to configure StoreFront to allow external users access to internal resources. The external users will authenticate on StoreFront. Which StoreFront authentication method can the administrator configure?

- A. Smart card
- **B. Pass-through from NetScaler Gateway**
- C. HTTP Basic
- D. Username and password

**Answer: B**

Explanation:

For external access, authentication is typically performed at Citrix NetScaler (now Citrix ADC).

StoreFront must then be configured with the "Pass-through from NetScaler Gateway" authentication method, allowing StoreFront to accept and trust the authentication performed externally.

### NEW QUESTION # 29

Scenario: A StoreFront store supports 150 users who have full access to all enterprise resources.

A Citrix Administrator needs to create a new StoreFront store for contractors who will work onsite for two months. The contractors need access to specific resources but will NOT be Active Directory users.

Which option should the administrator select while creating the store for contractors?

- A. Smart card
- B. Pass-through
- C. HTTP Basic
- **D. Unauthenticated**

**Answer: D**

### NEW QUESTION # 30

A Virtual Delivery Agent (VDA) is unable to register with the Delivery Controller.

Which three factors could be causing this issue? (Choose three.)

- **A. Improperly configured firewalls**
- **B. Time differences between VDA-enabled machines and the Domain Controller**
- **C. Citrix ICA service NOT running**
- D. Incorrectly configured reverse DNS lookups in a forest
- E. Incorrectly configured Citrix policy in Active Directory

**Answer: A,B,C**

Explanation:

Improperly configured firewalls can block communication between the VDA and Delivery Controller.

Time differences greater than 5 minutes between the VDA and Domain Controller can prevent Kerberos authentication, leading to registration failure.

The Citrix ICA service (BrokerAgent) must be running for the VDA to register; if stopped, registration will fail.

### NEW QUESTION # 31

A user calls the help desk to report that when launching any application from within their published desktop session, it takes a long time and the overall performance is poor. Which Citrix Director report can a Citrix Administrator use to initiate the investigation of the issue?

- A. Load Evaluator in Trends
- B. Launch Failures in Trends
- **C. Session Data in Filters**
- D. Machine Utilization in Machine Details

**Answer: C**

Explanation:

The Session Data in Filters report in Citrix Director provides detailed performance metrics for individual user sessions, including logon duration, application launch times, and resource utilization. This report is the best starting point to investigate performance complaints within a published desktop session.

## NEW QUESTION # 32

.....

You may urgently need to attend 1Y0-205 certificate exam and get the 1Y0-205 certificate to prove you are qualified for the job in some area.
