NEW QUESTION # 38

(What are some benefits of SAP Signavio's AI-assisted performance indicator recommender? Note: There are 3 correct answers to this question.)

- A. Cross-system KPI standardization across a company's divisions and departments
- **B. Instant recommendations based on best practices**
- **C. Self-service approach to define an initial process monitoring framework**
- D. Automated creation of custom KPI dashboards
- **E. Simple connection between the business problem, the affected process, and the relevant metric to be measured**

Answer: B,C,E

Explanation:

Comprehensive and Detailed Explanation From Exact Extract: The benefits of SAP Signavio's AI-assisted performance indicator recommender include providing a simple connection between business problems, processes, and metrics for targeted monitoring; enabling a self-service approach to establish process monitoring frameworks; and delivering instant recommendations based on best practices to accelerate process improvement.

Exact extracts supporting this:

Simple connection: "Leverage the simplified connection between the business problem, the affected process, and the relevant metric ..."
community.sap.com Self-service approach: "The AI-assisted performance indicators recommender capability provides process owners and analysts with instant, curated recommendations on the process ..."
learning.sap.com (Implying self-service through analyst access.)

Instant recommendations: "Instant recommendations based on best practices."
learning.sap.com "An AI-assisted performance indicators recommender delivers instant recommendations on the most relevant process performance indicators (PPIs) ..."
news.sap.com Other options are incorrect because:

Option B: While recommendations aid monitoring, automated dashboard creation is not a specified benefit; focus is on indicator suggestions.

Option D: Standardization may occur indirectly, but the recommender emphasizes instant, tailored recommendations rather than cross-system uniformity.

Reference from Positioning SAP Business AI Solutions as part of SAP Business Suite documents or Study Guide: From SAP News "New Process AI Capabilities for SAP Signavio" and SAP Help Portal "AI-Assisted Performance Indicators Recommender." These highlight the recommender's role in process intelligence within SAP Signavio, positioned as part of AI-enhanced transformation in the SAP Business Suite, as per C_BCBAI_2502 materials and learning journeys on generative AI in Signavio.
