APICS Certified in Planning and Inventory Management (CPIM 8.0) Sample Questions (Q371-Q376):

NEW QUESTION # 371

Which of the following is the MOST effective approach to reduce the threat of rogue devices being introduced to the internal network?

- A. Scan connecting devices
- B. Disable unauthorized devices
- C. Authorize connecting devices
- **D. Authenticate connecting devices**

Answer: D

NEW QUESTION # 372

The Chief Information Security Officer (CISO) defined a requirement to install a network security solution that will have the ability to inspect and block data flowing over network in real time. What network deployment scenario will be MOST suitable?

- A. Deploy the solution on a separate Virtual Local Area Network (VLAN).
- **B. Deploy the solution in line with the traffic flows.**
- C. Deploy the solution to a network terminal access point port.
- D. Deploy the solution and connect it to a Switched Port Analyzer (SPAN) port.

Answer: B

NEW QUESTION # 373

Given the information below, reducing which measure by 10% would contribute most to shortening the cash- to-cash cycle time?

Monthly sales:	\$4,200,000
Accounts receivable at month end:	\$3,520,000
Inventory value at month end:	\$3,000,000
Accounts payable at month end:	\$3,450,000
Cost of capital:	13.5%

- A. Inventory value
- B. Accounts receivable
- C. Accounts payable
- D. Cost of capital

Answer: A

Explanation:

Reducing the inventory value by 10% would contribute most to shortening the cash-to-cash cycle time. The cash-to-cash cycle time is calculated as the days of inventory outstanding plus days of sales outstanding minus days of payables outstanding. By reducing the inventory value, the company can decrease the days of inventory outstanding, leading to a shorter cash-to-cash cycle time. This aligns with CPIM's focus on efficient inventory management to optimize the supply chain. References: The concepts are covered in detail in Module 4: Inventory Management

NEW QUESTION # 374

A hot Disaster Recovery (DR) data center is the victim of a data breach. The hackers are able to access and copy 10GB of clear text confidential information. Which of the following could have decreased the amount of exposure from this data breach?

- A. Encryption at rest
- B. Layer 7 filtering
- C. Encryption in transit
- D. Password hashing

Answer: A

NEW QUESTION # 375

What General Data Protection Regulation (GDPR) principle says that data should be collected lawfully and with the person's consent?

- A. Collection limitation
- B. Collection Categorization
- C. Limitation of use
- D. Legitimate data collection

Answer: D

NEW QUESTION # 376

.....

We will definitely not live up to the trust of users in our CPIM-8.0 study materials. As you know, the users of our CPIM-8.0 exam questions are all over the world. We have also been demanding ourselves with the highest international standards to support our CPIM-8.0 training guide in every aspect. First of all, our system is very advanced and will not let your information leak out. It is totally safe to visit our website and buy our CPIM-8.0 learning prep.
