At home, you can use the Software. Outside, you can use the APP version of our C-S4CPB-2508 Study Materials. If you like the aroma of paper, you can choose the PDF version. You can carry the printed material with you and write your own notes on it. If you want to know more about them, just free download the demos of our C-S4CPB-2508 exam questions.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q10-Q15):

NEW QUESTION # 10

Which of the following would prevent SAP from running a Post-Upgrade Test (PUT) on a customer's behalf?

Note: There are 2 correct answers to this question.

- A. Data marked for deletion is picked for execution.
- **B. The test process failed the execution pre-check.**
- C. The process steps have been reordered.
- **D. An execution variant has not been maintained.**

Answer: B,D

Explanation:

The following would prevent SAP from running a Post-Upgrade Test (PUT) on a customer's behalf:

* An execution variant has not been maintained: An execution variant is a set of test data that is used to execute a test process. It contains the input values and expected results for each test step. If an execution variant is not maintained for a test process, the system cannot run the test automatically and will skip it¹.

* The test process failed the execution pre-check: The execution pre-check is a validation that is performed before the test execution to ensure that the test process and the execution variant are consistent and complete. If the execution pre-check fails, it means that there are some issues or gaps in the test process or the execution variant that need to be resolved before the test can be run².

The following would not prevent SAP from running a Post-Upgrade Test (PUT) on a customer's behalf:

* Data marked for deletion is picked for execution: Data marked for deletion is data that is no longer relevant or valid for the test process. It can be marked for deletion by the customer or by SAP. However, this does not affect the test execution, as the system will ignore the data marked for deletion and use the available data for the test process³.

* The process steps have been reordered: The process steps are the individual actions that are performed as part of the test process. They can be reordered by the customer or by SAP to reflect the changes in the business process or the user interface. However, this does not affect the test execution, as the system will follow the order of the process steps as defined in the test process⁴.

NEW QUESTION # 11

When using the Local SAP S/4HANAA Database Schema migration approach, what is the maximum file size? Note: There are 2 correct answers to this question.

- **A. 100 MB per file**
- B. 160 MB per file
- **C. 100 MB per ZIP file**
- D. 160 MB per ZIP file

Answer: A,C

NEW QUESTION # 12

In which of the following systems do you access your assigned process tasks from the SAP Activate Roadmap of SAP S/4HANA Cloud Public Edition (3-system landscape)?

- A. SAP Cloud ALM for Operations
- B. SAP Cloud ALM for Service
- **C. SAP Central Business Configuration**

- D. SAP Cloud ALM for Implementation

Answer: C

NEW QUESTION # 13

Which of the following are captured in a completed Digital Discovery Assessment? Note: There are 2 correct answers to this question.

- A. Target customer go-live date
- B. Business role requirements
- C. Known integration requirements
- D. SAP Fiori application extensions

Answer: B,C

Explanation:

A completed Digital Discovery Assessment is a comprehensive evaluation conducted during the planning stages of an SAP S/4HANA Cloud Public Edition implementation. This assessment captures various critical aspects of the project to ensure a tailored and efficient approach. Two key elements captured in this assessment are 'Known integration requirements' and 'Business role requirements'. Understanding the integration requirements is essential for ensuring seamless connectivity and data flow between SAP S/4HANA Cloud and other systems. Identifying business role requirements is crucial for aligning the system's capabilities with the specific needs and responsibilities of different user groups within the organization. Both elements are pivotal for designing a solution that is both integrated and user-centric.

NEW QUESTION # 14

In SAP Central Business Configuration, which activities can you perform in the Product-Specific Configuration Phase? Note: There are 3 correct answers to this question.

- A. Create new scope items.
- B. Add blocking reasons for billing.
- C. Modify building blocks.
- D. Add new sales organizations.
- E. Change approval thresholds.

Answer: B,D,E

Explanation:

In the Product-Specific Configuration Phase within SAP Central Business Configuration, several key activities can be performed to tailor the SAP S/4HANA Cloud system to meet specific business needs:

* Add new sales organizations: This activity involves setting up new sales organizations within the system, defining the structure of the sales department, and aligning it with the company's sales strategies and territories. This setup is crucial for managing sales processes, customer relationships, and sales reporting.

* Change approval thresholds: Modifying approval thresholds is an essential configuration activity that adjusts the approval limits for various transactions, ensuring that the approval process aligns with the company's internal control and governance policies. This can involve setting different thresholds for purchase orders, expense approvals, and other financial transactions.

* Add blocking reasons for billing: This configuration activity allows the company to define specific reasons for blocking billing documents, ensuring that billing does not proceed under certain conditions until the issues are resolved. This is critical for maintaining accurate and compliant billing processes.

These activities are part of the detailed configuration work that tailors the SAP S/4HANA Cloud system to the specific operational needs of the business, ensuring that the software supports the company's unique processes and policies.

NEW QUESTION # 15

.....

C-S4CPB-2508 pdf file is the most favorite readable format that many candidates prefer to. You can download and install C-S4CPB-2508 pdf torrents on your PC or phone. If you are tired of the way to study, you can also print C-S4CPB-2508 pdf dumps into papers which can allow you to do marks as you like. As we all know, the C-S4CPB-2508 study notes on the papers are easier

to remember. What's more, we use Paypal which is the largest and reliable platform to deal the payment, keeping the interest for all of you.
