EMC DEP-3CRI PowerProtect Cyber Recovery Exam 3

질문 # 26
 An enterprise customer needs a Cyber Recovery solution to be implemented. As an outcome from a previous workshop, the following backup environment needs to be protected to the CR Vault.
 Location 1: 4 PowerProtect DDs
 Location 2: 4 PowerProtect DDs
 Location 3: 2 PowerProtect DDs
 Location 4: 2 PowerProtect DDs
 The customer wants to implement a CR Vault in a 5th location.
 How many Cyber Recovery systems must be installed at a minimum level?

- A. 0
- B. 1
- C. 2
- D. 3

정답: B

질문 # 27
 What vault status is displayed if none of the PowerProtect DD systems in the CR Vault are able to communicate with the Cyber Recovery software?

- A. Unknown
- B. Unlocked
- C. Locked
- D. Degraded

정답: B

질문 # 28

MB-330높은 통과율 시험공부 완벽한 시험 기출문제

PassTIP의 Microsoft인증 MB-330덤프를 구매하여 공부한지 일주일만에 바로 시험을 보았는데 고득점으로 시험을

패스했습니다. 이는 PassTIP의 Microsoft인증 MB-330덤프를 구매한 분이 전해온 희소식입니다. 다른 자료 필요없이 단지 저희Microsoft인증 MB-330덤프로 이렇게 어려운 시험을 일주일만에 패스하고 자격증을 취득할수 있습니다. 덤프가격도 다른 사이트보다 만만하여 부담없이 덤프마련이 가능합니다. 구매전 무료샘플을 다운받아 보시면 믿음을 느낄것입니다.

최신 Microsoft Dynamics 365 MB-330 무료샘플문제 (Q274-Q279):

질문 # 274

:119 HOTSPOT

A company sells licensed products.

You must pay the licensor royalties for the items each month.

You need to set up a royalty agreement to pay the licensor.

How should you set up the royalty agreement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

정답:

설명:

□ Explanation

□ Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/accounts-payable/royalty-contract>

질문 # 275

A company distributes products. The company produces some of the products it distributes.

The company needs to move from manual to automatic inventory reservations.

You need to set up automatic reservations.

Which parameters should you select? To answer, drag the appropriate parameters to the correct reservation policies. Each parameter may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

정답:

설명:

□ Explanation

질문 # 276

Case Study 8 - Munson's Pickles and Preserves Farm

Background

Munson's Pickles and Preserves Farm is a distribution company that supplies pickles, preserves, pickling supplies, and accessory products to local farmers' markets as well as grocers. Munson's Pickles and Preserves Farm does not produce or provide canning services for any items.

Current Environment

Munson's Pickles and Preserves Farm has an accounting system that is disconnected from the warehousing system. This has caused issues with controlling and valuing inventory. With these core drivers, Munson's Pickles and Preserves Farm decides to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

Warehousing

- Munson's Pickles and Preserves Farm has a single warehouse that serves as the distribution center for all products.
- The warehouse has bulk locations as well as racking, but location names and numbers do not exist.
- Bulk locations are for storage of extra inventory that will not fit into the picking locations.
- The warehouse is temperature-controlled, with locations grouped into two zones: refrigerated and non-perishable.
- Inventory adjustments are made regularly due to lack of inventory controls.

Inventory Data

- Item numbers are inconsistent and were set up as "smart-numbering", such as 1-23-PKL and 44-24-PICK.
- Cucumbers are not grown by Munson's Pickles and Preserves Farm and may be sourced from local farmers.
- Pickles come in bottle sizes of 8 oz, 16 oz, 32 oz. The bottles are packed in cases.

- Pickles may be spear, chip, or whole shapes within the bottles. This does not impact the cost of the pickles when they are the same flavor.
- Pickle flavors are sweet, spicy, and dill. The flavors vary in price.
- Preserves come in multiple flavors, such as mango, strawberry, and grape. These are seasonal items only. Due to the varying flavors and quantities, the preserves are owned by the vendor until they are sold. The mango preserves require refrigeration. The other preserves do not require refrigeration.
- Many items are sold as accessories or supplies for pickling.
- Some items within inventory have an expiration date, such as vinegar.
- Fast-moving items are identified by inventory turns per quarter. Sweet and spicy pickles are the most popular.

Purchasing and Sales

- Munson's Pickles and Preserves Farm has an online store that can be found at munsonspicklesandpreservesfarm.com.
 - The online store is limited to a subset of products that are accessories only, such as bottles and jars.
 - A new product line of kosher pickles is going to be distributed by Munson's Pickles and Preserves Farm.
 - VendorA is the largest vendor that Munson's Pickles and Preserves Farm buys products from.
- Munson's Pickles and Preserves Farm's second largest vendor is VendorB.

Requirements

Warehousing

- The warehouse manager requires fast-moving items to be easily accessible to the order pickers in AisleA, with no more than one item per bin location in AisleA. Both sweet and spicy pickles have more inventory than will fit in AisleA, resulting in bulk location storage.
 - Spicy pickles must have no less than half of a pallet in AisleA at any time.
 - Sweet pickles must have enough inventory in AisleA prior to creating waves for warehouse work.
 - Strawberry preserves are selling slowly this season. They are put away in higher bin locations because they are not considered fast-moving items.
- ##### Inventory & Data
- Item numbers must be set up to create a streamlined numbering system. Munson's Pickles and Preserves Farm requires that the old item number be stored in Dynamics 365 for cross reference purposes. Munson's Pickles and Preserves Farm has settled on 0000001 as the item format for pickles instead of 1-23-PKL. PKL will be stored as an attribute.
 - Item numbers for pickles must be consolidated where possible into a single item number, regardless of bottle size.
 - Cucumbers must be sold at actual cost because they are a special order.
 - Kosher pickles must be set up in the item master. The kosher pickles are the same size jars and flavors as the other pickles, except that they have a kosher designation and will be slightly more expensive.
 - Vinegar and other perishable items must have date tracking for the manufacturer's batch number and expiration date of the product.
 - A batch of mango preserves had to be thrown away because the warehouse workers put away the product into the non-perishable zone.

Purchasing & Sales

- Cucumbers must be sourced from local vendors for special orders only.
- Munson's Pickles and Preserves Farm recently signed an exclusivity agreement with VendorA, and buyers must now only purchase from VendorA.
- VendorA recently purchased a competitor company, VendorB. VendorA wants to ensure that all agreements with VendorA also apply to VendorB while they work on merging the two companies into one.
- VendorC sells preserves to Munson's Pickles and Preserves Farm and requires the following:
Shipment requirement: VendorC owns the product after shipment to Munson's Pickles and Preserves Farm until the time of sale.
On-hand requirement: VendorC has access to view on-hand preserve inventory at Munson's Pickles and Preserves Farm warehouse.

Issues

- CustomerD reports that the vinegar they ordered had a week left before it expired when they received it. This did not give CustomerD enough time to use the vinegar before they had to dispose of it. CustomerD now requires that all vinegar has more than 30 days left before the expiration date.
 - A customer calls and states that they ordered kosher pickles and received regular pickles.
- Inventory Control Clerk 2 reports that kosher and non-kosher pickles of the same variety are in the same warehouse location, contributing to the picking errors.
- A salesperson reports that the margin is incorrect on a customer's special order because the cucumber cost was for the most recent receipt of cucumbers, not the cucumbers received for the specific customer order.
 - An internal audit revealed that large quantities of pickles were missing and written off as damaged on multiple occasions cover the past year. No documentation or explanation of the write offs exist. There is no documentation of disposal, and no approval from management to substantiate that the pickles were not stolen.
 - Jars of pickles are received as eches. Case counts of pickle jars vary by size:
8 oz jars are 12 per case
16 oz jars are 6 per case
- The varied counts in each case create overhead in the warehouse.

- The receiving clerk in the warehouse wants to ensure that broken bottles of vinegar are moved to a damage location named LocationA. Expired vinegar should be moved to a return-to-vendor location named LocationB. All other vinegar should be put away and sold according to normal location directives.
- Operator1 is picking a pallet of strawberry preserves from a location to the shipping dock. While picking up the pallet, Operator1 drops the pallet. Operator1 must make sure that the strawberry preserves are not available for shipment until the damage is evaluated.
- Operator2 tries to print wave labels that contain item 0000001. The labels start to print and then jam. At the same time, the printer battery needs to be recharged and the labels need to be reprinted.

Hotspot Question

You need to resolve Operator2's label issue.

Which solutions will achieve the resolution of the labels? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

설명 :

질문 # 277

A company plans to configure costing versions in Dynamics 365 Finance for its annual cost review process.

The company must be able to do the following:

Analyze changes to material and labor costs before applying them to inventory valuation.

Maintain full manual control over cost values during this process.

Ensure cost records are reviewed and approved before activation.

Avoid automatic cost calculations based on the costing sheet.

You need to configure a costing version to support the business requirements.

How should you complete the configuration? To answer, select the appropriate options in the answer area.

정답 :

설명 :

Explanation:

Requirement

Configuration

Type of costing version

Planned

Intended use of the costing version

Cost analysis/simulation

Method for populating cost records

Manual entry

1. Type of costing version - Planned

Planned costing versions are used when you want to simulate or analyze cost changes without affecting the actual inventory valuation.

This version type supports full manual control over costs and does not perform automatic costing calculations.

Reference:

Microsoft Docs - Costing versions overview

"Use planned costing versions to simulate and review cost changes before applying them."

2. Intended use of the costing version - Cost analysis/simulation

The intended use "Cost analysis/simulation" allows you to review and analyze cost changes without posting these costs to inventory.

This matches the requirement to maintain manual control and to review costs before activation.

Reference:

Microsoft Docs - Configure costing versions

"The cost analysis or simulation use allows review and approval workflows before activation."

3. Method for populating cost records - Manual entry

Manual entry is chosen to avoid automatic calculations based on the costing sheet, ensuring that cost values can be entered and adjusted manually during the review process.

This supports the business need to avoid automatic cost calculations and maintain control.

Reference:

Microsoft Docs - Populate cost records

"Selecting manual entry allows users to input cost records directly without automatic calculations."

질문 # 278

You need to consolidate orders and prepare to rate shop shipments.

How should you complete the setup? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

정답:
