## Download 400-007 Fee & Pdf 400-007 Exam Dump

Many companies' executives have a job content that purchasing 400-007 valid exam collection PDF help their engineers to pass exam and obtain a useful certificate. It is not only improving the qualification of engineers personal but also showing the qualification of companies. If they choose right 400-007 valid exam collection PDF they will save a lot of exam cost and dumps fee for companies. Our products will be excellent choice with high passing rate.

## Factual Information about 400-007

This exam has a duration of 120 minutes. Plus, the candidates will need to reply to 90 to 110 questions. The vendor doesn't give detailed information on the type of questions the candidates will find so they should be ready to face a quite difficult exam. When it comes to the registration process, the candidates will finalize the enrollment via the Pearson VUE platform. Also, the candidates shouldn't forget that this exam will be launched in November 2021 and it is necessary to obtain the CCDE certification. Apart from this test, the candidates will need to undertake the CCDE v3.0 practical exam if they want to get certified. As for the prerequisites, the vendor doesn't mention any mandatory conditions. However, the exam-takers should gain knowledge of the tested topics. Also,

it will be helpful if they had at least five years of practical experience in architecting and designing network solutions.

To be eligible to take the Cisco 400-007 Exam, candidates must have a valid CCNA or CCNP certification. They must also have at least five years of experience in network design, implementation, and troubleshooting. Candidates who meet these requirements can register for the exam through the Cisco website and schedule their exam at a testing center near them.

## Cisco Certified Design Expert (CCDE) Written Exam Sample Questions (Q25-Q30):

### NEW QUESTION # 25

Refer to the exhibit. This network is running legacy STP 802.1d. Assuming "hello\_timer" is fixed to 2 seconds, which parameters can be modified to speed up convergence times after single link/node failure?

- A. Only the maximum\_transmission\_halt\_delay and diameter parameters are configurable parameters in 802.1d to speed up STP convergence process.
- B. The max\_age and forward\_delay parameters can be adjusted to speed up STP convergence process.
- C. The transit\_delay = 5 and bpdu\_delay = 20 are recommended values, considering hello\_timer = 2 and specified diameter.
- D. Only the transit\_delay and bpdu\_delay timers are configurable parameters in 802.1d to speed up STP convergence process.

**Answer: B**

### NEW QUESTION # 26

An enterprise campus is adopting a network virtualization design solution with these requirements It must include the ability to virtualize the data plane and control plane by using VLANs and VRFs It must maintain end-to-end logical path transport separation across the network resources available grouped at the access edge Which two primary models can this network virtualization design be categorized? (Choose two)

- A. Path isolation
- B. Services virtualization
- C. Edge isolation
- D. Session isolation
- E. Group virtualization

**Answer: A,B**

### NEW QUESTION # 27

Creating a network that functions as a strategic part of the business rather than simply being a cost center, starts with a good understanding of business requirements and processes What specific type of knowledge helps to create high-level LAN WAN, and data center designs that support and enable the business?

- A. understanding of data flows
- B. monitoring and management of data
- C. risk assessment
- D. recovery time of the system s functionality

**Answer: A**

### NEW QUESTION # 28

Which two aspects are considered when designing a dual hub dual DMVPN cloud topology? (Choose two )

- A. spoke-to-spoke traffic will transit the hub unless spokes exchange dynamic routing directly
- B. hub sites must connect to both DMVPN clouds
- C. will only work with single-tier headend architecture
- D. recommended for high availability
- E. requires all sites to have dual Internet connections
