Pdf ISO-IEC-27001-Foundation Free | ISO-IEC-27001-Foundation Valid Test Sims

When you have a lot of eletronic devices, you definitly will figure out the way to study and prepare your ISO-IEC-27001-Foundation exam with them. It is so cool even to think about it. As we all know that the electronic equipment provides the convenience out of your imagination.With our APP online version of our ISO-IEC-27001-Foundationpractice materials, your attempt will come true. Our ISO-IEC-27001-Foundation exam dumps can be quickly downloaded to the eletronic devices.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.
Topic 2	• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.
Topic 3	• Cybersecurity: Cybersecurity, also known as IT security or computer security, involves safeguarding computer systems, networks, and data from unauthorized access, theft, damage, or disruption to ensure the integrity and availability of digital information.
Topic 4	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 5	• Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.

Topic 6	• Information Management (IM): Information management (IM) encompasses the entire lifecycle of information within an organization—from its collection and storage to its distribution, use, and eventual archiving or disposal.

ISO-IEC-27001-Foundation Valid Test Sims | ISO-IEC-27001-Foundation Reliable Test Tips

Some people prefer books, some check videos, and some hire online tutors, to clear the ISO-IEC-27001-Foundation exam. It all depends on you what you like the most. If you learn better by books, go for it but if you are busy, and don't have much time to consult a list of books for studying, it's better to get the most probable ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions. We are sure that you will learn well and can crack APMG-International ISO-IEC-27001-Foundation exam easily.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q19-Q24):

NEW QUESTION # 19
Which statement about the conduct of audits is true?

- A. One of the focus areas for a surveillance audit is the output from internal audits and management reviews
- B. Third party audits are conducted by a customer of the organization
- C. During Stage 1 of a certification audit, evidence is collected by observing activities
- D. The certificate issued after a successful re-certification audit in typical schemes lasts for one year

Answer: A

Explanation:
Clause 9.2 (Internal Audit) and Clause 9.3 (Management Review) highlight that audit outputs and management reviews are key inputs for evaluating ISMS performance. Surveillance audits, conducted by Certification Bodies, check ongoing compliance and effectiveness. ISO certification schemes (per ISO/IEC
17021) require surveillance audits to verify whether corrective actions and continuous improvements are being made. A critical focus area is the results of internal audits and management reviews, ensuring that the organization maintains its ISMS between certification cycles.
Option A is incorrect - third-party audits are performed by independent Certification Bodies, not customers.
Option B is incorrect - certificates are typically valid for three years with annual surveillance. Option D is incorrect - Stage 1 is primarily a documentation and readiness review, not evidence observation.
Therefore, the verified correct answer is C.

NEW QUESTION # 20
When are the information security policies required to be reviewed, according to the Policies for information security control?

- A. Every six months
- B. At planned intervals and if significant changes occur
- C. Annually
- D. According to a schedule defined by the Certification Body

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.5.1 (Policies for information security) specifies:
"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This clearly identifies the review frequency requirement: planned intervals and whenever there are significant changes. Options

A and B (six-monthly or annually) are not prescribed by ISO - timing is left to the organization. Option C is also wrong, since Certification Bodies do not dictate policy review schedules.
Therefore, the verified correct answer isD.

NEW QUESTION # 21

Which statement describes the control for the Compliance with policies, rules and standards for information security within Annex A of ISO/IEC 27001?

- A. Regular review of compliance
- B. Maintain contact with legal authorities
- C. Regular review of contractual compliance
- D. Return assets to their legal owners

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.5.36 (Compliance with policies, rules and standards for information security) requires:
"Compliance with the organization's information security policies, rules and standards for information security should be regularly reviewed." This directly matches option A. Option B refers to contractual compliance, which is part of supplier management controls (Annex A.5.19). Option C relates to Annex A.5.7 (Contact with authorities). Option D refers to asset return controls (Annex A.5.9).
Thus, the correct answer isA.

NEW QUESTION # 22

Which ISMS documentation is part of the minimum scope of documented information required to be managed and controlled?

- A. A statement of correspondence between other ISO standards and the ISMS
- B. The budget assigned to operate the ISMS and its related allocations
- C. Records of management decisions related to continual improvement
- D. Third party information security awareness materials

Answer: C

Explanation:
Clause 7.5 (Documented Information) specifies that organizations must maintain documentationnecessary for the effectiveness of the ISMS. Additionally, Clause 9.3 (Management Review) requires "records of decisions related to continual improvement opportunities" as an output of management review. This is a core requirement and forms part of the documented information that must be retained and controlled. Third- party materials (B), budgets (C), and cross-reference statements to other ISO standards (D) are not required by ISO/IEC 27001. Only documents that directly demonstrate compliance, decision-making, and continual improvement are mandated. Therefore, the verified minimum required documentation includesrecords of management review decisionsrelated to continual improvement, confirming answer: A.

NEW QUESTION # 23

Identify the missing word(s) in the following control relating to the Policies for information security control.
"Information security policy and topic-specific policies should be defined, approved by management, [?] and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur."

- A. published, communicated to
- B. established and maintained
- C. published
- D. communicated to

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.5.1 (Policies for information security) states:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This confirms that the missing words are"published, communicated to."The control emphasizes not just defining and approving policies but ensuring they are actively distributed and communicated so that relevant stakeholders are aware of and acknowledge them. Options A, B, and D are partial but incomplete.

Thus, the correct answer isC.

NEW QUESTION # 24
