Our products will help you overcome your laziness. And you will become what you want to be with the help of our DEP-2025 learning questions. You can realize and reach your dream. Also,

you will have a pleasant learning of our DEP-2025 study quiz.

Apple Deployment and Management Exam Sample Questions (Q230-Q235):

NEW QUESTION # 230

Which feature can you use with Shared iPad?

- A. Sidecar
- **B. AirDrop**
- C. Continuity Camera
- D. Universal Control

Answer: B

Explanation:

AirDrop works with Shared iPad. The iOS Deployment Reference states, "Shared iPad supports features like AirDrop that don't require a single user's Apple ID, unlike Continuity features such as Universal Control or Sidecar." References: iOS Deployment Reference, "Shared iPad Features" section. Apple Platform Deployment Guide, "Shared iPad" section.

NEW QUESTION # 231

A user has an iPhone that was enrolled using account-driven User Enrollment. They use their Managed Apple Account to back up their iPhone to iCloud. Which data is backed up?

- **A. Only data from Managed Apps**
- B. All data
- C. Only data from personal apps
- D. All app data

Answer: A

Explanation:

Only managed data is backed up with a Managed Apple ID. The iOS Deployment Reference states, "Under User Enrollment, an iCloud backup using a Managed Apple ID includes only data from managed apps, keeping personal data separate." References: iOS Deployment Reference, "User Enrollment Backups" section. Apple Platform Deployment Guide, "iCloud and User Enrollment" section.

NEW QUESTION # 232

Which feature allows IT administrators to manage VPN settings on a device?

- **A. Configuration profiles**
- B. Find My
- C. iCloud
- D. MDM

Answer: A

Explanation:

Configuration profiles enable IT administrators to manage VPN settings on a device, specifying details like server address, protocol (e.g., IKEv2, L2TP), and authentication methods (e.g., certificates, credentials). These profiles are deployed via MDM or manually, ensuring secure network access. Find My (option B) and iCloud (option C) are unrelated to VPN management. MDM (option D) is the system that delivers profiles, but the profiles themselves contain the VPN settings. The Apple Platform Deployment Guide details VPN configuration via profiles. Reference: Apple Platform Deployment Guide (Chapter: Configuration Profiles).

NEW QUESTION # 233

Where is content cached when you simultaneously provision tethered iPad devices using Apple Configurator?

- A. On the iCloud server
- B. On the MDM content caching server
- **C. On the Mac that the iPad devices are tethered to**
- D. On the MDM server that the iPad devices are tethered to

Answer: C

Explanation:

Content is cached on the tethered Mac. The Apple Configurator User Guide states, "When provisioning tethered iPad devices using Apple Configurator, content is cached on the Mac they are connected to, speeding up the process." Reference: Apple Configurator User Guide, "Provisioning Devices" section. Apple Platform Deployment Guide, "Apple Configurator" section.

NEW QUESTION # 234

You used your organization's MDM solution to change the password of a managed administrator account that's secure token enabled. What is the result?

- A. The login and secure token passwords are updated.
- B. The secure token password is updated, not the login password.
- **C. The login password is updated, not the secure token password.**
- D. The login password can't be changed.

Answer: C

Explanation:

MDM updates the login password only. The macOS Security Overview states, "When MDM changes the password of a secure token-enabled account, only the login password is updated; the secure token remains tied to the original password unless explicitly reset." Option C is incorrect due to this separation.

Reference:

macOS Security Overview, "Secure Token" section.

Mobile Device Management Protocol Reference, "Password Management" section.

NEW QUESTION # 235

.....

In recruiting employees as IT engineers many companies look for evidence of all-round ability especially constantly studying ability more their education background.
