We are sure that using C\_BCBTM\_2509 Exam Questions preparation material will support you in passing the C\_BCBTM\_2509 exam with confidence.

## SAP C\_BCBTM\_2509 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems.</li></ul>

## SAP C\_BCBTM\_2509 exam practice questions and answers

We have made classification to those faced with various difficulties, aiming at which we adopt corresponding methods to deal with. According to the statistics shown in the feedback chart, the general pass rate for latest C\_BCBTM\_2509 test prep is 98%, which is far beyond that of others in this field. In recent years, our C\_BCBTM\_2509 Exam Guide has been well received and have reached 99% pass rate with all our dedication. As one of the most authoritative question bank in the world, our study materials make assurance for your passing the C\_BCBTM\_2509 exam.

### SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q30-Q35):

#### NEW QUESTION # 30

What primary issue does WalkMe's solution aim to solve for customers?

- A. Need for upgrading physical infrastructure in organizations
- B. Difficulty in maintaining accurate financial records
- C. High employee turnover rates
- D. Challenges in adopting and effectively using digital tools

**Answer: D**

Explanation:

The WalkMe Digital Adoption Platform (DAP), which is integrated into SAP's Business Transformation Management (BTM) solutions, primarily addresses the challenge of digital adoption - helping users effectively utilize enterprise software and workflows. "WalkMe is designed to eliminate user friction with digital systems by providing contextual, in-application guidance and automation that accelerates digital adoption." Reference:

The main problem WalkMe solves is difficulty in adopting and effectively using digital tools, which directly impacts productivity, process efficiency, and transformation success.

"Organizations struggle with the complexity of modern applications; WalkMe's solution enables users to navigate and complete digital processes successfully without training dependency." Options B, C, and D do not represent the platform's focus:

WalkMe is not an HR solution to reduce turnover (B).

It does not manage physical infrastructure (C).

It does not handle financial record accuracy (D).

The central goal, as reinforced in SAP BTM documentation, is to bridge the gap between technology implementation and effective user adoption - making A the correct and verified answer.

#### NEW QUESTION # 31

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Data & Analytics, Action & Experience, Platform & Admin
- B. Workflow Automation, User Engagement, Security & Privacy
- C. Digital Adoption, Process Optimization, Compliance Management
- D. Content Creation, Deployment, Analytics & Insights

**Answer: A**

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.

### NEW QUESTION # 32

What are the benefits of SAP Business Transformation Management solutions?

(Note: There are 2 correct answers to this question.)

- A. They provide visibility into processes, people, and applications and therefore support our customers in their ERP transformation.
- B. They are tools limited to IT landscape analysis and financial reporting.
- C. They empower organizations to drive digital transformation by enhancing process efficiency and IT infrastructure management.
- D. They are process mining tools which can help identifying process and IT infrastructure bottlenecks.

**Answer: A,C**

Explanation:

SAP Business Transformation Management (BTM) Solutions are comprehensive, cross-functional tools designed to give organizations visibility across business processes, people, and technology - empowering them to manage digital transformation effectively.

"SAP BTM solutions provide end-to-end visibility across processes, people, and applications, helping organizations streamline ERP transformation initiatives." Reference:

Visibility Across the Enterprise (Answer B):

SAP BTM combines the analytical power of SAP Signavio (process intelligence), SAP LeanIX (enterprise architecture), and WalkMe (adoption enablement) to support holistic transformation initiatives.

"BTM solutions provide a unified view of the business and IT landscape, ensuring transparency across processes, systems, and stakeholders." Driving Digital Transformation and Efficiency (Answer C):

These solutions enable companies to improve process performance and IT infrastructure through insight-driven optimization and modernization.

"By enhancing process efficiency and IT infrastructure management, SAP BTM empowers organizations to drive digital transformation with measurable business outcomes." Incorrect Options:

A: BTM solutions go far beyond IT analysis; they connect business, IT, and people perspectives.

D: While process mining is part of the suite (via Signavio), BTM offers much broader transformation management beyond mining alone.

Therefore, the verified answers are:

B: They provide visibility into processes, people, and applications and therefore support our customers in their ERP transformation.

C: They empower organizations to drive digital transformation by enhancing process efficiency and IT infrastructure management.

### NEW QUESTION # 33

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. Technology Risk and Compliance
- B. Enterprise Architecture Management
- C. SAP Commerce Cloud
- D. SAP Signavio Journey Modeler

**Answer: A,B**

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

### NEW QUESTION # 34

What are the main value drivers of SAP Business Transformation Management solutions?

(Note: There are 2 correct answers to this question.)

- A. They help generate insights into both processes and applications and their dependencies.
- B. They provide advanced capabilities for blockchain development and cryptocurrency management.
- C. They enable customers to discover, analyze, and scope optimization potential during daily operations.
- D. They manage physical inventory in warehouses and real-time transaction processing for retail environments.

**Answer: A,C**

Explanation:

SAP Business Transformation Management (BTM) solutions deliver value by providing visibility, analytics, and optimization across business processes and IT systems. They integrate SAP Signavio, SAP LeanIX, and WalkMe to enable organizations to understand dependencies, identify inefficiencies, and accelerate transformation initiatives.

"SAP BTM solutions help enterprises gain comprehensive insights into processes, applications, and dependencies, enabling them to discover, analyze, and optimize their operations continuously." Reference:

Generating Insights into Processes and Applications (Answer C):

SAP Signavio and LeanIX together provide a data-driven foundation that helps identify how processes and applications interact, uncovering optimization opportunities and transformation risks.

"By linking process intelligence with enterprise architecture management, SAP BTM solutions generate deep insights into process flows, system dependencies, and business value realization." Discovering and Scoping Optimization Potential (Answer D):

The BTM suite empowers users to continuously monitor performance and identify improvement opportunities during daily operations through analytics and observability.

"SAP BTM enables organizations to discover, analyze, and scope optimization potential within their daily business operations using integrated analytical capabilities." Incorrect Options:

A: Inventory and retail transaction management are handled by SAP S/4HANA and not part of BTM.

B: Blockchain and cryptocurrency management are not components of the BTM solution portfolio.

Therefore, the verified and correct answers as per SAP BTM documentation are:

C: They help generate insights into both processes and applications and their dependencies.

D: They enable customers to discover, analyze, and scope optimization potential during daily operations.

### NEW QUESTION # 35

.....

Different from the common question bank on the market, C\_BCBTM\_2509 exam guide is a scientific and efficient learning system that is recognized by many industry experts. In normal times, you may take months or even a year to review a professional exam, but with C\_BCBTM\_2509 exam guide you only need to spend 20-30 hours to review before the exam. And with C\_BCBTM\_2509 learning question, you will no longer need any other review materials, because our study materials already contain all the important test sites. At the same time, C\_BCBTM\_2509 test prep helps you to master the knowledge in the course of the practice.
