A free demo version is also available for satisfaction. This C-THR92-2505 software provides a real SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting (C-THR92-2505) exam environment to help ease exam anxiety.

SAP C-THR92-2505 Exam Syllabus Topics:

Topic	Details

Topic 1	• Canvas Reports and Page Designer: This part measures the capabilities of a Report Administrator and involves creating and customizing reports using Canvas Reports and Page Designer. It covers advanced query construction, formatting, pivot creation, and report distribution to enhance data presentation and usability.
Topic 2	• Detailed Reporting Tool with Live Data: This section assesses the skills of an Advanced Report Developer and involves working with detailed reports that use live data feeds. It includes building customizable queries and using reporting tools to deliver real-time, actionable data to stakeholders.
Topic 3	• Table Reports: This part measures the skills of a Data Analyst and involves creating, managing, and running Table Reports. It focuses on designing tabular data presentations that facilitate straightforward access to detailed workforce analytics information.
Topic 4	• Report Consumers: This domain evaluates the understanding of a Business User and focuses on how report consumers interact with and utilize generated reports. It highlights user roles, permissions, and effective report sharing practices to ensure reports serve decision-making needs.
Topic 5	• Advanced Reporting Tool with Replicated Data: This section targets a Reporting Specialist and covers leveraging advanced reporting tools that operate on replicated data. It includes knowledge of data replication concepts and using these tools to perform comprehensive reporting that supports detailed analysis.

SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting Sample Questions (Q37-Q42):

NEW QUESTION # 37
You want to create a report that shows one row per employee, that includes the total number of previous employers for each employee. Which tool must you use?

- A. Runtime Filters
- B. Date Options
- C. Calculated Columns
- D. Aggregated Calculated Columns

Answer: D

Explanation:
* Tool for Aggregation
* An Aggregated Calculated Column allows you to perform calculations, such as counting previous employers for each employee, and then display the results in a single row per employee.
* Why Other Options are Incorrect
* A (Runtime Filters): Filters data but does not aggregate or calculate totals.
* B (Calculated Columns): Useful for individual row-level calculations, but aggregation across rows requires Aggregated Calculated Columns.
* D (Date Options): Used for filtering or formatting date fields, not for aggregating data.
References
* SAP SuccessFactors Aggregated Calculated Columns Guide

NEW QUESTION # 38
You are building a performance report with the Story report type. In reviewing the Performance Management schema, you notice that the 2019 Performance Review Table is listed in the Available Data section. You begin the query by adding the Basic User Information table from the User schema. You notice that the 2019 Performance Review Table is NO longer listed in the Available Data section. Why is the 2019 Performance Review table NOT in the list?

- A. Only related or joined tables appear as available.
- B. The table does NOT have a Report Object Configuration Entity record.
- C. You do NOT have RBP permission to the fields of the table.

- D. You do NOT have the data access permission to the schema.

Answer: A

Explanation:
* Schema and Table Relationships
* In SAP SuccessFactors Story Reporting, tables are only displayed in the Available Data section if they have a direct relationship or join with the selected starting table (in this case, Basic User Information).
* Why the 2019 Performance Review Table is Missing
* Since the Basic User Information table is selected, only tables directly related to it will appear.
The 2019 Performance Review Table is likely not joined directly to the User schema.
* Why Other Options are Incorrect
* B (No Report Object Configuration Entity record): The table is present in the schema, so it must have a valid ROCE record.
* C (No RBP permission): This would prevent any access to the table but does not explain its absence from the Available Data section.
* D (No data access permission): This would restrict data access, not the visibility of the table.
References
* SAP SuccessFactors Story Reporting Guide

NEW QUESTION # 39
You are configuring a story report. You add the image widget to the top-left corner of the canvas. You then upload the SAP SuccessFactors logo in the Builder, and select the logo image so it displays on the canvas.
When you preview the report in View Mode, the logo appears centered on the canvas. What action do you take so the Logo appears in the top-left corner when viewing the report in View Mode?

- A. In Designer Mode, add another widget under the image.
- B. In Styling for the page, set the Page Size to Fixed.
- C. In Builder for the image, set the image to Dynamic.
- D. In Styling for the image, set the Image Properties to Pan.

Answer: B

Explanation:
* Issue Description:
* When the logo appears centered in View Mode instead of the top-left corner, it is because the page size is set to a responsive layout.
* Solution:
* Go to Styling for the page in the report configuration.
* Change the Page Size from responsive to Fixed.
* This ensures that elements like the logo remain positioned as designed, including in the top-left corner.

NEW QUESTION # 40
You are creating a query for a historical compensation story report in Query Designer. You have added the Job Information table to the query, configured a scope filter, and previewed the result to verify you are returning the appropriate employees. You add the related table Compensation to the query.

When you preview the query, you only get the current compensation information for the employees. Why do you only receive the current records? Note: There are 2 correct answers to this question.

- A. The compensation table time filter is set to: Same Filter as First Table.
- B. The Job information table time filter is set to: As of Date > Dynamic Date: Today.
- C. The compensation table time filter is set to: As of Date > Dynamic Date: Today.
- D. The Query Advanced Filter is set to: Job Information effective start date equal to Dynamic Date Today.

Answer: C,D

Explanation:
* Understanding Time Filters in Query Designer
* When creating a query, time filters determine the scope of the data retrieved. Filters such as As of Date or Dynamic Date often default to "Today," which retrieves only current records.
* Reason for Current Records Only
* Option B: The Compensation table filter is explicitly set to As of Date > Dynamic Date: Today.
This restricts the results to only the current compensation records.
* Option D: The Job Information filter is configured to match records with the effective start date equal to today, which also limits the results to current data.
* Why Other Options are Incorrect
* A: This filter applies to Job Information, not Compensation, and does not explain why only current compensation records are retrieved.
* C: "Same Filter as First Table" would align filters between tables, but does not necessarily restrict to current data.
References
* SAP SuccessFactors Query Designer Guide

NEW QUESTION # 41
When a user builds a query, what is the default People Scope of the query?

- A. Direct Reports of the logged-in user
- B. All employees in the department of the logged-in user
- C. The HR reports of the logged-in user
- D. All Reports of the logged-in user

Answer: A

Explanation:
* Default People Scope:
* When building a query, the default People Scope is set to the Direct Reports of the logged-in user. This ensures the user only sees data relevant to their scope of responsibility.

NEW QUESTION # 42
......

For the purposes of covering all the current events into our C-THR92-2505 study guide, our company will continuously update our training materials. And after payment, you will automatically become the VIP of our company, therefore you will get the privilege to enjoy free renewal of our C-THR92-2505 practice test during the whole year. No matter when we have compiled a new version of

our C-THR92-2505 Training Materials our operation system will automatically send the latest version of the C-THR92-2505 preparation materials for the exam to your email, all you need to do is just check your email then download it.
