

Mock GH-200 Exam, GH-200 Valid Dumps

What's more, part of that DumpsReview GH-200 dumps now are free: https://drive.google.com/open?id=1H4H1EFo2TQiPwnF_A0_k9RFPyJMOoBvS

To provide ease and accessibility, DumpsReview offers Microsoft GH-200 exam questions in PDF format. This format is easy to understand, and you can download the GH-200 exam questions pdf file on all smart devices. You can prepare for the GitHub Actions (GH-200) exam anytime, anywhere using DumpsReview GH-200 exam dumps.

Microsoft GH-200 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Author and Maintain Workflows: This section of the exam measures skills of DevOps Engineers and Automation Specialists and covers building and managing workflows triggered by events such as pushes, scheduled times, manual triggers, and webhooks. It includes understanding workflow components like jobs, steps, actions, and runners, syntax correctness, environment variables, secrets management, and dependencies between jobs. Candidates will also demonstrate practical abilities to create workflows for various purposes, including publishing packages, using service containers, routing jobs, and deploying releases to cloud providers.
Topic 2	<ul style="list-style-type: none">• Manage GitHub Actions in the Enterprise: This section measures the expertise of Enterprise Administrators and Platform Engineers in distributing and managing GitHub Actions and workflows at the organizational level. It includes reuse and sharing of templates, strategies for managing reusable components via repositories and naming conventions, controlling access to actions, setting organization-wide usage policies, and planning maintenance to ensure efficient enterprise-wide deployment of GitHub Actions.
Topic 3	<ul style="list-style-type: none">• Consume Workflows: This domain targets Software Developers and Quality Assurance Engineers and focuses on interpreting workflow runs and their outcomes. It covers identifying triggering events, reading workflow configurations, troubleshooting failures by analyzing logs, enabling debug logging, managing environment variables, caching dependencies, and passing data between jobs. Candidates also manage workflow runs, artifacts, approvals, and status badges, as well as locating workflows within repositories and leveraging organizational templated workflows.

Topic 4	<ul style="list-style-type: none"> • Author and Maintain Actions: This domain evaluates the abilities of Action Developers and Automation Engineers to select and create suitable types of GitHub Actions, such as JavaScript, Docker containers, or run steps. It emphasizes troubleshooting action code, understanding the components and file structures of actions, and using workflow commands within actions to communicate with runners, including exit code management.

Microsoft GH-200 Valid Dumps, GH-200 Exam Paper Pdf

While GH-200 exam preparing for the GitHub Actions (GH-200) exam, candidates have to pay extra money when Microsoft introduces new changes. With DumpsReview you can save money in this scenario as up to 365 days of free updates are available. You can also download a free demo to understand everything about DumpsReview GH-200 Exam Material before buying.

Microsoft GitHub Actions Sample Questions (Q15-Q20):

NEW QUESTION # 15

As a developer, you have a 10-MB data set that is required in a specific workflow. Which steps should you perform so the dataset is stored encrypted and can be decrypted during the workflow? (Choose three.)

- A. Leverage the actions/download-secret action in the workflow.
- B. Create a GitHub encrypted secret with the Large object option selected and upload the dataset.
- C. Encrypt the dataset.
- D. Commit the encrypted dataset to the same repository as the workflow
- E. Compress the dataset
- F. Store the encryption keys in a GitHub encrypted secret.
- G. Store the dataset in a GitHub encrypted secret.

Answer: C,F,G

Explanation:

First, the dataset should be encrypted before being stored. This ensures that the data is protected when stored in a repository.

The encrypted dataset can be stored in a GitHub secret, ensuring it is securely kept and not exposed publicly.

The encryption key needed to decrypt the dataset should also be stored in a GitHub secret to maintain security during the workflow, allowing access only when needed.

NEW QUESTION # 16

As a developer, you are authoring a workflow that will deploy to both DevCloud and TestCloud resources. Each cloud resource is accessed with a different deployment key. Which approach best allows you to use the same reusable workflow in separate jobs to target the different cloud resources?

- A. Use a marketplace action to conditionally parse the DEPLOY_KEY repository secret based on the cloud resource name.
- B. Populate a DEPLOY_KEY repository secret with a JSON object containing DevCloud and TestCloud properties. Then specify DEPLOY_KEY.DevCloud in the secrets sections of the reusable workflow.
- C. Store the different keys in a DEPLOY_KEY environment secret in the DevCloud and TestCloud environments. Specify DEPLOY_KEY in the secrets section of the reusable workflow.
- D. Create repository secrets named DevCloud.DEPLOY_KEY and TestCloud.DEPLOY_KEY so that the reusable workflow parses the secrets by resource name.

Answer: C

Explanation:

Using inputs and secrets in a reusable workflow

You can define inputs and secrets, which can be passed from the caller workflow and then used within the called workflow.

In the reusable workflow, use the inputs and secrets keywords to define inputs or secrets that will be passed from a caller workflow.

on:

workflow_call:

inputs:
config-path:
required: true
type: string
secrets:
personal_access_token:
required: true
Reference:
<https://docs.github.com/en/enterprise-cloud@latest/actions/how-tos/reuse-automations/reuse-workflows>

NEW QUESTION # 17

Which default GitHub environment variable indicates the owner and repository name?

- A. ENV_REPOSITORY
- B. GITHUB_WORKFLOW_REPO
- C. GITHUB_REPOSITORY
- D. REPOSITORY_NAME

Answer: C

Explanation:

Variables reference

Find information for supported variables, naming conventions, limits, and contexts in GitHub Actions workflows.

Variables include:

* GITHUB_REPOSITORY

The owner and repository name. For example, octocat/Hello-World

* Etc.

Reference:

<https://docs.github.com/en/actions/reference/workflows-and-actions/variables>

NEW QUESTION # 18

When reviewing an action for use, what file defines its available inputs and outputs?

- A. config.json
- B. workflow.yml
- C. defaults.json
- D. action.yml
- E. inputs.yml

Answer: D

Explanation:

The action.yml file defines the inputs and outputs for a GitHub Action. This file contains metadata about the action, including the required inputs and outputs, as well as other configurations like the action's description, runs, and environment setup.

NEW QUESTION # 19

As a developer, you want to review the step that caused a workflow failure and the failed step's build logs. First navigate to the main page of the repository on GitHub. Which section contains the step failure information?

- A. Insights
- B. Pull requests
- C. Issues
- D. Actions
- E. Code

Answer: D

Explanation:

The Actions tab on the main page of the repository is where you can find detailed information about the workflow runs, including step failures and build logs. You can review the status of each job and step within the workflow, see the failure messages, and access logs for debugging.

NEW QUESTION # 20

.....

When you first contacted us with GH-200 quiz torrent, you may be confused about our GH-200 exam question and would like to learn more about our products to confirm our claims. We have a trial version for you to experience. If you encounter any questions about our GH-200 learning materials during use, you can contact our staff and we will be happy to serve for you. Maybe you will ask if we will charge an extra service fee. We assure you that we are committed to providing you with guidance on GH-200 Quiz torrent, but all services are free of charge. As for any of your suggestions, we will take it into consideration, and effectively improve our GH-200 exam question to better meet the needs of clients. In the process of your study, we have always been behind you and are your solid backing. This will ensure that once you have any questions you can get help in a timely manner.
