## Real Adobe AD0-E725 Exam & Latest AD0-E725 Test Answers

There is always a fear of losing the AD0-E725 exam and this causes you may loss your money and waste the time. There is no such issue if you study our AD0-E725 exam questions. Your money and exam attempt is bound to award you a sure and definite success if you study with our AD0-E725 Study Guide to prapare for the exam. According to our data, our pass rate of the AD0-E725 practice engine is high as 98% to 100%. So if you choose our AD0-E725 learning quiz, you will pass for sure.

### Adobe Commerce Developer Expert Sample Questions (Q40-Q45):

#### NEW QUESTION # 40

An Adobe Commerce Developer is approached to disable several cron jobs from a customization completed by a third-party agency. The cron jobs will eventually be enabled again once a code review of the cron jobs is complete.

Using best principles, how should the Developer action this request?

- A. Add the schedule="\* \* \* \* \*" to the <job> node in the crontab.xml file.
- B. Edit the schedule with a date which will never happen in the crontab.xml file.
- C. Add the disabled="true" to the <job> node in the crontab.xml file.

**Answer: C**

Explanation:

Adobe Commerce provides a configuration flag disabled="true" for cron job definitions in crontab.xml.

When set, it prevents the job from being executed, while still keeping the job definition in place. This allows developers to temporarily disable cron jobs without deleting or altering their schedules - a best practice in scenarios where the jobs will later be re-enabled.

\* Option A (schedule="\* \* \* \* \*") would instead run the cron job every minute, which is the opposite of disabling it.

\* Option B (setting an impossible date) is a hack and not recommended, as it introduces fragile configuration that can confuse future maintainers.

\* Option C is the official and proper way to disable a cron job in Adobe Commerce.

Official Documentation Extracts:

\* "To disable a job, add the attribute disabled="true" to the <job> node in crontab.xml."- Adobe Commerce DevDocs: Configure cron jobs

\* "You can disable a cron job without removing its definition by setting disabled="true". This is useful for temporary maintenance or debugging."- Adobe Commerce PHP Developer Guide: Cron configuration

#### NEW QUESTION # 41

A third-party company wants to integrate into Adobe Commerce by using webhooks; they would like to emulate the webhook endpoint. As part of this process, they will send payload data to a Developer for testing.

What format should the payload be as part of the webhook test command?

- A. Plain text
- B. JSON
- C. XML

**Answer: B**

#### NEW QUESTION # 42

A Developer is tasked with creating a new index. The custom indexer is not automatically updating the product data. How should the Developer solve this issue?

- A. Implement custom database triggers.
- **B. Use the `mview` to allow tracking database changes.**
- C. Use an event observer to monitor data changes.

**Answer: B**

#### NEW QUESTION # 43

A Developer needs to replicate a recent issue that occurred in the staging environment so it can be tested locally. The Developer decides to dump the staging database and import it into the local setup. Which command should the Developer use to do this?

- A. `magento-cloud snapshot:db-dump`
- **B. `vendor/bin/ece-tools db-dump`**
- C. `vendor/bin/ece-tools db-snapshot`

**Answer: B**

#### NEW QUESTION # 44

A Developer is writing an integration test. The functionality being tested has many admin area configurations that need to be tested. Which DocBlock annotation should be used to allow configuration settings to be manipulated for testing purposes?

- **A. `@testConfigFixture`**
- B. `@testAdminConfigFixture`
- C. `@testAdminArea`

**Answer: A**

Explanation:

The correct annotation is `@testConfigFixture`. It allows developers to set or override configuration values during tests.

A does not exist.

B does not exist.

C is correct: `@testConfigFixture` provides a way to programmatically adjust admin configurations for the scope of the test.
