The Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification is a valuable credential that every Cisco professional should earn it. The Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification exam offers a great opportunity for beginners and experienced professionals to demonstrate their expertise. With the Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification exam everyone can upgrade their skills and knowledge. There are other several benefits that the Cisco 300-540 exam holders can achieve after the success of the Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification exam.

The Designing and Implementing Cisco Service Provider Cloud Network Infrastructure certification exam is a valuable asset for beginners and seasonal professionals. If you want to improve your career prospects then 300-540 certification is a step in the right direction. Whether you're just starting your career or looking to advance your career, the 300-540 Certification Exam is the right choice. With the 300-540 certification you can gain a range of career benefits which include credibility, marketability, validation of skills, and access to new job opportunities.

By unremitting effort to improve the accuracy and being studious of the 300-540 real questions all these years, our experts remain unpretentious attitude towards our 300-540 practice materials all the time. They are unsuspecting experts who you can count on. Without unintelligible content within our 300-540 Study Tool, all questions of the exam are based on their professional experience in this industry. Besides, they made three versions for your reference, the PDF, APP and Online software version.

Cisco Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Sample Questions (Q183-Q188):

NEW QUESTION # 183
Implementing multi-homing in a network design provides _____.

- A. redundancy
- B. decreased bandwidth
- C. increased latency
- D. decreased security

Answer: A

NEW QUESTION # 184
EVPN over SR/MPLS can solve which of the following issues?

- A. Inability to use public internet for private connectivity
- B. Lack of multicast support in traditional networks
- C. The need for manual route configuration in large networks
- D. High costs associated with physical cabling

Answer: B,C

NEW QUESTION # 185
The primary goal of implementing a virtual private cloud (VPC) is to:

- A. Reduce overall cloud costs
- B. Provide isolated network environments within a public cloud
- C. Simplify network management
- D. Decrease network security

Answer: B

NEW QUESTION # 186
Cloud agents are deployed for:

- A. Reducing data storage needs
- B. Manual network configuration
- C. Physical security
- D. Automated network and performance monitoring

Answer: D

NEW QUESTION # 187
Refer to the exhibit. An engineer must configure iBGP multipath load sharing across three paths. Which two commands must be run

on router R2? (Choose two.)

- A. ip load-sharing ibgp 3
- B. router bgp 101
- C. ip load-sharing per-destination
- D. maximum-paths ibgp 3
- E. router bgp 100

Answer: D,E

Explanation:
RouterR2is insideAS 100and has three iBGP paths (via R3, R4, R5) toward AS 101. To performiBGP multipathacross these three equal-cost paths, BGP must:
* Run the correct BGP process forAS 100
* Allow installation of multiple iBGP paths in the routing table
This is done with:
router bgp 100
maximum-paths ibgp 3
* router bgp 100- enters the BGP process for AS 100 (correct AS per diagram).
* maximum-paths ibgp 3- tells BGP to keep up to 3 iBGP paths to the same destination, enabling CEF to load-share across them.
Other options:
* ip load-sharing ibgp 3- not a valid command.
* router bgp 101- wrong AS number.
* ip load-sharing per-destination- controls CEF hashing but does not enable BGP to install multiple iBGP paths by itself.

NEW QUESTION # 188

......

Regarding the process of globalization, every fighter who seeks a better life needs to keep pace with its tendency to meet challenges. 300-540 certification is a stepping stone for you to stand out from the crowd. The 300-540 exam guide function as a time-counter, and you can set fixed time to fulfill your task, so that promote your efficiency in real test. The key strong-point of our 300-540 Test Guide is that we impart more important knowledge with fewer questions and answers, with those easily understandable 300-540 study braindumps, you will find more interests in them and experience an easy learning process.
