- A. Select Field Configuration and under the Advanced tab set the Sequence property, then publish.
- B. Fields are presented in alphabetical order of the field label.

- D. Navigate to the UI where the class is presented, select Customize in the banner, edit, and drag and drop fields, then publish.

Answer: A,C

Explanation:

Custom Contract Workspace field order can be controlled through two methods:

* Using the Layout tab in Field Configuration, where fields can be dragged and dropped to reorder them visually, followed by publishing the changes.

* Using the Sequence property under the Advanced tab, assigning numeric values that define the sort order, with lower numbers appearing first.
