## OCI 1Z0-1042-24
### Exam Dumps

1. As an integration developer, you are implementing an integration in oracle integration (OIC) to transform a payload with multiple orders. You have decided to leverage the for each action to loop through each order and process them individually. How do you configure the for each action to support this scenario? Answer 1: Select the repeating element field and map the source element that contains the orders.
   Answer 2: Select the group by option separating the orders by their order number.
   Answer 3: Select the parallel processing option and set the number of threads to the number of orders.
   Answer 4: Select the sequential processing option and set the number of threads to the number of orders.

   **Answer 1: Select the repeating element field and map the source element that contains the orders.**

2. What is the purpose of adding and configuring a wait action in the schedule pattern integration flow?
   Answer 1: It is used to configure a global variable for delay settings.
   Answer 2: It is used to trigger an error after a specified duration.
   Answer 3: It can be configured to loop through elements until a condition is met.
   Answer 4: It is used to suspend processing within the integration flow.
   Answer 5: It is used to schedule integration runs at specific times.

   **Answer 4: It is used to suspend processing within the integration flow.**

3. Which of these tasks are not required to implement a pub/sub (publish-subscribe) solution in oracle integration (OIC)?
   Answer 1: Create a defined event which must use the JSON format.
   Answer 2: Add and configure a publish event action within an integration flow.
   Answer 3: Define an event adapter connection.
   Answer 4: Create an event pattern integration selecting an event as the trigger.

It follows its goal by giving a completely free demo of real Oracle 1z0-1042-24 exam questions. The free demo will enable users to assess the characteristics of the Oracle 1z0-1042-24 Exam product. ValidExam will provide you with free Oracle 1z0-1042-24 actual questions updates for 365 days after the purchase of our product.

Many students often start to study as the exam is approaching. Time is very valuable to these students, and for them, one extra hour of study may mean 3 points more on the test score. If you are one of these students, then Oracle Cloud Infrastructure 2024 Application Integration Professional exam tests are your best choice. Because students often purchase materials from the Internet, there is a problem that they need transport time, especially for those students who live in remote areas. When the materials arrive, they may just have a little time to read them before the exam. However, with 1z0-1042-24 Exam Questions, you will never encounter such problems, because our materials are distributed to customers through emails.

## 1z0-1042-24 Relevant Answers, 1z0-1042-24 Torrent

Passing the Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) certification is crucial for those who want to excel in the Oracle industry. However, one of the biggest challenges that individuals face after deciding to take the Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) exam is finding authentic 1z0-1042-24

questions for efficient preparation. Those who do not study with real Oracle Cloud Infrastructure 2024 Application Integration Professional (1z0-1042-24) dumps often fail the test and waste their valuable resources.

# Oracle Cloud Infrastructure 2024 Application Integration Professional Sample Questions (Q35-Q40):

**NEW QUESTION # 35**
You can recover unsaved changes in an Oracle Integration Cloud (OIC) integration that crashes during design time because of a browser crash, loss of network connectivity, or a server going down. Which statement is NOT true about the unsaved changes feature in OIC?

- A. A user with the ServiceAdministrator role can recover the unsaved changes.
- B. A user with the ServiceAdministrator role can unlock an integration that has unsaved changes.
- C. Changes made while working inside a data mapper cannot be recovered.
- D. Changes made while editing a Connections page cannot be recovered.
- E. A backup copy is created after each complete task, therefore there is no time limit to logging back in and recovering the changes.

**Answer: C**

Explanation:
Comprehensive and Detailed Explanation:
OIC's unsaved changes feature safeguards design-time work against disruptions. Let's explore each option in detail:
* Option A: A user with the ServiceAdministrator role can recover the unsaved changes.
* True:The ServiceAdministrator role has elevated privileges, including recovering unsaved changes from a crashed session. For example, if a developer's browser crashes mid-flow, an admin can log in, access the integration, and restore the draft. This ensures continuity in team workflows.
* Option B: A user with the ServiceAdministrator role can unlock an integration that has unsaved changes.
* True:If an integration is locked due to a crash (e.g., user session terminates unexpectedly), a ServiceAdministrator can unlock it, allowing recovery or further editing. This is critical in scenarios where a developer leaves an integration in a locked state.
* Option C: Changes made while editing a Connections page cannot be recovered.
* True:OIC's recovery mechanism doesn't extend to the Connections page. Connection edits (e.g., updating credentials) are separate from integration flows and lack the same autosave granularity.
If a crash occurs here, changes are lost, requiring re-entry.
* Option D: Changes made while working inside a data mapper cannot be recovered.
* False (Not True):Mapper changes (e.g., mapping fields between source and target)are recoverable. OIC autosaves mapper edits as part of the integration draft. For instance, if you map
"OrderID" to "PurchaseID" and the browser crashes, logging back in restores this work. This makes D the incorrect statement and the answer.
* Option E: A backup copy is created after each complete task, therefore there is no time limit to logging back in and recovering the changes.
* True:OIC creates backups after significant actions (e.g., adding an action, saving a map). There's no strict time limit for recovery, as drafts persist until overwritten or discarded, offering flexibility post-crash.
Why D is the answer:Mapper changes are integral to integration design and covered by OIC's autosave, unlike Connection edits (C). D's claim contradicts this capability.
Use Case Example:A developer mapping a complex payload in an ERP-to-CRM sync recovers their work after a network drop, proving mapper recovery works.

**NEW QUESTION # 36**
Which Oracle Integration Cloud (OIC) service role does NOT have permission to run an OIC integration flow?

- A. ServiceAdministrator
- B. ServiceInvoker
- C. ServiceUser
- D. ServiceDeveloper

**Answer: B**

Explanation:
The ServiceInvoker role is primarily designed for invoking integrations programmatically via REST/SOAP APIs and cannot manually

run integrations from the OIC console.

## NEW QUESTION # 37
You have a use case that requires a large data extract, which is more than 10MB, to be processed within an Oracle Integration Cloud (OIC) integration. Which are three valid options?

- A. Retrieve the file from an external endpoint using APIs that support application/blob as content type, and make it available for processing using a Stage File action.
- B. Upload the file to the OIC file server, and then use an FTP adapter Download File operation, which makes it available for processing using a Stage File action.
- C. Retrieve the file by invoking a SOAP API, which sends the document as an MTOM attachment, and make it available for processing using a Stage File action.
- D. Send the file as a multipart attachment to an OIC integration using a REST trigger, and make it available for processing using a Stage File action.
- E. Retrieve the file by invoking a SOAP API, which sends Base64 encoded data within the SOAP body, and then decode the data and make it available for processing using a Stage File action.

**Answer: A,C,D**

Explanation:
Comprehensive and Detailed Explanation:
Handling large files (>10MB) in OIC requires efficient mechanisms to avoid memory issues. Let's analyze each option:
* Option A:True-REST trigger with multipart attachments is ideal for inbound large files, processed via Stage File.
* Option B:False-Base64 in SOAP body bloats data (33% overhead), risking memory limits for
>10MB files.
* Option C:True-MTOM optimizes SOAP attachments, suitable for large files, processed with Stage File.
* Option D:True-APIs returning application/blob handle binary data efficiently, staged for processing.

## NEW QUESTION # 38
When defining the frequency for scheduled orchestration style integration runs, you can choose either Basic or the Advanced option. Which expression format is used for defining advanced scheduled runs?

- A. cron
- B. Groovy
- C. YAML
- D. iCal

**Answer: D**

Explanation:
Oracle Integration Cloud uses the iCal (iCalendar) format for advanced scheduling expressions, allowing for detailed and flexible scheduling configurations.

## NEW QUESTION # 39
What two tasks can a user with the Application Developer role perform?

- A. Create an API.
- B. Deploy to a Gateway.
- C. Create an Application.
- D. Subscribe to a Plan.

**Answer: A,C**

Explanation:
Application developers can create APIs and applications within Oracle Integration Cloud (OIC). They have the capability to define API logic and group resources. Subscribing to plans or deploying to gateways is generally reserved for administrators.

**NEW QUESTION # 40**

......

Everyone has different learning habits, 1z0-1042-24 exam simulation provide you with different system versions: PDF version, Software version and APP version. Based on your specific situation, you can choose the version that is most suitable for you, or use multiple versions at the same time. After all, each version of 1z0-1042-24 Preparation questions have its own advantages. If you are very busy, you can only use some of the very fragmented time to use our 1z0-1042-24 study materials. And each of our 1z0-1042-24 exam questions can help you pass the exam for sure.

**1z0-1042-24 Relevant Answers**: https://www.validexam.com/1z0-1042-24-latest-dumps.html

You can must success in the 1z0-1042-24 real test, We are equipped with a team of IT elites who have a good knowledge of IT field and do lots of study in 1z0-1042-24 Relevant Answers - Oracle Cloud Infrastructure 2024 Application Integration Professional actual test, If you really want to look for Oracle 1z0-1042-24 learning materials in a reliable company, we will be your best choice which has powerful strength and stable pass rate, Oracle 1z0-1042-24 Reliable Braindumps Questions In addition, if you become our regular customers, there are more preferential policies and membership discounts available.

Problem Solving with Loops, Though still in 1z0-1042-24 Reliable Braindumps Questions its formative stages, the concept of the universal network is now out of the bag,and strategically, the resulting technologies 1z0-1042-24 Exam Introduction will open up a complete new world on the Internet for businesses of all sizes.

# Real Exam Experience with the Oracle 1z0-1042-24 Practice Test

You can must success in the 1z0-1042-24 real test, We are equipped with a team of IT elites who have a good knowledge of IT field and do lots of study in Oracle Cloud Infrastructure 2024 Application Integration Professional actual test.

If you really want to look for Oracle 1z0-1042-24 learning materials in a reliable company, we will be your best choice which has powerful strength and stable pass rate.

In addition, if you become our regular customers, there 1z0-1042-24 are more preferential policies and membership discounts available, Our company is reasonable and faithful.
