

New 1z0-1080-25 Dumps Sheet, New 1z0-1080-25 Test Cram

P.S. Free & New 1z0-1080-25 dumps are available on Google Drive shared by LatestCram: https://drive.google.com/open?id=1EO16rzbbxcOfWN_AkmJ48YjK9Gh1PH8gZ

Though there are three versions of the 1z0-1080-25 training braindumps: the PDF, Software and APP online. I like the Software version the most. This version of our 1z0-1080-25 training quiz is suitable for the computers with the Windows system. It is a software application which can be installed and it stimulates the real exam's environment and atmosphere. It builds the users' confidence and the users can practice and learn our 1z0-1080-25 learning guide at any time.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 2	<ul style="list-style-type: none">Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 3	<ul style="list-style-type: none">Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 4	<ul style="list-style-type: none">Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 5	<ul style="list-style-type: none">Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.
Topic 6	<ul style="list-style-type: none">Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.

Topic 7	<ul style="list-style-type: none"> Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 8	<ul style="list-style-type: none"> Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 9	<ul style="list-style-type: none"> Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 10	<ul style="list-style-type: none"> Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 11	<ul style="list-style-type: none"> Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 12	<ul style="list-style-type: none"> Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 13	<ul style="list-style-type: none"> Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 14	<ul style="list-style-type: none"> Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 15	<ul style="list-style-type: none"> Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 16	<ul style="list-style-type: none"> Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 17	<ul style="list-style-type: none"> Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 18	<ul style="list-style-type: none"> Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 19	<ul style="list-style-type: none"> Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system.
Topic 20	<ul style="list-style-type: none"> Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 21	<ul style="list-style-type: none"> Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 22	<ul style="list-style-type: none"> Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 23	<ul style="list-style-type: none"> Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 24	<ul style="list-style-type: none"> Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.

Topic 25	<ul style="list-style-type: none"> Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 26	<ul style="list-style-type: none"> This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 27	<ul style="list-style-type: none"> Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.

New Oracle 1z0-1080-25 Test Cram | Valid Test 1z0-1080-25 Format

In the era of rapid changes in the knowledge economy, do you worry that you will be left behind? Let's start by passing the 1z0-1080-25 exam. Getting a 1z0-1080-25 certificate is something that many people dream about and it will also bring you extra knowledge and economic benefits. The 1z0-1080-25 latest question we provide all candidates that that is compiled by experts who have good knowledge of exam, and they are very experience in compile study materials. Not only that, our team checks the update every day, in order to keep the latest information of 1z0-1080-25 Exam Question.

Oracle Planning 2025 Implementation Professional Sample Questions (Q80-Q85):

NEW QUESTION # 80

You need to schedule a weekly data import job. Which two statements are true about scheduling jobs?

- A. You can schedule an Import Data job to run later at intervals.
- B. You can check the execution status of a job only if it completed.
- C. You can set to receive notifications when the job has completed.
- D. You can set the daily maintenance time when scheduling cloning environment jobs.
- E. You can delete that are currently processing.

Answer: A,C

Explanation:

In Oracle Planning 2024, scheduling jobs such as a weekly data import is managed through the Jobs interface, which provides options for automation, monitoring, and notifications. Let's evaluate the provided statements to identify the two that are true:

* A. You can check the execution status of a job only if it completed: This is false. The Jobs console in Oracle EPM allows users to check the status of a job (e.g., Running, Completed, Failed) at any time, not just after completion. Real-time monitoring is a key feature.

* B. You can set the daily maintenance time when scheduling cloning environment jobs: This is false.

Daily maintenance time is a system-wide setting controlled by administrators via Application Settings, not something adjustable when scheduling specific jobs like cloning or data imports.

* C. You can set to receive notifications when the job has completed: This is true. When scheduling a job (e.g., Import Data), users can enable email notifications to be alerted upon job completion, success, or failure, enhancing job management.

* D. You can schedule an Import Data job to run later at intervals: This is true. The scheduling feature supports recurring jobs, such as weekly data imports, allowing users to define the start time and frequency (e.g., daily, weekly) for tasks like importing data from external sources.

* E. You can delete that are currently processing: This is false. Jobs that are currently processing (i.e., in a "Running" state) cannot be deleted until they complete or fail, as per Oracle's job management rules.

Thus, the two true statements are C and D, reflecting the flexibility of scheduling recurring Import Data jobs and receiving completion notifications, both of which are explicitly supported in Oracle Planning 2024.

NEW QUESTION # 81

Which three options can you enable for Manage Existing Assets in Capital?

- A. Improvements/Impairments
- B. Retirements
- C. Transfers
- D. Named Assets
- E. Leased Assets

Answer: A,B,C

NEW QUESTION # 82

Given these two use cases:

Create a starting point for subsequent versions and replicate your First Pass version to a Second Pass version and make changes to it.

Save your baseline version data for your records and future analysis.

Which Planning Service Administrator-only feature or component can you use to perform tasks for these use cases?

- A. Version mapping
- B. Version management
- C. Task manager
- D. Copy versions

Answer: D

NEW QUESTION # 83

You want to associate events with a prediction. Which two statements about configuring insights with events are true?

- A. You can define an event but choose to not include data from that event in the prediction.
- B. When you set up events, they are automatically included in prediction calculations.
- C. For an event that regularly repeats but doesn't occur at exactly the same time each year, you can specify an exact date.
- D. If you have configured events, they are included by default for the IPM insights job you schedule.

Answer: A,D

NEW QUESTION # 84

Which two are primary use cases for an ASO reporting cube?

- A. You want to report on Smart Lists.
- B. You want to report on new Planning data originating from any source, such as a data warehouse.
- C. You want to save data for upper-level members.
- D. You want to create and execute complex Calculation Manager business rules.

Answer: A,C

NEW QUESTION # 85

.....

Success in the 1z0-1080-25 test of the Oracle 1z0-1080-25 credential is essential in today's industry to verify the skills and get well-paying jobs in reputed firms around the whole globe. Earning the Oracle Planning 2025 Implementation Professional 1z0-1080-25 Certification sharpens your skills and helps you to accelerate your career in today's cut throat competition in the Oracle industry. It is not easy to clear the 1z0-1080-25 exam on the maiden attempt.
