Ursa Major Solar (UM5) works with local installation companies. The installers need to collaborate with their co-workers as well as with UMS staff.

Which user visibility setting needs to be enabled at a minimum?

- A. Portal User Visibility
- B. Community User Visibility
- C. Site User Visibility
- D. Guest User Visibility

Answer: A

Explanation:

To enable the installers to collaborate with their co-workers and UMS staff, UMS needs to enable Portal User Visibility. This is a user visibility setting that allows portal users to see other portal users who have the same role or a role below them in the role hierarchy. This also allows portal users to see internal users who are above them in the role hierarchy. Portal User Visibility can be enabled in the Sharing Settings page in Setup.
