

Test 1Z0-1072-25 Free | 1Z0-1072-25 New Question

2026 Latest TestPassed 1Z0-1072-25 PDF Dumps and 1Z0-1072-25 Exam Engine Free Share: https://drive.google.com/open?id=1z_3ZA7HKtoHRVjLs64DR3yDeXZUHKsVh

During review, you can contact with our after-sales if there are any problems with our 1Z0-1072-25 exam torrent. They will help you 24/7 all the time. These services assure you avoid any loss. Besides, our passing rate of 1Z0-1072-25 practice materials has reached up to 98 to 100 percent up to now, so you cannot miss this opportunity. Besides, free updates of 1Z0-1072-25 Exam Torrent will be sent to your mailbox freely for one year, hope you can have a great experience during usage of our practice materials.

Oracle 1Z0-1072-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Networking: Targeting network architects designing secure cloud architectures, this domain focuses on Virtual Cloud Network (VCN) implementation, including subnet design, IP address management, and routing through gateways (NAT, service, internet). It assesses expertise in VPN• FastConnect deployment, DNS configuration, load balancer setup, and advanced tools like Network Path Analyzer for troubleshooting latency or connectivity issues.
Topic 2	<ul style="list-style-type: none">• Compute: This section measures skills of cloud architects responsible for designing scalable and resilient infrastructure, covering compute instance configuration, autoscaling policies, and OS management. It evaluates understanding of OCI compute image options, infrastructure maintenance processes, and strategies for optimizing instance performance across availability domains.
Topic 3	<ul style="list-style-type: none">• Storage: Designed for storage administrators managing enterprise data solutions, this section tests proficiency in deploying Block• File• Object Storage with lifecycle management, cross-region replication, and tiered storage strategies. It includes configuring volume groups, snapshots, versioning, and security controls while analyzing storage performance metrics and cost optimization techniques.

Topic 4	<ul style="list-style-type: none"> • Identity and Access Management (IAM): This domain validates skills of security architects implementing granular access controls, emphasizing IAM policy creation, compartment organization, and dynamic group configuration. It covers identity domain management, network source restrictions, and tag-based access mechanisms to enforce least-privilege principles across OCI resources

100% Pass 2026 Trustable Oracle Test 1Z0-1072-25 Free

Many applicants do not fulfill their dream of becoming professionals because of using outdated exam preparation material. Failure in the Oracle Cloud Infrastructure 2025 Architect Associate exam leads them to anxiety. If this situation sounds familiar, do not waste time and get your hands on Oracle 1Z0-1072-25 for exam preparation.

Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q47-Q52):

NEW QUESTION # 47

With OCI's pricing of \$0.0085 USD per Gigabyte for Outbound Data Transfer in North America, how much will they spend per month for 7 Petabytes of Outbound Data Transfer?

- A. \$59,415.00
- B. \$0.00 (free with OCI)
- C. \$150,000.00
- D. \$59,500.00

Answer: D

Explanation:

To calculate the monthly cost for 7 Petabytes (PB) of outbound data transfer at a rate of \$0.0085 per GB in North America:

Calculation:

1 PB = 1,000,000 GB

7 PB = 7,000,000 GB

Cost = 7,000,000 GB * \$0.0085/GB = \$59,500.00

Thus, the cost for 7 PB of outbound data transfer per month is \$59,500.00.

NEW QUESTION # 48

Why is the OCI Inter-Region Latency dashboard useful for optimizing data transfer and backup strategies?

- A. It's designed for troubleshooting latency issues within your specific applications.
- B. It offers a current and historical view of latency snapshots.
- C. It provides real-time data specific to your tenancy's workloads.
- D. It focuses solely on latency within your own tenancy.

Answer: B

Explanation:

The OCI Inter-Region Latency dashboard is useful for optimizing data transfer and backup strategies because it provides both current and historical views of latency snapshots between OCI regions. This information helps you understand the network performance between regions over time, allowing you to optimize the placement of resources and data transfer operations.

Optimization Use: By analyzing latency data, you can make informed decisions on where to store backups and how to efficiently transfer data across regions, potentially reducing costs and improving performance.

Oracle Cloud Infrastructure Documentation: Inter-Region Latency Dashboard

NEW QUESTION # 49

Which image option allows you to create identical instances with minimal effort?

- A. Bring your own image
- B. Use Oracle-provided images
- **C. Create a custom image**
- D. Select an image from the OCI Marketplace

Answer: C

Explanation:

When you need to create identical instances with minimal effort, creating a custom image is the best option.

Custom Images: A custom image captures the exact configuration of an instance, including the OS, software, configurations, and data. By using a custom image, you can easily replicate the same setup across multiple instances, ensuring consistency and reducing the need for manual configuration each time.

Other Options:

Bring Your Own Image: This allows you to import your custom OS image into OCI, but it's more suited for cases where you are migrating from another environment.

Select an Image from the OCI Marketplace: This provides pre-configured images from Oracle or third parties, but they may require additional setup to match your specific requirements.

Use Oracle-Provided Images: These are basic images provided by Oracle, which may not include the specific customizations you need.

Relevant OCI Documentation:

Custom Images Overview

This resource explains how to create and use custom images for quickly deploying identical instances.

NEW QUESTION # 50

Which OCI service would you use to apply kernel security updates to all instances?

- **A. OS Management Service**
- B. Artifact Registry
- C. Data Safe
- D. Container Registry

Answer: A

Explanation:

The OS Management Service in Oracle Cloud Infrastructure (OCI) is designed to manage and maintain the operating systems of your compute instances. This service allows you to apply kernel security updates, manage package installations, and monitor the status of updates across all instances in your environment.

Kernel Security Updates: With OS Management Service, you can automate and schedule kernel updates, ensuring that all instances are up-to-date with the latest security patches. This helps maintain the security and integrity of your infrastructure without needing to manually update each instance.

Other Options:

Container Registry: Used for storing and managing container images, not for applying OS updates.

Data Safe: A service focused on database security, not applicable for OS-level updates.

Artifact Registry: A repository for storing and managing software artifacts, not related to OS management.

Relevant OCI Documentation:

OS Management Service Overview

This documentation provides details on how to use OS Management Service to handle kernel security updates and other OS-level management tasks.

NEW QUESTION # 51

Which Traffic Management Steering Policy facilitates the distribution of DNS traffic based on the geographical location of end users?

- A. ASN Steering
- B. IP Prefix Steering
- **C. Geolocation Steering**

- D. Proximity Steering

Answer: C

Explanation:

Geolocation Steering in OCI's Traffic Management Steering Policy allows you to distribute DNS traffic based on the geographical location of the end users. This method helps direct users to the nearest regional endpoint, optimizing latency and improving user experience.

Use Cases: Geolocation Steering is commonly used to deliver region-specific content, comply with data residency laws, or optimize service performance by directing traffic to the closest available servers.

NEW QUESTION # 52

.....

Are you tired of preparing different kinds of exams? Are you stuck by the aimless study plan and cannot make full use of sporadic time? Are you still overwhelmed by the low-production and low-efficiency in your daily life? If your answer is yes, please pay attention to our 1Z0-1072-25 guide torrent, because we will provide well-rounded and first-tier services for you, thus supporting you obtain your dreamed 1Z0-1072-25 certificate and have a desired occupation. There are some main features of our products and we believe you will be satisfied with our 1Z0-1072-25 test questions.
