Scrum Professional Scrum Product Owner II Sample Questions (Q81-Q86):

NEW QUESTION # 81

During the development effort of your product, you have been frequently approached by various stakeholders asking for new features. You feel that a lot of the requests are either not aligned with the Product's vision or does not contribute to the Product's forward progress.

As a Product Owner, which tool can help stakeholders steer on outcome (value steering) rather than steer on output (steering on features)? (choose the best answer)

- A. GANTT chart.
- B. Release plans
- **C. Goal Oriented product roadmap.**
- D. Now-Next-Later product roadmap
- E. Story maps.

Answer: C

NEW QUESTION # 82

Who is accountable for creating a plan for the Sprint and adhering to the Definition of Done? (choose the best answer)

- A. The Scrum Master.
- B. All of the above.
- **C. The Developers.**
- D. The Scrum Team.
- E. The Product Owner.

Answer: C

Explanation:

According to the Scrum Guide, the Developers are the people in the Scrum Team who are committed to creating any aspect of a usable Increment each Sprint. They are accountable for creating a plan for the Sprint, the Sprint Backlog, and for adhering to the Definition of Done. The Product Owner and the Scrum Master are not accountable for these activities, but they may support the Developers as needed. The Scrum Team as a whole is accountable for delivering a valuable, useful, and potentially releasable Increment each Sprint, but the Developers have the specific accountability for planning and building it. NEW QUESTION # 83

A new competitor has joined the market and has quickly gained market share, which leads to a loss of sales. After investigating, you have found out that the new competitor can release to the market faster than you three times.

What is the best first response? (choose one best answer)

- A. Add new features you think that can attract new customers to the next release.
- **B. Improve your Time-to-Market to compete with the competitor**
- C. Launch the promotion campaign and reduce the product's price to attract more customers.
- D. All of the above

Answer: B

NEW QUESTION # 84

A user satisfaction gap exists when there is a difference between:
(choose the best two answers)

- A. The user's desired outcome.
- B. The market share of the product.
- C. The total market size.
- D. The user's actual experience.

Answer: A,D

Explanation:

Explanation

A user satisfaction gap exists when there is a difference between what the user expects from a product or service and what the user actually experiences^{1,2}. The user's desired outcome is the goal or benefit that the user wants to achieve by using the product or service³. The user's actual experience is the perception and evaluation of the product or service by the user⁴. If the user's actual experience does not meet or exceed the user's desired outcome, the user will be dissatisfied and may switch to a different product or service.

An organization is currently having difficulties delivering new releases of their products in a timely manner. When asked, the teams say that they need to share team members across different teams and products in order for a team to get their work done. At least one team needs help from a member of another team at any point in time.

Which of the following would be the most appropriate response? (choose the best answer)

- A. Reduce the number of products in order to help improve focus and reduce dependencies between teams.
- B. All of the above.
- C. Create project plans for each of the products to include how to coordinate between teams and team members.
- D. Work with HR to hire more people to increase the capacity of the teams.
- E. None of the above.

Answer: A
