If you come to our website to choose our PL-300 real exam, you will enjoy humanized service. Firstly, we have chat windows to wipe out your doubts about our PL-300 exam materials. You can ask any question about our study materials. All of our online workers are going through special training. They are familiar with all details of our PL-300 Practice Guide. If you have any question, you can ask them for help and our services are happy to give you guide on the PL-300 learning quiz.

Microsoft PL-300 (Microsoft Power BI Data Analyst) Certification Exam is designed to test the skills and knowledge of professionals who work with Power BI. Power BI is a business analytics service provided by Microsoft that enables organizations to visualize and analyze their data. A Microsoft Power BI Data Analyst is responsible for creating reports, dashboards, and other visualizations to help organizations make informed decisions. Microsoft Power BI Data Analyst certification exam is a great way for professionals to demonstrate their expertise in Power BI and stand out in the competitive job market.

Microsoft PL-300 certification exam is an excellent way for data analysts to demonstrate their skills and knowledge in the field of business intelligence. With the growing importance of data-driven decision making in today's business landscape, the certification can help professionals stand out in a competitive job market and advance their careers.

The PL-300 Certification Exam is intended for data analysts, business analysts, and other professionals who use Power BI to analyze and visualize data. It is also suitable for individuals who are responsible for creating reports and dashboards for business users or stakeholders. Microsoft Power BI Data Analyst certification can help these professionals demonstrate their expertise in using Power BI to deliver meaningful insights and analysis to their organizations.

Pass Guaranteed Quiz 2026 Microsoft Professional PL-300: New Microsoft Power BI Data Analyst Test Pass4sure

Whether you prefer web-based practice exam, desktop-based exam, or PDF real questions, we've got you covered. We believe that variety is key when it comes to Microsoft PL-300 Exam Preparation, and that's why we offer three formats that cater to different learning styles and preferences.

Microsoft Power BI Data Analyst Sample Questions (Q168-Q173):

NEW QUESTION # 168

You have a Fabric workspace that contains the items shown in the following table.

You need to make content available to the management department and the accounting department at your company. The solution must meet the following requirements:

- * The management department must have view access to the Headcount and Department Expenses reports.
- * The management department must NOT be able to view any other current or future reports.

Answer:

Explanation:

Explanation:

□

NEW QUESTION # 169

You create a report by using Microsoft Power BI Desktop.

The report uses data from a Microsoft SQL Server Analysis Services (SSAS) tabular model located on your company's internal network.

You plan to publish the report to the Power BI Service.

What should you implement to ensure that users who consume the report from the Power BI Service have the most up-to-date data from the tabular model?

- A. an OData feed
- B. an On-premises data gateway
- C. a scheduled refresh of the semantic model
- D. a subscription

Answer: B

NEW QUESTION # 170

You receive revenue data that must be included in Microsoft Power BI reports.

You perform an initial load of the data from a Microsoft Excel source as shown in the following exhibit.

□

You plan to create several visuals from the data, including a visual that shows revenue split by year and product.

You need to transform the data to ensure that you can build the visuals. The solution must ensure that the columns are named appropriately for the data that they contain.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

Answer:

Explanation:

□

1 - Select Use Header as First Row.

2 - Step 1: Select Use Header as First Row.

NEW QUESTION # 171

You have a Power BI workspace that contains a dataset, a report, and a dashboard. The following groups have access:

- External users can access the dashboard.
- Managers can access the dashboard and a manager-specific report.
- Employees can access the dashboard and a row-level security (RLS) constrained report.

You need all users, including the external users, to be able to tag workspace administrators if they identify an issue with the dashboard. The solution must ensure that other users see the issues that were raised.

What should you use?

- A. comments
- B. chat in Microsoft Teams
- C. alerts
- D. subscriptions

Answer: A

Explanation:

Add a personal comment or start a conversation about a dashboard or report with your colleagues. The comment feature is just one of the ways a business user can collaborate with others.

Note: Comments can be added to an entire dashboard, to individual visuals on a dashboard, to a report page, to a paginated report, and to individual visuals on a report page. Add a general comment or add a comment targeted at specific colleagues.
