As soon as you enter the learning interface of our system and start practicing our VMware 2V0-32.24 learning materials on our Windows software, you will find small buttons on the interface. These buttons show answers, and you can choose to hide answers during your learning of our VMware 2V0-32.24 Exam Quiz so as not to interfere with your learning process.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.

Topic 2	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 3	<ul style="list-style-type: none"> Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.
Topic 4	<ul style="list-style-type: none"> Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.

100% Pass 2026 VMware 2V0-32.24 –Professional Practice Exam

If you want to clear the exam for VMware 2V0-32.24 certification along with your job, there is no need to worry about it. You can choose flexible timings for the learning session and get all the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam questions online and practice with VMware 2V0-32.24 exam dumps any time you want. There is no strict schedule for it.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q32-Q37):

NEW QUESTION # 32

Which two support bundle types are available in vRealize Log Insight? (Choose two.)

- A. Streaming Support Bundle
- B. Light Support Bundle
- C. Static Support Bundle
- D. Standard Support Bundle
- E. Full Support Bundle

Answer: B,E

Explanation:

In vRealize Log Insight, two types of support bundles are commonly used:

Light Support Bundle: This bundle contains essential logs and configuration information that can be used for a quick analysis of common issues without including all the detailed data.

Full Support Bundle: This bundle includes a complete set of logs, configuration files, and other diagnostic data, providing a more comprehensive overview for detailed troubleshooting.

NEW QUESTION # 33

An administrator has been tasked with deploying vRealize Operations using a new vRealize Suite Lifecycle Manager (vRSLCM) instance that has already been configured with VMware Identity Manager.

Which item must be configured in vRSLCM before the administrator can complete the deployment?

- A. A valid license for vRealize Suite
- B. A valid license for vRealize Suite Lifecycle Manager

- C. A registered authentication provider
- D. Outbound notifications settings

Answer: C

Explanation:

Before completing the deployment of vRealize Operations through vRSLCM, an authentication provider must be registered. This step ensures that users can authenticate using appropriate credentials, which is especially important when VMware Identity Manager is already configured. Without a registered authentication provider, users would not be able to access the environment or perform necessary tasks.

NEW QUESTION # 34

A vRealize Log Insight (vRLI) administrator wants to search archived logs for certain events. What are the required steps to provide the administrator the ability to search the log messages?

- A. SSH into the vRLI appliance, mount the archiving NFS share then import the archive using CLI.
- B. SSH into the NFS server, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.
- C. SSH into the NFS server, mount the archiving partition, then import the archive using CLI to vRLI appliance.
- D. SSH into the vRLI appliance, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.

Answer: A

Explanation:

To allow the administrator to search archived logs in vRealize Log Insight (vRLI), the logs stored in an NFS share must be imported into the vRLI appliance. The correct steps involve SSHing into the vRLI appliance, mounting the NFS share where the archived logs are stored, and then using the CLI to import the archived logs into the vRLI appliance for searching. This is the standard method for handling archived log files in vRLI.

NEW QUESTION # 35

An administrator is deploying vRealize Log Insight and needs to choose the most performant disk format option. Which option should the administrator choose?

- A. Deploy vRealize Log Insight using the Thick Provision Eager Zeroed disk format.
- B. Deploy vRealize Log Insight using the Thin Provision disk format.
- C. Deploy vRealize Log Insight using Raw Disk Mapping.
- D. Deploy vRealize Log Insight using the Thick Provision Lazy Zeroed disk format.

Answer: A

Explanation:

The most performant disk format for vRealize Log Insight is Thick Provision Eager Zeroed. This format provides better performance because the entire disk is allocated at the time of creation and is immediately zeroed out, which eliminates the overhead of allocating space during runtime and ensures faster read/write operations.

NEW QUESTION # 36

What three types of authentication sources are valid in vRealize Operations? (Choose three.)

- A. Active Directory
- B. RADIUS
- C. QAuth2
- D. VMware Identity Manager
- E. LocalOS
- F. OpenLDAP

Answer: A,D,F

Explanation:

In vRealize Operations, the following authentication sources are valid:

Active Directory: vRealize Operations can integrate with Active Directory for user authentication.

OpenLDAP: vRealize Operations supports integration with OpenLDAP as an authentication source.

VMware Identity Manager: vRealize Operations can also integrate with VMware Identity Manager to manage user authentication and access.

NEW QUESTION # 37

.....

This 2V0-32.24 exam helps you put your career on the right track and you can achieve your career goals in the rapidly evolving field of technology. To gain all these personal and professional benefits you just need to pass the Prepare for your 2V0-32.24 exam which is hard to pass. However, with proper VMware 2V0-32.24 Exam Preparation and planning you can achieve this task easily. For quick and complete 2V0-32.24 exam preparation you can trust Getcertkey Prepare for your 2V0-32.24 Questions.
