NEW QUESTION # 50

Universal Containers (UC) has created a public group with certain Sales Engineers to help on complex deals and a sharing rule to grant access to these opportunities. Opportunity OWD is private.

What is the impact of these sharing settings?

- A. Sales Engineers that have a similar role of the Sales Engineers of the public group will also have access to these records.
- B. Sales Engineers direct reports will also have access to these records.
- C. Subordinates of Managers who have Sales Engineers in the public group will also have access to these records.
- D. Sales Engineers Managers and their managers in the role hierarchy will also have access to these records.

Answer: D

Explanation:

Explanation

The impact of these sharing settings is that Sales Engineers Managers and their managers in the role hierarchy will also have access to these records. This is because sharing rules extend access to users in public groups, roles, or territories. The access granted by a sharing rule is inherited by users above those users in the role hierarchy¹. Subordinates of Managers who have Sales Engineers in the public group, Sales Engineers that have a similar role of the Sales Engineers of the public group, and Sales Engineers direct reports will not have access to these records unless they are explicitly granted by other means.
