Service levels in SAP Service Cloud V2 are defined to set timelines and priorities for case handling. Completion due on is a key element used to specify the due date for case resolution within an SLA. Priority is another critical element, as it determines the urgency of the case and influences the SLA timeline. According to SAP documentation, "Service Levels are defined in the SAP Service Cloud V2 to set the timeline for different types of Case (Ticket) based on the situation and priority." Maintenance plan (A) is related to service contracts, not SLAs. Day of the week (C) is part of operating hours configuration but not a direct element for defining service levels.
