

Three Easy-to-Use Fortinet NSE6_FSR-7.3 Exam Questions Formats

BONUS!!! Download part of Pass4cram NSE6_FSR-7.3 dumps for free: <https://drive.google.com/open?id=1vDkqdcnAn0DqRvRQP3k1oDxK3wXM0eNc>

Our NSE6_FSR-7.3 study materials are constantly improving themselves. We keep updating them to be the latest and accurate. And we apply the latest technologies to let them applied to the electronic devices. If you have any good ideas, our NSE6_FSR-7.3 Exam Questions are very happy to accept them. NSE6_FSR-7.3 learning braindumps are looking forward to having more partners to join this family. We will progress together and become better ourselves.

With over a decade's business experience, our NSE6_FSR-7.3 test torrent attached great importance to customers' purchasing rights all along. There is no need to worry about virus on buying electronic products. For we make endless efforts to assess and evaluate our NSE6_FSR-7.3 exam prep' reliability for a long time and put forward a guaranteed purchasing scheme, we have created an absolutely safe environment and our NSE6_FSR-7.3 Exam Question are free of virus attack. Given that there is any trouble with you, please do not hesitate to leave us a message or send us an email; we sincere hope that our NSE6_FSR-7.3 test torrent can live up to your expectation.

First-grade Fortinet NSE6_FSR-7.3 - Exam Fortinet NSE 6 - FortiSOAR 7.3 Administrator Price

The exam outline will be changed according to the new policy every year, and the NSE6_FSR-7.3 questions torrent and other teaching software, after the new exam outline, we will change according to the syllabus and the latest developments in theory and practice and revision of the corresponding changes, highly agree with outline. The NSE6_FSR-7.3 Exam Questions are the perfect form of a complete set of teaching material, teaching outline will outline all the knowledge points covered, comprehensive and no dead angle for the NSE6_FSR-7.3 candidates presents the proposition scope and trend of each year.

Fortinet NSE6_FSR-7.3 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none"> System Monitoring and Maintenance: For FortiSOAR Administrators, this domain covers using various tools for system monitoring to ensure consistent performance. This includes how to regularly oversee FortiSOAR processes, along with other critical functions. |
| Topic 2 | <ul style="list-style-type: none"> System Configuration: FortiSOAR requires careful setup of applications for FortiSoar System Administrators. It covers system fixtures, and proxy settings to function optimally. |
| Topic 3 | <ul style="list-style-type: none"> Security Management: This section covers how Security Engineers implement role-based access control (RBAC) and set up team structures within FortiSOAR to streamline security management. |
| Topic 4 | <ul style="list-style-type: none"> System Operation: For System Engineers, this section covers Elasticsearch data management that may need to be externalized or migrated to accommodate system needs. Additionally, this section covers configuring the recommendation engine and utilizing the war room functionality. |
| Topic 5 | <ul style="list-style-type: none"> SOC and SOAR Overview: Security Engineers can gain an understanding of SOC and SOAR deployment requirements, including licensing management for FortiSOAR. |

Fortinet NSE 6 - FortiSOAR 7.3 Administrator Sample Questions (Q39-Q44):

NEW QUESTION # 39

Which service on FortiSOAR is the playbook scheduler?

- A. uwsgi
- B. colcrybeatd
- C. celeryd
- D. cyops-torccat

Answer: B

Explanation:

In FortiSOAR, the service responsible for the playbook scheduling functionality is colcrybeatd. This service manages the timing and execution of scheduled playbooks, allowing for the automation of various tasks at specified intervals. It ensures that playbooks execute according to their configured schedules, which can include tasks such as data ingestion, threat detection, or incident response actions. Proper functioning of this service is essential for the reliable automation of time-dependent processes within FortiSOAR.

NEW QUESTION # 40

An administrator is issuing the following command on a node trying to join a FortiSOAR duster as a standby:
`csadm ha join-cluster --status active -role secondary --primary-node 10.0.1.160` The node fails to join the cluster. What is the issue?

- A. The IP address should be for secondary-node Instead of primary-node.
- B. The role value should be worker.
- C. The primary node needs to be resolvable via FQDN.
- D. The status value should be passive.

Answer: D

Explanation:

When joining a FortiSOAR cluster as a standby node, the correct status value should be passive. Using active would imply that the node is trying to join as an active node, which could cause conflicts in the cluster setup.

In FortiSOAR, standby nodes must be set as passive to ensure they are recognized correctly and to avoid conflicts with the primary node or other active nodes within the cluster. Therefore, setting the status to passive will resolve the issue and allow the node to join the cluster as intended.

NEW QUESTION # 41

Which log file contains license synchronization logs on FortiSOAR?

- A. fdn.log
- B. falcon.log
- C. beat.log
- D. celery.log

Answer: A

Explanation:

The fdn.log file in FortiSOAR contains logs related to license synchronization activities. This log file records events and errors associated with license checks and synchronization with Fortinet's licensing servers, ensuring that the FortiSOAR instance remains compliant with licensing requirements. Monitoring fdn.log can help administrators troubleshoot issues related to license synchronization and ensure the system operates within the licensed limits.

NEW QUESTION # 42

Which two ports must be open between FortiSOAR HA nodes?* (Choose two.)

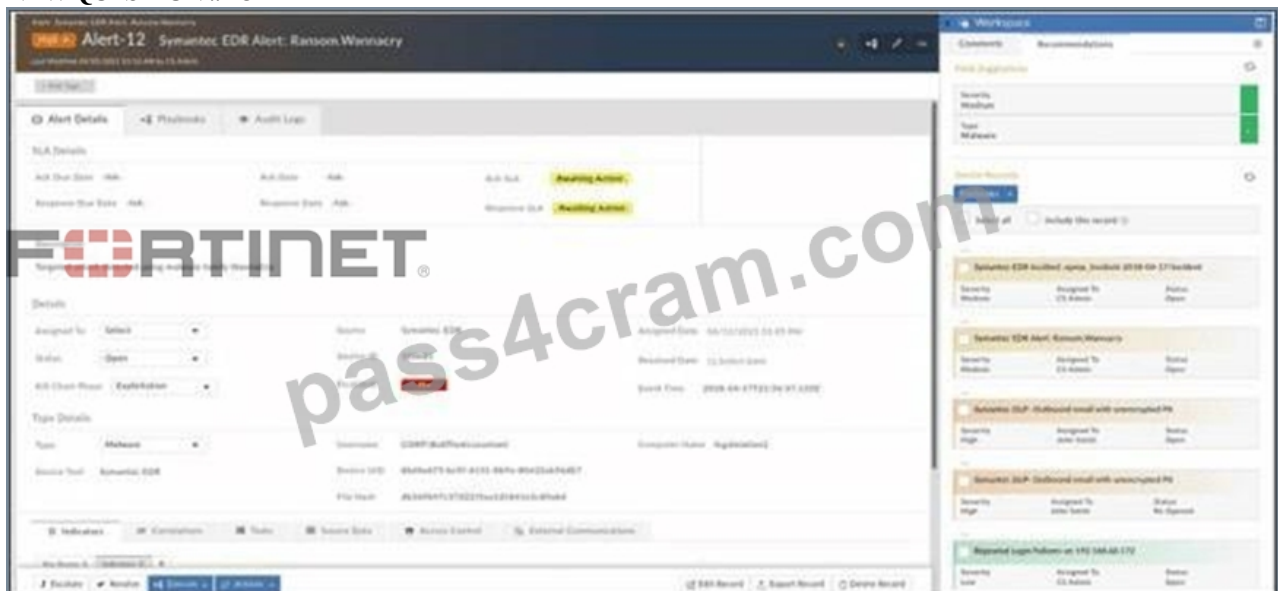

- A. Port 6380
- B. Port 25
- C. Port 9200
- D. Port 5432

Answer: C,D

Explanation:

In a FortiSOAR HA configuration, certain ports must be open for communication between nodes. Port 5432 is required for PostgreSQL database communication, which is essential for data replication between HA nodes. Port 9200 is used by Elasticsearch, which FortiSOAR leverages for indexing and search functions across the nodes. These ports must be accessible between nodes to ensure seamless operation and data consistency within the cluster.

NEW QUESTION # 43

View the exhibit. The dataset on FortiSOAR has been trained to predict which record field?

- A. Playbooks
- B. Status
- C. Severity
- D. Assigned To

Answer: C

NEW QUESTION # 44

.....

In this era of the latest technology, we should incorporate interesting facts, figures, visual graphics, and other tools that can help people read the Fortinet NSE 6 - FortiSOAR 7.3 Administrator (NSE6_FSR-7.3) exam questions with interest. Pass4cram uses pictures that are related to the Fortinet NSE 6 - FortiSOAR 7.3 Administrator (NSE6_FSR-7.3) certification exam and can even add some charts, and graphs that show the numerical values. It will not let the reader feel bored with the Fortinet NSE 6 - FortiSOAR 7.3 Administrator (NSE6_FSR-7.3) practice test. They can engage their attention in the Fortinet NSE6_FSR-7.3 exam visual effects and pictures that present a lot of.
