Take Your Exam Preparations Anywhere with Portable AB-730 PDF Questions from VerifiedDumps

It seems that it's a terrible experience for some candidates to prepare and take part in the AB-730 Exam, we will provide you the AB-730 training materials to help you pass it successfully. The AB-730 training materials have the knowledge points, it will help you to command the knowledge of the AI Business Professional. The pass rate is above 98%, which can ensure you pass it. If you have the Desktop version, it stimulates the real environment, you can know the exact situation about the exam, and your nervous for it will be reduced.

Microsoft AI Business Professional Sample Questions (Q23-Q28):

NEW QUESTION # 23

You are using Microsoft 365 Copilot to enhance your productivity in Microsoft Teams.

Which two tasks can you achieve by using Copilot in Teams? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create a custom background and add the background to your video calls.
- **B. Draft a response to a channel message based on the context of the conversation.**
- C. Mute and unmute participants in a meeting based on their location.
- **D. Create a meeting summary, including key decisions and action items.**

Answer: B,D

Explanation:

Comprehensive and Detailed 150 to 200 words of Explanation Microsoft AI Business professional documents:

Copilot in Microsoft Teams is designed to help users work faster by summarizing meeting content and assisting with message composition in chats and channels. Microsoft guidance highlights that Copilot can synthesize what was discussed in a meeting by generating a structured recap that includes key points, decisions, and action items. This directly matches option C. Copilot can also help you respond more quickly in Teams conversations by drafting replies grounded in the context of the existing chat or channel thread, which matches option D.

Options A and B are not Copilot capabilities. Muting and unmuting participants is a meeting control function handled by Teams meeting roles and settings, and it is not automatically driven by Copilot based on participant location. Creating custom backgrounds is a Teams visual feature (and can involve Designer or image tools), but it is not a Copilot-in-Teams productivity function for summarization or drafting based on conversation context.

Therefore, the two tasks you can achieve using Copilot in Teams are generating meeting summaries with decisions and action items, and drafting responses to channel messages based on conversation context.

NEW QUESTION # 24

You use Microsoft 365 Copilot.

You discover that you had a conversation that used a knowledge source that contains confidential information.

You need to delete the conversation data without requiring administrative approval. You must retain your other conversations, if possible.

What should you use?

- A. the Microsoft 365 Copilot app
- B. the My Account portal in Microsoft 365 Copilot
- C. the Microsoft Purview compliance portal
- D. the Microsoft 365 admin center

Answer: B

Explanation:

Microsoft 365 Copilot follows Microsoft's enterprise data governance and privacy principles, which allow users to manage their own conversation history where appropriate. According to Microsoft AI Business Professional guidance, users can review and delete individual Copilot conversation histories directly from their personal account settings without requiring administrative intervention.

Option D is correct because the My Account portal in Microsoft 365 Copilot allows individual users to manage their activity history, including deleting specific conversations. This enables targeted removal of sensitive interactions while retaining other conversation data.

Option A is incorrect because the Copilot app itself does not provide full account-level activity management capabilities. Options B and C are administrative tools used for tenant-wide governance, compliance, retention policies, and eDiscovery. These portals typically require administrative privileges and are not intended for individual user self-service deletion of specific conversations. Therefore, to delete a single confidential Copilot conversation without affecting other chats and without requiring administrator approval, the correct tool is the My Account portal in Microsoft 365 Copilot.

NEW QUESTION # 25

You create an agent in the Microsoft 365 Copilot app by using a template.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
You can share the agent with external users.	<input type="radio"/>	<input type="radio"/>
You can choose which knowledge sources the agent can use.	<input type="radio"/>	<input type="radio"/>
You can share the agent with users in your organization.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements

You can share the agent with external users.

Yes

No

You can choose which knowledge sources the agent can use.

You can share the agent with users in your organization.

NEW QUESTION # 26

You use Microsoft 365 Copilot.

You discover that you had a conversation that used a knowledge source that contains confidential information.

You need to delete the conversation data without requiring administrative approval. You must retain your other conversations, if possible.

What should you use?

- A. the Microsoft 365 Copilot app
- B. the My Account portal in Microsoft 365 Copilot
- C. the Microsoft Purview compliance portal
- D. the Microsoft 365 admin center

Answer: B

Explanation:

Without administrator permissions, you can delete Microsoft 365 Copilot chat data containing confidential information through the My Account portal (myaccount.microsoft.com).

Steps to delete the data:

1. Sign in to the My Account portal with your work or school account.
2. Navigate to Settings & Privacy > Privacy > Data options.
3. Open the Copilot activity history section.
4. Select Delete history, check the box for Microsoft 365 Copilot, and click Delete.

NEW QUESTION # 27

A colleague from another company shares a link to a prompt.

When you select the link, you receive the following response: "Prompt not found. Sorry, it looks like the prompt is no longer available." What is a possible cause of the response?

- A. The prompt contains a file that has a sensitivity label applied.
- B. The prompt is outdated.
- C. The prompt is a scheduled prompt.
- D. The prompt contains a reference to a file that you do NOT have access to.
- E. The prompt is outside of your organization.

Answer: E

Explanation:

Microsoft 365 Copilot operates within the security, compliance, and identity boundaries of a Microsoft 365 tenant. Shared prompts, prompt links, and Copilot artifacts are governed by organizational access controls and tenant isolation. If a prompt is created and shared from outside your organization, cross-tenant access may not be supported depending on the sharing configuration and administrative policies.

When a user attempts to open a prompt that resides in another organization's tenant without proper cross-tenant sharing

permissions, Copilot cannot locate or validate the resource within the user's own environment.

As a result, the system displays a "Prompt not found" message.

Option B would typically result in an access or permissions error rather than the prompt being unavailable entirely. Sensitivity labels and scheduled prompts do not inherently cause a "not found" error. Therefore, the most likely cause is that the prompt exists outside your organization's tenant boundary and is not accessible to you.

NEW QUESTION # 28

.....

Everybody should recognize the valuable of our life; we can't waste our time, so you need a good way to help you get your goals straightly. Of course, our AB-730 latest exam torrents are your best choice. I promise you that you can learn from the AB-730 Exam Questions not only the knowledge of the certificate exam, but also the ways to answer questions quickly and accurately.
