形式に関するPMI-PMOCP試験問題の3つの異なるバージョンがあります：PDF、ソフトウェア、オンラインAPP。内容は同じですが、さまざまな形式が実際にお客様に多くの利便性をもたらします。PDFバージョンの

PMI-PMOCP試験の練習問題を印刷して、どこにいても受験できるようにすることができます。また、ソフトウェアバージョンは実際の試験環境をシミュレートし、オフラインでの練習をサポートできます。また、APPオンラインはあらゆる種類の電子機器に適用できます。誰であっても、PMI-PMOCP準備の質問を通じて、あなたの目標を達成するために最善を尽くすことができると信じています！

PMI Project Management Office Certified Professional 認定 PMI-PMOCP 試験問題 (Q60-Q65):

質問 # 60

A mid-sized technology company has established a PMO to improve project delivery and governance. The company's leadership has tasked the PMO professional with assessing the current effectiveness of the PMO and identifying areas for improvement. How should the PMO professional proceed to fulfill this request?

- A. Implement a project management software tool to streamline project tracking and reporting processes in real time.
- B. Host quarterly team-building events to foster collaboration and camaraderie among PMO customers.
- **C. Evaluate the maturity and capability of the PMO in performing each service it needs to deliver the benefits required.**
- D. Conduct employee satisfaction surveys throughout the organization to gauge how happy they are with the performance of the PMO.

正解: C

解説:

Evaluating the maturity and capability of the PMO services directly addresses effectiveness and identifies improvement areas. PMI-PMOCP stresses that such maturity assessments provide objective measures of PMO performance against expected outcomes, guiding targeted development efforts.

Software implementation (option A) or team-building events (option D) are supportive but do not provide diagnostic insights.

Employee satisfaction surveys (option B) may provide partial feedback but lack the comprehensive scope of maturity evaluation.

質問 # 61

A PMO professional has been tasked with assessing and improving the competencies of the PMO team to better support the wide range of services the PMO provides. For example, the competencies required for a portfolio management service may differ significantly from those needed for training and mentoring services.

What steps should the PMO leader take to ensure the PMO team's competencies align with the diverse services provided?

- A. Conduct a general competency assessment for the entire PMO team and create a single training program covering basic project management skills for all team members.
- B. Focus only on developing the competencies related to the PMO's most commonly used services, ensuring efficiency in training and the reduction of costs.
- **C. Meet with PMO customers to understand their expectations and develop a competency matrix that maps PMO team members' current skills to the specific needs of each PMO service.**
- D. Rotate PMO team members through various PMO services to gain exposure to different areas, assuming that hands-on experience alone will develop the necessary skills for each PMO service.

正解: C

解説:

The best practice is to engage PMO customers to understand their expectations and then develop a competency matrix that aligns team members' skills with the specific demands of each PMO service (Option C). This targeted approach ensures that competency development is relevant and service-focused.

Rotations (Option A) and general assessments (Option B) are less strategic and may dilute focus. Limiting development to common services (Option D) risks neglecting emerging or specialized needs.

PMI-PMOCP Lifecycle Management recommends systematic competency mapping tied to customer needs and service requirements to optimize PMO effectiveness.

質問 # 62

A PMO professional is providing strategic guidance to executives and has been tasked with advising the executives on various aspects of the organization's projects to drive success.

Which two tasks are within the scope of the advisory role for a PMO professional? (Choose 2)

- A. Project manager salary benchmarking data.
- **B. Company data and security policy.**
- **C. Project management methodologies.**
- D. Project manager job descriptions.

正解: B、C

解説:

Advisory tasks typically include guidance on project management methodologies (B) and organizational policies such as data and security (D), ensuring project alignment with best practices and compliance requirements. PMI-PMOCP highlights these areas as central to the PMO's strategic advisory role.

Salary data (A) and job descriptions (C) are generally HR responsibilities outside PMO advisory scope.

Reference: PMI-PMOCP Study Guide, Chapter on Strategic Alignment and Advisory Roles.

質問 # 63

A manufacturing company is in the process of establishing its PMO, and the PMO professional leading it recognizes that securing executive sponsorship and ongoing support is crucial for the PMO's success and mandate.

How should the PMO professional effectively secure and maintain executive sponsorship for the PMO?

- A. Emphasize that the PMO is using recommended best practices and frameworks, showcasing its operational excellence to win executive support.
- B. Ensure the PMO follows the newest PMO models, providing a comprehensive set of strategic services that should be implemented to guarantee long-term success and gain executive sponsorship.
- **C. Align the PMO's objectives and services with the company's strategic goals and focus on delivering quick wins to ensure initial attention and support.**
- D. Rely on the company's leadership to naturally recognize the PMO's value over time without needing to actively seek out sponsorship or support, assuming the results will speak for themselves.

正解: C

解説:

Securing and maintaining executive sponsorship requires the PMO to be strategically aligned with the organization's goals and to demonstrate tangible value quickly. Aligning objectives and services with strategic priorities ensures relevance and builds credibility with executives. Delivering quick wins fosters trust and reinforces the PMO's positive impact.

Passive reliance on leadership recognition (Option A) risks neglect. Emphasizing best practices alone (Option B) without alignment or demonstrated value is insufficient. Implementing comprehensive models (Option D) may overwhelm resources and delay results. PMI-PMOCP stresses that executive engagement is strengthened through strategic alignment and early value delivery.

質問 # 64

A construction company is undertaking a large-scale infrastructure project to build a new highway network connecting major cities. The project involves multiple phases, including planning, design, construction, and maintenance. A PMO professional has been tasked with supporting the project manager to ensure the successful completion of the project.

What should the PMO professional do to help the project manager overcome the challenges with this project?

- A. Implement firm project management methodologies and processes to standardize project execution and control.
- B. Assign additional resources to projects based on project managers' requests to alleviate workload pressures.
- **C. Assess the needs of the project manager as a PMO customer in the project to define a valuable set of PMO services to offer.**

- D. Minimize communication with the project manager to avoid micromanagement and encourage autonomy.

正解: C

解説:

The role of the PMO professional, as defined in the PMI Project Management Office Certified Professional (PMI-PMOCP) framework, is primarily to act as a strategic partner and customer-centric service provider to the project manager and the project team. To effectively support the project manager, the PMO professional must first assess and understand the specific needs and challenges faced by the project manager. This assessment allows the PMO to tailor and offer the most relevant and valuable PMO services—whether that involves governance support, resource management, reporting, risk facilitation, or process guidance. Simply assigning resources or enforcing rigid methodologies without this needs analysis may not effectively address the unique challenges of the project or the project manager's current context. Furthermore, reducing communication contradicts the PMO's function to enhance collaboration and provide timely assistance.

According to PMI-PMOCP guidance (PMI, 2021), successful PMO engagement is rooted in understanding the "customer" (project manager) and delivering value-added services aligned with project needs and organizational objectives. This customer-centric approach strengthens governance, optimizes resource utilization, and enhances project delivery success across complex, multi-phased projects like large infrastructure developments.
