If you complete for a senior position just right now, you will have absolutely advantage over others. Now, don't wasting time again, just start from our CCMP VCE Dumps. Excellent & valid VCE dumps will make you achieve your dream and go to the peak of your life ahead of other peers.

ACMP Global Certified Change Management Professional Sample Questions (Q77-Q82):

NEW QUESTION # 77

Which risk would make it difficult for an employee to understand what is changing, how it benefits the organization, and how it will affect her daily job?

- A. Inadequate change planning
- B. Inadequate assessment of behavior change
- **C. Case for change is weak**
- D. Sponsor not actively involved

Answer: C

Explanation:

If the case for change is weak, employees struggle to understand why the change is necessary, how it benefits the organization, and what it means for their daily work. ACMP stresses that articulating a compelling case for change is foundational for awareness and buy-in. Inadequate planning (D) or behavior assessment (C) cause other risks, and weak sponsorship (A) compounds resistance, but the direct barrier to understanding is a weak case for change.

(Reference: ACMP Standard, Process Group 2 - Formulate; Activity: Define the case for change to establish rationale and benefits.)

NEW QUESTION # 78

What change management strategy includes communication, metrics tracking, performance management and reward and recognition?

- **A. Sustainability strategy**
- B. Realization strategy
- C. Management strategy
- D. Organizational metric strategy

Answer: A

Explanation:

The sustainability strategy integrates communication reinforcement, tracking of metrics, ongoing performance management, and rewards to ensure change adoption becomes part of normal functioning. ACMP stresses that without these, stakeholders risk reverting to prior behaviors. Realization strategy (B) focuses on outcomes, while management (C) and metrics strategies (D) are too narrow. Option A captures the holistic sustainability approach. (Reference: ACMP Standard, Process Group 4 - Sustainability Plan; Components: Communication, measurement, performance, and recognition.)

NEW QUESTION # 79

What is recommended when evaluating outcomes against the change objectives?

- A. Create a final stakeholder communications plan
- **B. Review outcomes with appropriate leaders/stakeholders**
- C. Design metrics to ensure a common understanding of outcomes
- D. Ensure stakeholders truly understand what the change is about

Answer: B

Explanation:

Evaluation is collaborative: ACMP advises reviewing adoption/benefit results with sponsors and stakeholders, validating whether objectives and success criteria were met, and agreeing on remediation or sustainment actions. Designing metrics occurs earlier (Strategy/Plan phases). Ensuring understanding and building a comms plan are execution activities, not evaluation techniques. (Reference: ACMP Standard, Process Group 5 - Evaluate outcomes vs. objectives; Joint review with governance and stakeholders.)

NEW QUESTION # 80

Stakeholder analysis, change readiness assessments and the change characteristics indicate a high risk in your project. What would you include in your risk mitigation plan?

- **A. Activities to handle the stakeholder resistance**
- B. Demands for increased budget
- C. Stressing the importance of the vision statement
- D. External vendors for training

Answer: A

Explanation:

When assessments highlight high risk, ACMP advises incorporating resistance management activities into the mitigation plan. These activities include addressing concerns, clarifying roles, and creating feedback mechanisms. Hiring vendors (B) may help with training but does not address resistance. Reinforcing the vision (C) is important but not comprehensive, and budget increases (D) are reactive. Proactively managing resistance (A) is the recommended mitigation. (Reference: ACMP Standard, Process Group 2 - Risk Management Strategy; Activity: Include resistance management activities in mitigation planning.)

NEW QUESTION # 81

A new change initiative is being planned at an organization. Efforts are made by the change management lead to outline the case for change including the current opportunities, risks, consequences of the change, and the benefits of the change and how it aligns to the organization's strategic priorities. What is the next key action to be taken?

- A. Develop the change charter
- **B. Develop a clear vision of the future state**
- C. Determine why the change is required
- D. Identify goals, objectives and success criteria

Answer: B

Explanation:

Once the case for change has been defined, ACMP recommends developing a clear vision of the future state. This provides a compelling picture of what success will look like, aligning stakeholders and guiding all downstream planning. Determining why the change is required (A) is already covered by the case for change.

Thus, option C reflects the logical next step.

NEW QUESTION # 82

If you don't have enough time to study for your certification exam, PassTesting provides ACMP Global CCMP Pdf questions. You may quickly download ACMP Global CCMP exam questions in PDF format on your smartphone, tablet, or desktop. You can Print ACMP Global CCMP PDF Questions and answers on paper and make them portable so you can study on your own time and carry them wherever you go.
