

2026 1z0-1073-25 Practice Exams Free Free PDF | High-quality New 1z0-1073-25 Test Papers: Oracle Inventory Cloud 2025 Implementation Professional

2026 Latest DumpsFree 1z0-1073-25 PDF Dumps and 1z0-1073-25 Exam Engine Free Share: https://drive.google.com/open?id=1zMVNm0yW6YCKTOXwtLQ950XfgWkH_J9f

We boost the professional and dedicated online customer service team. They are working for the whole day, weak and year to reply the clients' question about our 1z0-1073-25 study question and solve the clients' problem as quickly as possible. If the clients have any problem about the use of our 1z0-1073-25 Exam Practice materials and the refund issue they can contact our online customer service at any time, our online customer service personnel will reply them quickly. So you needn't worry about you will encounter the great difficulties when you use our 1z0-1073-25 test pdf.

Oracle 1z0-1073-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Enabling Redwood Capabilities: This section measures the ability of Oracle Technical Architects to enable and manage Redwood UI capabilities. It focuses on understanding how new Redwood features enhance user experiences and what implications they may have on existing system configurations.
Topic 2	<ul style="list-style-type: none">Using AIMLMobile and Other Automation Features: This section of the exam assesses the awareness of Cloud Application Consultants in using AI, machine learning, and automation tools. Candidates should understand the practical value these technologies bring to predictive analytics, mobile usage, and overall operational efficiency within Inventory Management.

Topic 3	<ul style="list-style-type: none"> • Implementing Inventory Management: This section of the exam evaluates the skills of Oracle Inventory Specialists in configuring core inventory functions. It focuses on the cost-related features of inventory, including Receipt Accounting and Cost Accounting. Candidates are expected to demonstrate their ability to set up subinventories, units of measure, items, and facility schedules as part of the inventory management configuration process.
Topic 4	<ul style="list-style-type: none"> • Understanding External Integration: This portion evaluates how System Integration Specialists understand and support integrations between Inventory Management and other Oracle or third-party systems. It includes familiarity with key integration points necessary for streamlined operations and system data consistency.
Topic 5	<ul style="list-style-type: none"> • Implementing Enterprise Structures: This section of the exam measures the knowledge of Oracle Cloud Inventory Consultants and covers the foundational concepts of enterprise structure setup. Candidates must understand the purpose and interaction of components like Item Organizations and Inventory Organizations. It also assesses the ability to configure Inventory Organizations and tailor enterprise structure settings to support business operations efficiently.
Topic 6	<ul style="list-style-type: none"> • Implementing Inventory Counts: This domain targets the skills of Warehouse Inventory Controllers and covers all aspects of cycle counting and physical inventory processes. It emphasizes the configuration of ABC classifications, troubleshooting inventory counting processes, and accurate execution of stock audits. Candidates must demonstrate their understanding of how to maintain inventory accuracy through routine and scheduled counts.

Quiz 2026 Fantastic 1z0-1073-25: Oracle Inventory Cloud 2025 Implementation Professional Practice Exams Free

We cannot overlook the importance of efficiency because we live in a society emphasize on it. So to get our latest 1z0-1073-25 exam torrent, just enter the purchasing website, and select your favorite version with convenient payment and you can download our latest 1z0-1073-25 exam torrent immediately within 5 minutes. This way you can avoid the problems in waiting for arrival of products and you can learn about the knowledge of 1z0-1073-25 Quiz guides in a short time. Latest 1z0-1073-25 exam torrent contains examples and diagrams to illustrate points and necessary notes under difficult points. Remember and practice what 1z0-1073-25 quiz guides contain will be enough to cope with the exam this time. Good luck.

Oracle Inventory Cloud 2025 Implementation Professional Sample Questions (Q80-Q85):

NEW QUESTION # 80

In which process does the system automatically select the source of supply, reserve supply until fulfillment and ship to the customer?

- A. Consigned Inventory
- B. Drop Shipment
- C. Back-to-Back
- D. Internal Material Transfer

Answer: C

NEW QUESTION # 81

Which functionalities are part of Supply Chain Orchestration? (Choose four)

- A. providing supply requests to Fusion Planning Central
- B. providing a 360-degree view of the supply-creation process
- C. launching and managing complex business processes
- D. performing automated change management to match supply to demand

- E. receiving supply requests from several sources operating in Oracle Cloud

Answer: B,C,D,E

NEW QUESTION # 82

SIMULATION

How Back-to-Back Fulfillment Works

The back-to-back process flow is one in which specific sales order demand triggers supply creation and a link is established between the sales order and the supply.

An organization procures goods from an internal or external supplier or source to a specific warehouse from where you can combine those goods with others to create a single shipment to the customer.

Back-to-back supply processes are similar to regular supply processes that deliver supply to a warehouse except for one difference; the back-to-back supply is always reserved to an order management fulfillment line.

At a high level, you can think of back-to-back fulfillment as a three-step process:

1. Creation of a customer sales order (source of demand).
2. Creation and fulfillment of supply document (source of supply) to the fulfillment warehouse.
3. Shipment of sales order from the fulfillment warehouse to the customer.

However, the back-to-back flow is truly a highly integrated process flow involving several Oracle Fusion Cloud applications. The following figure shows the back-to-back process flow in detail. An explanation for each number follows the figure.

□

Answer:

Explanation:

Explanation:

Back-to-Back Fulfillment: Detailed Simulation in Oracle Cloud

Introduction

Back-to-back (B2B) fulfillment is a process where supply is created only after a sales order is placed. The supply is specifically reserved for that order and remains linked until fulfillment is completed. Unlike regular inventory processes, back-to-back fulfillment ensures that supply is directly tied to a customer demand, optimizing inventory management while maintaining customer satisfaction.

Key Oracle Fusion Cloud Applications Involved

Back-to-back fulfillment integrates multiple Oracle Fusion Cloud applications, including:

- Oracle Order Management (for sales order processing)
- Oracle Procurement (for external supply sourcing)
- Oracle Manufacturing (for in-house production)
- Oracle Inventory Management (for warehouse operations and fulfillment)
- Oracle Supply Chain Orchestration (for coordinating supply processes)
- Oracle Shipping Execution (for shipping to customers)

Step-by-Step Back-to-Back Fulfillment Simulation

Step 1: Creation of a Customer Sales Order (Source of Demand)

A customer places an order for a product that is not available in stock.

The sales order is created in Oracle Order Management.

The system checks inventory availability in Oracle Inventory Cloud.

Since stock is unavailable, the Supply Chain Orchestration (SCO) module triggers a supply request.

The system determines the best supply source based on sourcing rules (Buy, Make, Transfer, or On-Hand Reservation).

The sales order line is marked for back-to-back fulfillment, and a supply order is generated.

□ System Action: The system reserves the sales order and waits for supply to be created.

Step 2: Creation and Fulfillment of Supply (Source of Supply to Warehouse) Once the supply order is created, the system initiates one of the following supply methods:

Option 1: Buy (Procurement from Supplier)

The system generates a Purchase Requisition in Oracle Procurement Cloud.

The requisition is converted into a Purchase Order (PO) and sent to an external supplier.

The supplier fulfills the order and ships the goods to the fulfillment warehouse.

The warehouse receives the items using Oracle Receiving.

Option 2: Make (Manufacturing in-house or contract manufacturing)

The system generates a Work Order in Oracle Manufacturing Cloud.

The work order is scheduled, and production starts.

Once manufacturing is complete, the finished goods are moved to inventory.

Option 3: Transfer (Move from another warehouse or distribution center) The system creates a Transfer Order in Oracle Inventory Cloud.

Stock is transferred from a different warehouse or location.

Once received, inventory is updated in the fulfillment warehouse.

Option 4: On-Hand (Reserve Existing Inventory)

If stock is available in the fulfillment warehouse, the system directly reserves the items.

No additional supply request is needed.

☐ System Action: The system updates the sales order and marks it ready for fulfillment once supply is received.

Step 3: Shipment of Sales Order to the Customer

The order is released for picking in Oracle Inventory Cloud.

The picking process begins, and items are packed for shipping.

The shipping team processes the order using Oracle Shipping Execution.

A shipment confirmation is generated, and the order is shipped to the customer.

An invoice is created in Oracle Receivables.

The system marks the sales order as fulfilled and closed.

☐ Final Action: The customer receives the order, and the back-to-back fulfillment process is completed.

Key Benefits of Back-to-Back Fulfillment in Oracle Cloud

- ✓ Optimized Inventory Management - Stock is acquired only when needed, reducing carrying costs.
- ✓ Improved Order Fulfillment Efficiency - Automated supply chain orchestration ensures smooth operations.
- ✓ Enhanced Customer Satisfaction - Orders are processed quickly, reducing delays and backorders.
- ✓ Integrated Supply Chain Execution - Oracle Fusion applications work together seamlessly.
- ✓ Flexibility in Sourcing - Businesses can choose procurement, manufacturing, transfers, or reservations based on demand.

NEW QUESTION # 83

Inventory organization M1 has:

Nettable Quantity On-hand = 24

Open Supply Quantity = 51 with all supply within the supply cutoff date
Open Reserved Sales Order Quantity = 90 with all demand within the cutoff date
Open Unreserved Sales Order Quantity = 10
Min-max Minimum Quantity = 100
Min-max Maximum Quantity = 500
Min-max planning report is run for organization level with Yes specified for the Net Reserved Orders parameter.

What will be Total Available Quantity and Reorder Quantity calculated?

- A. Total Available Quantity = 76 Reorder Quantity = 500
- B. Total Available Quantity = - 14 Reorder Quantity = 500
- C. Total Available Quantity = - 14 Reorder Quantity = 514

Answer: C

NEW QUESTION # 84

You created a consigned agreement with a supplier. The supplier shipped the goods, which you received in your receiving area. After two days, you transferred the goods from receiving into your inventory and used it for your interorganization transfer order. Where is the ownership of the goods?

- A. The ownership changes from the supplier to the buyer as soon as the goods are received in the receiving area.
- B. The ownership is with the buyer due to interorganization consigned inventory movement.
- C. The ownership is with the supplier because the supplier has not sent the consumption advice.
- D. The ownership is with the supplier because the goods are not yet consumed.

Answer: B

NEW QUESTION # 85

.....

1z0-1073-25 training dumps are created in the most unique, customized way so it can cover different areas of exam with the Quality and Price of the product which is unmatched by our Competitors. The 100% guarantee pass pass rate of 1z0-1073-25 training materials that guarantee you to pass your Exam and will not permit any type of failure. You will find every question and answer within 1z0-1073-25 Training Materials that will ensure you get any high-quality certification you're aiming for.
