質問 # 40

How can you control the account determination for planned delivery costs based on the condition type?

- A. Assign an account key in the calculation schema
- B. Assign an account key in the access sequence
- C. Assign an account key in the condition record
- **D. Assign an account key in the condition type**

正解: D

解説:

Explanation

The account determination for planned delivery costs based on the condition type is controlled by the account key that is assigned to the condition type in Customizing for Materials Management under Purchasing -> Conditions -> Define Price Determination Process -> Define Condition Types. The account key determines which general ledger accounts are posted to during invoice verification.
