

Reliable 1Z0-1195-25 Test Sample & Valid Test 1Z0-1195-25 Testking

BONUS!!! Download part of GuideTorrent 1Z0-1195-25 dumps for free: <https://drive.google.com/open?id=1gEbZDinWoFVY885-Nxk4g8fVVZtzJn4B>

The GuideTorrent guarantees their customers that if they have prepared with Oracle 1Z0-1195-25 practice test, they can pass the Oracle 1Z0-1195-25 certification easily. If the applicants fail to do it, they can claim their payment back according to the terms and conditions. Many candidates have prepared from the actual Oracle 1Z0-1195-25 Practice Questions and rated them as the best to study for the examination and pass it in a single try with the best score.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none">• Resiliency: This section tests the knowledge of Database Security Engineers and Disaster Recovery Specialists in implementing Oracle's Maximum Security Architecture and Maximum Availability Architecture to ensure database resiliency and high availability. |
| Topic 2 | <ul style="list-style-type: none">• MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development. |

| | |
|---------|---|
| Topic 3 | <ul style="list-style-type: none"> Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments. |
| Topic 4 | <ul style="list-style-type: none"> Converged Database: This section evaluates the expertise of Multi-Model Database Specialists and Application Developers in using Oracle's converged database for multi-model use cases. It covers JSON, graph, and spatial data capabilities within the Oracle Database. |
| Topic 5 | <ul style="list-style-type: none"> Developing on Oracle Database: This section measures the skills of Application Developers and DevOps Engineers in managing Autonomous Databases using REST APIs, Oracle's data toolset, low-code development with APEX, and CI CD processes for database tools and APEX applications. |
| Topic 6 | <ul style="list-style-type: none"> Data Lake, Data Warehouse, and Machine Learning: This section evaluates the expertise of Data Scientists and Big Data Engineers in understanding UCI's Data Lakehouse architecture, Oracle Machine Learning capabilities, and Data Mesh architecture for managing distributed data environments. |
| Topic 7 | <ul style="list-style-type: none"> Autonomous Database and Tools: This section evaluates the expertise of Database Administrators and Cloud Engineers in working with Oracle Autonomous Database (ADB). It includes provisioning ADB instances, scaling CPU and storage, starting and stopping databases, and using tools to load data into ADB effectively. |

Trustworthy Oracle 1Z0-1195-25: Reliable Oracle Data Platform 2025 Foundations Associate Test Sample - Excellent GuideTorrent Valid Test 1Z0-1195-25 Testking

You will need to pass the Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) exam to achieve the Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) certification. Due to extremely high competition, passing the Oracle 1Z0-1195-25 exam is not easy; however, possible. You can use GuideTorrent products to pass the 1Z0-1195-25 Exam on the first attempt. The Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) practice exam gives you confidence and helps you understand the criteria of the testing authority and pass the Oracle 1Z0-1195-25 exam on the first attempt.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q61-Q66):

NEW QUESTION # 61

What are two main benefits of Oracle APEX?

- A. Develop responsive web apps
- B. Less productivity compared to hand coding
- C. Faster development time using hand coding
- D. Store data in PL/SQL objects

Answer: A

Explanation:

The two main benefits of "Oracle APEX" (Application Express) include "Develop responsive web apps" (D), as it enables rapid creation of scalable, mobile-friendly applications using a low-code platform. The second benefit, though not perfectly listed, aligns with faster development (implied but misstated in A). "Faster development time using hand coding" (A) is incorrect, as APEX avoids hand coding with its declarative approach. "Less productivity compared to hand coding" (B) is false, as APEX increases productivity. "Store data in PL/SQL objects" (C) is a feature, not a primary benefit. Oracle's APEX documentation emphasizes responsive web app development and rapid delivery as key advantages.

NEW QUESTION # 62

A customer wants to use Oracle Cloud Infrastructure (OCI) for storing application backups which can be stored for months, but retrieved immediately based on business needs. Which OCI storage service can be used to meet this requirement?

- A. Object Storage (standard)
- B. Archive Storage
- C. Block Volume
- D. File Storage

Answer: A

Explanation:

For storing application backups that need to be "stored for months, but retrieved immediately," "Object Storage (standard)" (A) is the suitable OCI service. Standard Object Storage offers durable, scalable storage with immediate access, ideal for backups requiring quick retrieval. "Archive Storage" (B) is cheaper but has retrieval delays, unsuitable for immediate access. "File Storage" (C) is for shared file systems, and "Block Volume" (D) is for high-performance attached storage, both less suited for long-term backups. Oracle's OCI Storage documentation confirms Standard Object Storage for this use case.

NEW QUESTION # 63

In order to support multicloud strategies, what is offered as an industry first by Oracle?

- A. Private and public cloud network
- B. Oracle FastConnect
- C. Cloud databases
- D. Dedicated cloud region

Answer: D

Explanation:

Oracle offers a "Dedicated cloud region" (D) as an industry-first feature to support multicloud strategies. This allows customers to run a fully managed OCI region within their own data center or a partner cloud, integrating with other providers like Azure or AWS. "Private and public cloud network" (A) is vague, "Cloud databases" (B) are common across vendors, and "Oracle FastConnect" (C) is a connectivity service, not unique to multicloud. Oracle's documentation highlights the Dedicated Region as a pioneering multicloud solution.

NEW QUESTION # 64

Which statement is not the responsibility of the customer in a simple cloud management model?

- A. Manage database servers and VM hosts
- B. Everything inside of the database
- C. Control access to customer VMs
- D. Subscribe to database servers

Answer: A

Explanation:

In a simple cloud management model (e.g., Autonomous Database), "Manage database servers and VM hosts" (A) is not the customer's responsibility; Oracle handles infrastructure management. Customers "Subscribe to database servers" (B), manage "Everything inside of the database" (C) like data and schemas, and "Control access to customer VMs" (D) where applicable. Oracle's shared responsibility model delegates server and host management to the provider.

NEW QUESTION # 65

Oracle Data Lakehouse streamlines the integration, storage, and processing of data. Which two services are used for persistence of the data in Lakehouse?

- A. OCI GoldenGate
- B. OCI Object Storage
- C. OCI Data Catalog

- **D. Autonomous Database**

Answer: B,D

Explanation:

In Oracle's Data Lakehouse architecture, data persistence refers to the storage layer where data is durably maintained. "Autonomous Database" (B) provides a managed, self-tuning relational database for structured data persistence, supporting SQL-based workloads. "OCI Object Storage" (D) offers scalable, durable storage for unstructured and semi-structured data, such as files, images, and logs, serving as the data lake component of the Lakehouse. "OCI Data Catalog" (A) is a metadata management service, not a persistence layer, and "OCI GoldenGate" (C) handles data replication and integration, not direct storage. Oracle's Lakehouse documentation identifies Autonomous Database and OCI Object Storage as the primary persistence services.

NEW QUESTION # 66

Only by our 1Z0-1195-25 practice guide you can get maximum reward not only the biggest change of passing the exam efficiently, but mastering useful knowledge of computer exam. So our practice materials are regarded as the great help. Rather than promoting our 1Z0-1195-25 Actual Exam aggressively to exam candidates, we having been dedicated to finishing their perfection and shedding light on frequent-tested 1Z0-1195-25 exam questions.
