Apple Device Support Exam Sample Questions (Q173-Q178):

NEW QUESTION # 173

Scenario

You're trying to connect a podcasting microphone to your MacBook Air. You're using the Apple USB-C Digital AV Multiport Adapter connected to a standard USB A to B cable that connects to the microphone. You open Sound in System Settings and click the input tab, but the microphone doesn't appear in the sound input device list.

What should you use to verify that your Mac has successfully connected to the microphone?

- A. The device driver settings
- B. The microphone's power light
- C. System Information > Hardware > USB**
- D. VoiceOver Utility > Sound > Input Device > USB CODEC

Answer: C

NEW QUESTION # 174

Which option can you access to view the current activity of Apple Configurator for Mac?

- A. From the Apple Configurator menu, choose View Activity.
- B. From the Apple Configurator menu bar, choose Window > Activity.**
- C. Double-click the device and select Activity.

Answer: B

NEW QUESTION # 175

Match the user types on the left to the descriptions on the right by dragging the responses to the correct target areas. Responses may be used once, more than once, or not at all.

Group
Guest
Standard
Sharing Only
Administrator
System Administrator (root)

Answer Area

A special account with which anyone with physical access to a Mac can log in

An account with which you can share files with someone on a different computer, but not log in to a Mac

A user account that can perform tasks that require greater privileges than an administrator user account

A user account that can add and manage other users, install apps, and change settings that affect all users on a Mac

A user account that has full control over its own home folder and can install apps in it and has read access to most items, preferences, and apps

Answer:

Explanation:

Answer Area

Guest	A special account with which anyone with physical access to a Mac can log in
Sharing Only	An account with which you can share files with someone on a different computer, but not log in to a Mac
System Administrator (root)	A user account that can perform tasks that require greater privileges than an administrator user account
Administrator	A user account that can add and manage other users, install apps, and change settings that affect all users on a Mac
Standard	A user account that has full control over its own home folder and can install apps in it and has read access to most items, preferences, and apps

NEW QUESTION # 176

Which accessibility feature enlarges text on the screen when you move the pointer over it?

- A. VoiceOver
- B. Pointer Control
- C. Zoom
- D. Hover Text

Answer: D

Explanation:

The Hover Text accessibility feature on macOS enlarges text under the pointer when activated, aiding users with visual impairments. Enabled in System Settings > Accessibility > Display > Hover Text, it displays a magnified text box when hovering over items, with customizable size and activation (e.g., holding Command).

- * Option A (VoiceOver) narrates screen content but doesn't enlarge text on hover.
- * Option B (Zoom) magnifies the entire screen or a portion, not specifically text under the pointer.
- * Option C (Pointer Control) adjusts pointer behavior, not text size.
- * Option D (Hover Text) matches the description precisely. Introduced in macOS Mojave and refined by 2025, see Apple's "Use Hover Text on Mac" (support.apple.com/HT211100).

NEW QUESTION # 177

What must you do to start Apple Diagnostics? (Image of macOS startup options)

- A. Press and hold Command-D.
- B. Press and hold Option-D.
- C. Press and hold Shift-D.
- D. Press and hold Command-Option-D.

Answer: A

Explanation:

To start Apple Diagnostics on a Mac, shut it down, then press the power button and immediately hold Command-D until diagnostics begin (progress bar appears). This works on Intel and Apple silicon Macs (post- startup options on silicon).

- * Option A: Option-D starts Internet Diagnostics (older Macs), not standard Diagnostics.
- * Option B: Command-Option-D isn't a valid combo.
- * Option C: Shift-D isn't used.
- * Option D: Correct per current procedure. References: Apple Support - "Use Apple Diagnostics on your Mac" (support.apple.com/HT202731).

NEW QUESTION # 178

.....

First of all, you are able to make full use of our Apple-Device-Support study torrent through three different versions: PDF, PC and APP online version of our Apple-Device-Support training guide.
