Solution Architect exam dumps seriously. Once our researchers find that these recommendations are possible to implement, we will try to refine the details of the PL-600 Quiz guide. Our PL-600 quiz guide has been seeking innovation and continuous development.

Microsoft Power Platform Solution Architect Sample Questions (Q26-Q31):

NEW QUESTION # 26

A multinational organization uses a single Microsoft Power Platform environment. The instance hosts multiple customizations for different users in different regions.

Users in some regions complain about slow load time of the customizations.

You need to architect a solution based on the main requirement.

What should you recommend? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Explanation

□ Graphical user interface, text, application, email Description automatically generated

NEW QUESTION # 27

You need to recommend a solution for agents when working with customers to make reservations.

What should you recommend?

- **A. Business Process Flows**
- B. task flows
- C. Power Automate
- D. workflows

Answer: A

Explanation:

Explanation

Business process flows provide a guide for people to get work done. They provide a streamlined user experience that leads people through the processes their organization has defined for interactions that need to be advanced to a conclusion of some kind.

Use business process flows to define a set of steps for people to follow to take them to a desired outcome.

With business processes flows available as an entity, you can now use advanced finds, views, charts, and dashboards sourced from business process flow data for a given entity, such as a lead or opportunity.

Scenario:

Agents need a solution to replace paper reservation checklists.

Agents need dashboards to show a current count of all reservations on the entity.

Agents need a way to track reservation issues.

Agents need a visual indicator in the interface to determine the reservation step to provide a seamless customer experience.

NEW QUESTION # 28

A company processes a large volume of customer service requests daily. The company manages customer service requests through a combination of email, a CRM system, and manual processes.

The company requires streamlined customer service operations. The improved processes must provide the following solution;

* Reduce response times.

* Improve customer satisfaction.

* Include the use of AI to prioritize cases based on specific keywords used by the customer.

You need to design a solution that includes AI Builder. Which feature should you use in addition to AI Builder?

- **A. Power Automate**
- B. Exchange server-side sync
- C. Dataflows
- D. Logic app

Answer: A

NEW QUESTION # 29

You are a Power Apps architect for a company. The IT administrator designs a Power Apps app that is ready to be tested. The company uses application lifecycle management (ALM).

Each version and solution component must be tracked as it is tested.

You need to recommend a strategy to deploy solutions for the user acceptance testing environment.

What should you recommend?

- A. Use Package Deployer and deploy a managed solution.
- B. Use Package Deployer and deploy an unmanaged solution.
- C. Use Solution Packager and deploy an unmanaged solution.
- **D. Use Solution Packager and deploy a managed solution.**

Answer: D

Explanation:

Deploy a managed solution, since It's for deploy on a user acceptance environment. No need to change anything on that environment.
