Average Salary for Certified Implementation Specialist - Discovery (CIS Discovery) Exam Certified Professional

The average salaries of **CIS Discovery Exam** certified professional in different countries is stated below:

- India: 4,00,000 INR
- Europe: 55,000 Euro
- United States: 66,500 USD

The CIS-Discovery Certification Exam is a challenging exam that requires a deep understanding of ServiceNow's Discovery application. To pass the exam, professionals must have hands-on experience with ServiceNow Discovery and a solid understanding of the application's architecture, data sources, and data collection strategies. CIS-Discovery exam also requires candidates to have a good understanding of IT asset management and configuration management best practices.

Introduction to Certified Implementation Specialist - Discovery (CIS Discovery) Exam

ServiceNow Accredited Deployment Expert - Exploration is open to ServiceNow clients, associates, staff, and those involved in being a ServiceNow Implementer or Administrator. Exam questions are focused on the official teaching materials of ServiceNow, the ServiceNow documentation site, and the ServiceNow developer site. Research materials shared publicly elsewhere. If you have been accredited as a ServiceNow, you will achieve market appreciation, comparative distinction, improved efficiency and performance, increased customer group loyalty, and a concrete indicator of your educational expenditure.

Demand for ServiceNow developers is rising. ServiceNow qualification offers members the expertise and trust to take full advantage of the ServiceNow platform. Throughout the training and qualification programs, learners can create apps by designing application tables, constructing and implementing forms, controlling the direction, and incorporating workflows into apps.

CIS Discovery exam test Material is split into Learning Realms that agree on important topics and events usually experienced during ServiceNow implementations. Specific learning goals have been established and evaluated in each Learning Domain. The learning realms, weightings, and sub-skills were assessed by this analysis, and the percentage of questions represented in each portion.

The ServiceNow Accredited Deployment Specialist-Discovery Test certifies that a qualified applicant has the expertise and experience required to contribute to the configuration, management, implementation, and help of unique Discovery applications on the ServiceNow network.

- A. Accurate monitoring of Applications
- B. Realize fast time to value
- C. Extend discovery throughout IT
- D. Enable service impact analysis

Answer: B,C,D

NEW QUESTION # 82
_____ is the best suited person to fill the Credentials Table during a Discovery implementation.
Response:

- A. External Partner
- B. Customer
- C. ServiceNow Technical Manager
- D. ServiceNow Consultant

Answer: B

NEW QUESTION # 83
Which service needs to be running on a host to detect a Windows device?
* WMI
* SSH

- A. WinRM
- B. CIM

Answer: A

Explanation:
For ServiceNow Discovery to detect a Windows device, the Windows Management Instrumentation (WMI) service needs to be running on the host. WMI is a Windows feature that provides a standardized way to access management information about operating system components and services. Discovery uses WMI to query Windows hosts for information about their hardware, software, and system configuration. SSH is used for Unix-like systems, WinRM is an alternative Windows management protocol, and CIM (Common Information Model) is a cross-platform standard; however, WMI is the primary service used for Windows device discovery.

NEW QUESTION # 84

Which choice allows the following functionality to occur?

If this value is set to 1000 and a discovery must scan 10,000 IP addresses using a single MID Server, it creates 10 Shazzam probes with each probe scanning 1000 IP addresses.

- A. Behaviors
- B. MID Server Clusters
- C. Shazzam Batch Size
- D. MID Server selection method

Answer: C

NEW QUESTION # 85

How do you ensure the data integrity, completeness and correctness of your CMDB Response:

- A. Using ServiceNow discovery as the only option
- B. Using correct identification and reconciliation rules
- C. Always using Scripts to manage CMDB
- D. Manually deleting duplicate Cls

Answer: B
