## C-THR92-2505日本語pdf問題 & C-THR92-2505問題トレーニング

Xhs1991の専門家チームは彼らの経験と知識を利用して長年の研究をわかって多くの人は待ちに待ったSAPのC-THR92-2505「SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting」認証試験について教育資料が完成してから、大変にお客様に歓迎されます。Xhs1991の模擬試験は真実の試験問題はとても似ている専門家チームの勤労の結果としてとても値打ちがあります。

### SAP C-THR92-2505 認定試験の出題範囲:

トピック	出題範囲
トピック 1	<ul style="list-style-type: none"><li>Provisioning Settings for Reporting: This area focuses on the abilities of a System Administrator and involves configuring and enabling the necessary settings in Provisioning to support reporting tools within SAP SuccessFactors. It includes setup tasks that ensure reporting solutions function properly within the system environment.</li></ul>
トピック 2	<ul style="list-style-type: none"><li>Advanced Reporting Tool with Replicated Data: This section targets a Reporting Specialist and covers leveraging advanced reporting tools that operate on replicated data. It includes knowledge of data replication concepts and using these tools to perform comprehensive reporting that supports detailed analysis.</li></ul>

トピック 3	<ul style="list-style-type: none"> <li>• Story Reports: This section of the exam measures skills of a Report Creator and covers the creation and management of Story Reports within SAP SuccessFactors. It emphasizes designing queries, configuring pages with widgets, and managing report permissions to generate insightful visualizations.</li> </ul>
トピック 4	<ul style="list-style-type: none"> <li>• Tile-Based Dashboard Framework: This domain targets a Dashboard Designer and covers building and managing tile-based dashboards. It encompasses creating tiles, assigning access, applying filters on dashboard data, and sharing dashboards to provide users with interactive and visually engaging insights.</li> </ul>
トピック 5	<ul style="list-style-type: none"> <li>• Report Consumers: This domain evaluates the understanding of a Business User and focuses on how report consumers interact with and utilize generated reports. It highlights user roles, permissions, and effective report sharing practices to ensure reports serve decision-making needs.</li> </ul>
トピック 6	<ul style="list-style-type: none"> <li>• Detailed Reporting Tool with Live Data: This section assesses the skills of an Advanced Report Developer and involves working with detailed reports that use live data feeds. It includes building customizable queries and using reporting tools to deliver real-time, actionable data to stakeholders.</li> </ul>
トピック 7	<ul style="list-style-type: none"> <li>• Canvas Reports and Page Designer: This part measures the capabilities of a Report Administrator and involves creating and customizing reports using Canvas Reports and Page Designer. It covers advanced query construction, formatting, pivot creation, and report distribution to enhance data presentation and usability.</li> </ul>

## SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting 認定 C-THR92-2505 試験問題 (Q10-Q15):

### 質問 # 10

While constructing a dashboard, you find that you need to create a tile that requires more complex configuration than what is available with the Online Tile Builder tool. What tool can you use to create this tile?

- A. PDFSam
- B. YouCalc designer
- C. LMS Report Designer
- D. Business Intelligence Reporting Tool (BIRT)

正解: B

解説:

\* Purpose of YouCalc Designer

\* The YouCalc Designer is a specialized tool that allows the creation of highly customized and advanced tiles for dashboards. It supports more complex configurations than the Online Tile Builder.

\* Why Other Options are Incorrect

\* A. PDFSam: This is a tool for splitting and merging PDF files, not related to dashboards.

\* B. BIRT: Business Intelligence Reporting Tool is for building custom reports, not dashboard tiles.

\* C. LMS Report Designer: This tool is specific to Learning Management System (LMS) reporting, not tiles.

### 質問 # 11

What happens when you enable inline translation of a Story as it relates to future edits of the Story report?

Note: There are 2 correct answers to this question.

- A. The source language is chosen from enabled locales on the instance when enabling translation.
- B. The report can be edited in any language.
- C. The report can be edited only in the source language.
- D. The source language is set to the current locale of the individual who enabled translation.

正解: A、C

解説:

\* Inline Translation Overview  
Inline translation in SAP SuccessFactors Stories allows users to translate report text and components into multiple languages. This feature is particularly useful in multi-locale environments to ensure users view reports in their preferred language.

\* Source Language Setting

\* When inline translation is enabled, the source language is selected from the list of locales enabled on the instance. This ensures that translation aligns with existing localization settings.

\* The report can only be edited in the source language to maintain consistency across translations.

\* Explanation of Correct Answers

\* Option A: Correct, as the source language must be chosen from the available locales when inline translation is activated.

\* Option B: Correct, as any edits to the report must be made in the source language to avoid inconsistencies.

\* Explanation of Incorrect Options

\* Option C: Incorrect, because the source language is not dynamically set to the current locale of the individual enabling translation.

\* Option D: Incorrect, because editing in any language is not allowed once inline translation is enabled-only the source language can be edited.

## 質問 # 12

You are using a pivot table in your canvas report but the report does NOT display the most recent data. What could be the reason?

- A. You are NOT using a template.
- B. You are using the percent of total option.
- C. You are using a wrong People Scope.
- **D. You are using a query with a static date filter.**

正解: D

解説:

\* Issue with Static Date Filters:

\* If the query uses a static date filter (e.g., a specific range like "January 1, 2023, to March 31, 2023"), the report will not reflect the most recent data as the filter restricts results to the defined date range.

\* Resolution:

\* Update the query to use dynamic date filters (e.g., "Last 30 Days" or "Current Year") to ensure the pivot table includes the latest data.

## 質問 # 13

In a canvas report, to which of the following can you export multipage reports in a single transaction? Note:

There are 3 correct answers to this question.

- **A. Microsoft Word**
- **B. Adobe PDF**
- C. XML format
- D. Microsoft Excel
- **E. Microsoft PowerPoint**

正解: A、B、E

解説:

\* Exporting Multipage Reports

\* Canvas reports support exporting multipage reports in formats that preserve the layout and design, such as Microsoft Word, PowerPoint, and PDF.

\* Why Other Options are Incorrect

\* A. Microsoft Excel: Canvas reports do not support exporting multipage layouts to Excel.

\* C. XML Format: XML is not supported for multipage exports.

\* SAP SuccessFactors Canvas Reports Export Options

#### 質問 # 14

If you want to create a single filter that utilizes criteria from multiple tables in the same query, which filter do you need to use in Query Designer?

- A. Table Simple filter
- B. Query Scope filter
- C. Table Advanced filter
- **D. Query Advanced filter**

正解: D

解説:

\* Filter Types in Query Designer

\* A Query Advanced Filter is used to define filter conditions across multiple tables in a single query. This is necessary when the criteria involve fields from different data sources.

\* Why Other Options are Incorrect

\* A (Query Scope filter): Used to limit data based on scope, but it does not combine criteria across multiple tables.

\* B (Table Simple filter): Applies filters only to a single table.

\* D (Table Advanced filter): Applies advanced criteria but only within a single table.

References

\* SAP SuccessFactors Query Designer Documentation
