To troubleshoot and correct the issue of a Loyalty member missing benefits despite achieving Gold tier status, the Administrator should first confirm that the member is assigned to the correct tier and that the tier includes the expected benefits. This involves checking the member's tier assignment within the Loyalty Program to ensure it reflects their Gold status and reviewing the associated tier benefits to confirm they are correctly configured and active. This step is crucial in identifying any discrepancies or issues in tier assignment or benefit configuration that may be causing the member to miss out on their entitled benefits.

NEW QUESTION # 101

A company has a new accrual and redemption partner that they wish to add to its Loyalty program as part of a strategic business partnership.

Once the Administrator selects the loyalty program, which steps should the Administrator take to add a new partner to the program?

- A. Enter the program partner name > Associate to a Partner Contact Name > Set program partner type to 'Both' (Accrual and Redemption)
- **B. Enter the program partner name > Associate to an account > Set program partner type to 'Both' (Accrual and Redemption)**
- C. Enter the partner contact name > Associate to a partner Contact Name > Set program type to 'Both' (Accrual and Redemption)
- D. Choose relevant account name to Associate to the program > Set program partner type to 'Both' (Accrual and Redemption)

Answer: B

Explanation:

To add a new accrual and redemption partner to a Loyalty program in Salesforce Loyalty Management, the steps are:

* Enter the program partner name > Associate to an account > Set program partner type to 'Both' (Accrual and Redemption) (A):

This process involves identifying the new partner by name, associating them with a specific account in Salesforce to link their business details, and defining their role in the loyalty program as both an accrual and redemption partner. This ensures that the partner can both award points to members for eligible transactions and redeem points for rewards, enhancing the program's value and appeal to members.

Options B, C, and D offer variations that do not align with the standard process for adding a new partner in Salesforce Loyalty Management. The correct procedure involves associating the partner with an account (not just a contact) and specifying their role in terms of point accrual and redemption to ensure clear and effective partnership management within the program.

Salesforce Loyalty Management documentation provides guidelines on adding and managing program partners, including the steps to integrate new partners effectively, ensuring they contribute positively to the loyalty program's goals and member experiences.
