### NEW QUESTION # 30

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question

- A. Conduct end-user training on active scope items.
- B. Determine set up instructions for customer-driven integrations.
- C. Highlight areas that require configuration or customization decisions.
- D. Demonstrate SAP Best Practice business processes in the starter system.

**Answer: C,D**

Explanation:

During the Fit-to-Standard workshops, an implementation consultant supports customer experts by doing the following:

\* Demonstrate SAP Best Practice business processes in the starter system. The consultant shows the customer experts how the standard processes work in SAP S/4HANA Cloud Public Edition and how they fit their business needs1.

\* Highlight areas that require configuration or customization decisions. The consultant identifies and documents the gaps between the standard processes and the customer requirements, and proposes solutions that are aligned with the cloud mindset1.

The other options are not the correct ways to support customer experts during the Fit-to-Standard workshops. Determining set up instructions for customer-driven integrations is done in the integration phase, after the Fit-to-Standard workshops are completed2.

Conducting end-user training on active scope items is done in the deploy phase, before the go-live of the system3. References = Conducting Fit-to-Standard Workshops - SAP Learning, SAP S/4HANA Cloud Public Edition - Integration, Deploying SAP S/4HANA Cloud Public Edition.
