### NEW QUESTION # 59

For which scenario would an On-Demand rule be an appropriate solution?

- A. To import data into a form or Smart View worksheet
- B. To add a column with a calculation to a report
- C. To allocate data to base entities prior to consolidation
- D. To perform a custom currency translation for a subset of accounts

#### Answer: D

Explanation:

Performing a custom currency translation for a subset of accounts is a scenario where an On-Demand rule would be an appropriate solution. An On-Demand rule is a type of business rule that can be executed manually by users on forms or Smart View worksheets. An On-Demand rule can perform calculations or transformations on selected data cells without affecting other data cells. For example, an On-Demand rule can be used to translate data from local currency to reporting currency using a different exchange rate than the default one for a subset of accounts.
