

# Latest SAP C-SIGDA-2403 Test Cram, Guaranteed C-SIGDA-2403 Questions Answers

BTW, DOWNLOAD part of Pass4Leader C-SIGDA-2403 dumps from Cloud Storage: <https://drive.google.com/open?id=1hAuuBgbTDucJaJrI1YBGCzQdP1V7YdW>

As we know that thousands of people put a premium on obtaining C-SIGDA-2403 certifications to prove their ability. With the difficulties and inconveniences existing for many groups of people like white-collar worker, getting a C-SIGDA-2403 certification may be draining. Therefore, choosing a proper C-SIGDA-2403 exam guide can pave the path for you which is also conducive to gain the certification efficiently. So why should people choose us? Because the high pass rate of our C-SIGDA-2403 Latest Practice Materials is more than 98% and you will pass the C-SIGDA-2403 exam easily to get the dreaming certification.

## SAP C-SIGDA-2403 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• SiGNAL: This topic explains how to use SiGNAL as query language. It also discusses how process data and analyze it in more depth.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• SAP Signavio Process Collaboration Hub: By covering this topic, you learn how to navigate through different process information and collaborate with other business users. Lastly, the topic delves into this navigation to share feedback on process content.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Business Process Management: There are different areas of business process management. This topic explains those areas and also discusses the process levels and its architecture.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• SAP Signavio Process Intelligence: To explore and analyze a data set, this section discusses creating an investigation. It also discusses revealing inefficiencies in the process.</li></ul>

## C-SIGDA-2403 Pass-Sure File & C-SIGDA-2403 Quiz Torrent & C-SIGDA-2403 Exam Quiz

The passing rate of our C-SIGDA-2403 test torrent is high but if you fail in the exam we will refund you in full immediately. Some people may worry that the refund procedure is complicate but we guarantee to the client that the refund procedure is very simple. If only you provide the screenshot or the scanning copy of C-SIGDA-2403 exam failure marks list we will refund you immediately and the process is really simple. It is very worthy for you to buy our C-SIGDA-2403 Guide questions and we can help you pass the

exam successfully. If you have any problems please contact us by the online customer service or the mails, and we will reply and solve your problem immediately.

## SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q43-Q48):

### NEW QUESTION # 43

How can KPIs from be visualized in the SAP Signavio Process Collaboration Hub? Note: There are 3 correct answers to this question.

- A. By monitoring Widgets
- B. By case exporting
- C. By adding live KPIs into the Customer Journey Map
- D. By adding live KPIs into the process
- E. By workflow mining

Answer: A,C,E

### NEW QUESTION # 44

What are some benefits of using metrics and the Metric Library in SAP Signavio Process Intelligence? Note: There are 3 correct answers to this question.

- A. You can create reusable Widgets like a case table
- B. You can add prebuilt metrics from the metric library
- C. You can create custom metrics using SQL and variables
- D. You can install accelerators
- E. You can share metrics between workspaces

Answer: B,C,E

Explanation:

Metrics in SAP Signavio Process Intelligence quantify process performance, and the Metric Library enhances their usability by providing reusable and predefined options. The SAP Signavio Process Intelligence User Guide outlines the benefits:

\* Exact Extract:"The Metric Library and metric creation in SAP Signavio Process Intelligence offer:

\* The ability to create custom metrics using SQL queries and variables for tailored analysis.

\* Sharing of metrics across workspaces to promote consistency and collaboration.

\* Access to prebuilt metrics in the Metric Library for common KPIs, such as cycle time or case count, to accelerate analysis." (SAP Signavio Process Intelligence User Guide, section on "Metric Library and Metric Management").

\* Explanation:

\* Option A (You can create custom metrics using SQL and variables):Users can define custom metrics in the metric editor using SQL queries and variables, allowing for specific calculations like average processing time or error rates tailored to the process.

\* Option B (You can share metrics between workspaces):Metrics stored in the Metric Library can be shared across different workspaces, ensuring consistency in KPI definitions and enabling collaboration among teams.

\* Option C (You can add prebuilt metrics from the metric library):The Metric Library provides a repository of prebuilt metrics (e.g., total cases, average duration) that can be quickly added to investigations, saving time.

\* Option D (You can install accelerators)is incorrect as accelerators are predefined process content or templates in SAP Signavio Process Explorer, not related to metrics or the Metric Library.

\* Option E (You can create reusable Widgets like a case table)is incorrect because widgets are visualization tools, not metrics, and their creation is separate from the Metric Library.

Reference:SAP Signavio Process Intelligence User Guide, section on "Metric Library and MetricManagement"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Metrics and KPIs.

### NEW QUESTION # 45

How can KPIs be visualized in the SAP Signavio Process Collaboration Hub? Note: There are 3 correct answers to this question.

- A. By monitoring Widgets
- B. By adding live KPIs into the process
- C. By case exporting

- D. By workflow mining
- E. By adding live KPIs into the Customer Journey Map

**Answer: A,B,E**

Explanation:

The SAP Signavio Process Collaboration Hub is designed to share and visualize process-related information, including Key Performance Indicators (KPIs), to stakeholders. According to the official SAP Signavio documentation, KPIs can be visualized in the Collaboration Hub in multiple ways to enhance process transparency and monitoring. Specifically:

- \* Option A (By adding live KPIs into the Customer Journey Map): The Collaboration Hub allows integration of live KPIs into Customer Journey Maps to provide real-time insights into customer interactions and process performance. This is a standard feature for visualizing KPIs in context.
- \* Option C (By monitoring Widgets): Widgets in the Collaboration Hub, such as the Value Widget or Process Performance Widgets, are used to display KPIs dynamically. These widgets can be configured to show metrics like process efficiency or cycle times, making them a key tool for KPI visualization.
- \* Option D (By adding live KPIs into the process): KPIs can be embedded directly into process models within the Collaboration Hub, allowing users to monitor performance metrics alongside process diagrams in real time.
- \* Option B (By case exporting) is incorrect because case exporting refers to extracting data for external analysis, not visualizing KPIs within the Hub.

Reference: SAP Signavio Process Collaboration Hub documentation, section on KPI visualization and widget configuration; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 3: Collaboration Hub Features.

#### NEW QUESTION # 46

How can a metric be created in SAP Signavio Process Intelligence? Note: There are 3 correct answers to this question.

- A. Import a metric from SAP Signavio Process Manager
- B. Import a metric based on a JSON file
- C. Create a custom metric
- D. Add a metric from the library
- E. Upload logic from a Widget

**Answer: B,C,D**

#### NEW QUESTION # 47

What is a core capability of the transaction code analysis?

- A. It can show the average ways processes are executed in a particular company code
- B. It can show the various ways processes are executed in reality across the entire organization
- C. It can check the number of transaction codes used on average for each process step and by company code
- D. It can check the number of transaction codes used on average for one end-to-end process

**Answer: C**

Explanation:

Transaction code analysis in SAP Signavio Process Intelligence examines the usage of transaction codes in SAP systems to understand process execution. The documentation details:

\* Exact Extract: "Transaction code analysis provides insights into the number of transaction codes used on average for each process step, segmented by company code, to identify variations in process execution across organizational units." (SAP Signavio Process Intelligence User Guide, section on

"Transaction Code Analysis").

\* Explanation:

\* Option B (It can check the number of transaction codes used on average for each process step and by company code): This is correct as transaction code analysis breaks down the usage of SAP transaction codes (e.g., VA01 for sales order creation) per process step and company code, highlighting differences in how processes are executed.

\* Option A (It can check the number of transaction codes used on average for one end-to-end process) is incorrect as the analysis focuses on individual steps, not the entire process.

\* Option C (It can show the various ways processes are executed in reality across the entire organization) is incorrect because this is a function of Process Discovery or Variant Explorer, not transaction code analysis.

\* Option D (It can show the average ways processes are executed in a particular company code) is incorrect as it describes process

variants, not transaction code usage.

Reference: SAP Signavio Process Intelligence User Guide, section on "Transaction Code Analysis"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Process Analysis Tools.

## NEW QUESTION # 48

.....

Some candidates may think that to get a certification cost too much time and efforts, but if they find the right exam materials, they will change their mind. Our C-SIGDA-2403 study questions will not occupy you much time. Whenever you have spare time, you can learn and memorize some questions and answers of our C-SIGDA-2403 Exam simulation. Gradually, you will learn much knowledge and become totally different from past. You will regret to miss our C-SIGDA-2403 practice materials. Come to purchase our C-SIGDA-2403 learning guide!
