BONUS!!! Download part of DumpsFree 300-445 dumps for free: <https://drive.google.com/open?id=1sehVQFhbb1V3KpDUfakyIKLZV28PJwDu>

After you purchase 300-445 exam questions, you should always pay attention to your email address. Once there is a new version, we will send updated information to your email address. As we all know, the authority of a product matches its hit rate. How high the authority of 300-445 Real Exam is, I don't need to say any more. You just know what you will know. You can't really find a product that has a higher hit rate than our 300-445 study materials!

Cisco 300-445 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Insights and Alerts: This domain addresses configuring alert rules based on network conditions and end-user experience factors. It covers selecting metrics for stakeholders, validating alerts, and recommending network optimization for capacity planning.
Topic 2	<ul style="list-style-type: none">Data Analysis: This domain encompasses diagnosing network issues like packet loss, congestion, routing and jitter, plus end-device problems. It includes analyzing web application performance and identifying security threats such as DDoS attacks, DNS hijacking, and BGP hijacking.
Topic 3	<ul style="list-style-type: none">Data Collection Implementation: This domain focuses on deploying enterprise and endpoint agents across infrastructure and end-user devices. It covers configuring network, DNS, voice, web, and endpoint tests using ThousandEyes and Meraki Insights, along with implementing synthetic web tests and authentication methods.
Topic 4	<ul style="list-style-type: none">Platforms and Architecture: This domain covers understanding monitoring agent types and placement, active versus passive monitoring, and ThousandEyes WAN Insights. It addresses Cisco platform integrations, metric baselines, and selecting appropriate integration methods and assurance platforms based on business requirements.

New 300-445 Dumps Questions Free PDF | Valid Exam 300-445 Review: Designing and Implementing Enterprise Network Assurance

The 300-445 practice questions that are best for you will definitely make you feel more effective in less time. The cost of 300-445 studying materials is really very high. Selecting our study materials is definitely your right decision. Of course, you can also make a decision after using the trial version. With our 300-445 Real Exam, we look forward to your joining. And our 300-445 exam braindumps will never let you down.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q111-Q116):

NEW QUESTION # 111

Why might an organization choose digest over basic authentication when configuring tests?
(Choose Two)

- A. Digest does not transmit passwords in clear text.
- B. Digest requires less configuration on the client side.
- C. Digest offers better performance under load.
- D. Digest provides a higher level of security than basic authentication.

Answer: A,D

NEW QUESTION # 112

When selecting a Cisco network assurance platform, what aspect should be prioritized to enhance user satisfaction?

- A. Event management capabilities
- B. Integration with ITSM tools
- C. Scalability
- D. Performance monitoring

Answer: D

Explanation:

Prioritizing performance monitoring enhances user satisfaction when selecting a Cisco network assurance platform.

NEW QUESTION # 113

What type of alert rule configuration is used to monitor TCP protocol behavior in network assurance?

- A. Performance-based rules
- B. Congestion-based rules
- C. Error counters-based rules
- D. State-based rules

Answer: A

Explanation:

Performance-based rules are used to monitor TCP protocol behavior in network assurance by setting thresholds for metrics such as round-trip time (RTT), retransmission rates, and TCP connection establishment times to detect anomalies and trigger alerts when performance deviations occur.

NEW QUESTION # 114

Which Meraki Insight feature is crucial for diagnosing issues related to jitter in VoIP calls?

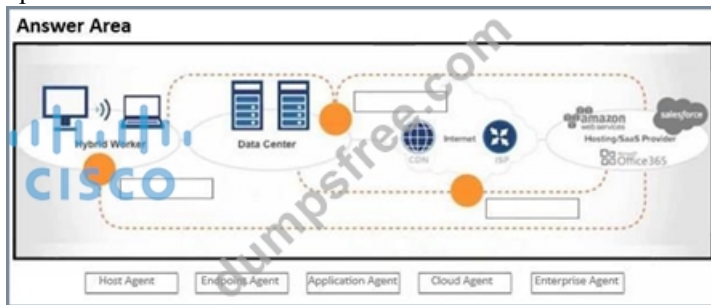

- A. Traffic analytics
- B. Connectivity heat maps
- C. Application health scores
- D. Voice quality monitoring

Answer: D

NEW QUESTION # 115

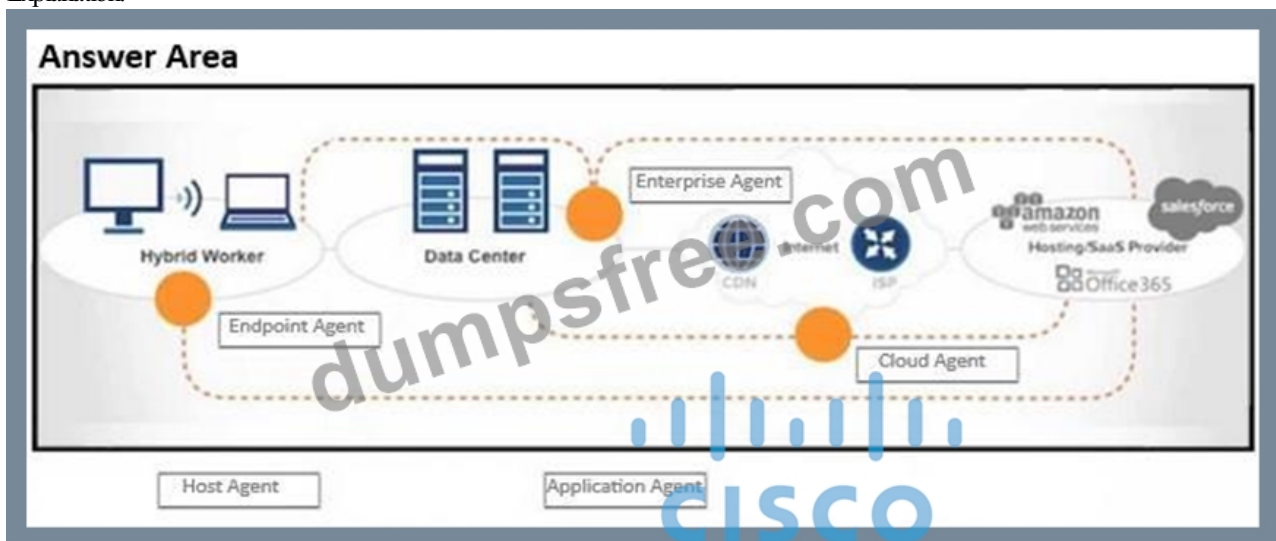

Drag and Drop Question

An organization has been dealing with intermittent connectivity issues to certain cloud-based applications. Drag and drop the agents from the bottom onto the respective locations on the diagram to diagnose the root cause of any connectivity problems. Not all options are used.

Answer:

Explanation:

Explanation:

Endpoint Agent gives visibility into the hybrid worker's device and last-mile conditions.
 Enterprise Agent monitors from inside the organization's data center toward the cloud.
 Cloud Agent provides outside-in visibility from the public internet toward the SaaS application.

NEW QUESTION # 116

.....

Students often feel helpless when purchasing test materials, because most of the test materials cannot be read in advance, students often buy some products that sell well but are actually not suitable for them. But if you choose 300-445 test prep, you will certainly not encounter similar problems. Before you buy 300-445 learning question, you can log in to our website to download a free trial question bank, and fully experience the convenience of PDF, APP, and PC three models of 300-445 learning question. During the trial period, you can fully understand our study materials' learning mode, completely eliminate any questions you have about 300-445 test prep, and make your purchase without any worries.
