But if they want to realize that they must boost some valuable COBIT-Design-and-Implementation certificate to raise their values and positions. The COBIT-Design-and-Implementation certificate enjoys a high reputation among the labor market circle and is widely recognized as the proof of excellent talents and if you are one of them and you want to pass the test smoothly you can choose our COBIT-Design-and-Implementation Practice Questions.

ISACA COBIT Design and Implementation Certificate Sample Questions (Q103-Q108):

NEW QUESTION # 103

Which of the following is the BEST starting point when translating enterprise goals into actionable governance and management objectives?

- A. Selective enterprise goals
- B. Risk-based enterprise goals
- **C. Generic enterprise goals**
- D. Prioritized enterprise goals

Answer: C

Explanation:

The COBIT 2019 Design Guide provides a set of generic enterprise goals which:

"Serve as the baseline for mapping to governance and management objectives. These generic goals help initiate the translation process and can be customized later." Thus, generic goals are the best starting point.

Reference:COBIT 2019 Design Guide, Appendix A

NEW QUESTION # 104

A traditional brick-and-mortar company is planning to fast-track its growth by implementing an information and technology governance system to achieve enterprise goals. Which of the following is the KEY enabler of success in achieving the goals?

- A. Conducting staff training programs for performing IT-enabled processes
- **B. Establishing applicable governance and management objectives**
- C. Tailoring the security policy according to the technology deployed
- D. Setting capability levels for key business processes

Answer: B

Explanation:

For a traditional brick-and-mortar company planning to fast-track its growth by implementing an information and technology governance system to achieve enterprise goals, establishing applicable governance and management objectives is the key enabler of success.

References in COBIT 2019 Design and Implementation:

* COBIT 2019 Framework: Governance and Management Objectives, EDM01 (Ensure Governance Framework Setting and Maintenance):This objective underscores the importance of defining clear governance and management objectives to guide the implementation and achieve enterprise goals.

* COBIT 2019 Implementation Guide, Chapter 4: This chapter discusses the importance of setting relevant and applicable governance and management objectives to align IT governance with business strategy and goals. By establishing clear governance and management objectives, the company can ensure that its IT governance efforts are aligned with its strategic goals, driving growth and achieving desired outcomes.

NEW QUESTION # 105

Which of the following would reduce an enterprise's resistance to change when adopting process improvements?

- A. Documentation that outlines increased cost and workload commitments
- **B. Awareness communications that focus on enterprise pain points and drivers**
- C. Revised job descriptions that outline new required skills
- D. External EGIT frameworks that provide prescribed process improvements

Answer: B

Explanation:

The COBIT 2019 Implementation Guide emphasizes:

"Effective communication, especially about enterprise pain points and value drivers, helps reduce resistance by showing relevance and urgency of changes." This builds understanding and support among stakeholders.

Reference: COBIT 2019 Implementation Guide, Phase 2

NEW QUESTION # 106

An enterprise has been consistently growing over the years and has decided to adapt the COBIT framework from the growth perspective of the balanced scorecard dimensions. Which of the following enterprise goals is MOST relevant to select?

- **A. Product and business innovation**
- B. Customer-oriented service culture
- C. Optimization of business process costs
- D. Managed business risk

Answer: A

Explanation:

The COBIT 2019 framework aligns enterprise goals with balanced scorecard (BSC) dimensions. Under the growth and innovation BSC perspective, one of the core enterprise goals listed is:

"Product and business innovation" - which directly supports strategic growth by encouraging new products, services, and ways of operating.

This goal aligns with an enterprise that is expanding and looking to leverage innovation to sustain growth.

Other options like risk management or cost optimization fit different BSC dimensions (e.g., financial, internal process).

Reference: COBIT 2019 Design Guide, Appendix A (Enterprise Goals Table)

NEW QUESTION # 107

When tailoring a governance system using COBIT 2019 for a nonprofit enterprise seeking to improve IT service delivery, which of the following enterprise strategy design factors is MOST relevant?

- **A. Cost**
- B. Innovation
- C. Stability
- D. Growth

Answer: A

Explanation:

When tailoring a governance system using COBIT 2019 for a nonprofit enterprise seeking to improve IT service delivery, the most relevant enterprise strategy design factor is cost. Nonprofit organizations typically operate with limited budgets, making cost management a critical consideration.

For nonprofit enterprises, managing costs effectively is crucial to ensure that resources are used efficiently and that IT service delivery improvements are sustainable. Focusing on cost as a design factor helps to prioritize initiatives that provide the most value.

for the least expenditure.

COBIT 2019 Framework References:

* COBIT 2019 Design Guide, Chapter 2: Discusses the importance of considering cost as a design factor, especially for organizations with limited financial resources.

* COBIT 2019 Implementation Guide, Chapter 5: Provides guidance on optimizing costs while improving IT service delivery to ensure that governance objectives are met within budget constraints.

By focusing on cost, the nonprofit enterprise can tailor its governance system to achieve better IT service delivery while staying within financial limits, ensuring the efficient use of available resources.

NEW QUESTION # 108

.....
