Trustworthy Huawei H19-308_V4.0 Practice | New H19-308_V4.0 Exam Pattern

As is known to us, our company is professional brand established for compiling the H19-308_V4.0 study materials for all candidates. The H19-308_V4.0 study materials from our company are designed by a lot of experts and professors of our company in the field. We can promise that the H19-308_V4.0 study materials of our company have the absolute authority in the study materials market. We believe that the study materials designed by our company will be the most suitable choice for you. You can totally depend on the H19-308_V4.0 Study Materials of our company when you are preparing for the exam.

If you try to free download the demos on the website, and you will be amazed by our excellent H19-308_V4.0 preparation engine. We can absolutely guarantee that even if the first time to take the exam, candidates can pass smoothly. You can find the latest version of H19-308_V4.0 Practice Guide in our website and you can practice H19-308_V4.0 study materials in advance correctly and assuredly. The following passages are their advantages for your information

Huawei H19-308_V4.0 QUESTIONS: A TERRIFIC EXAM PREPARATION SOURCE [2026]

If you search test practice questions you can find us which is the leading position in this field or you may know us from other candidates about our high-quality H19-308_V4.0 training materials as every year thousands of candidates choose us and gain success for their exams. If you want to choose reliable and efficient Latest H19-308_V4.0 Questions and answers, we will be your best choice as we have 100% pass rate for H19-308_V4.0 exams. Many candidates prefer simulator function of our H19-308_V4.0 training materials. And our H19-308_V4.0 exam questions won't let you down.

Huawei HCSA-Presales-Storage V4.0 Sample Questions (Q37-Q42):

NEW QUESTION # 37
Which protocol is not a front-end protocol of SAN?

- A. NFS
- B. InfiniBand
- C. Fiber Channel
- D. FCoE
- E. iSCSI

Answer: A

NEW QUESTION # 38
Which of the following statements are correct about quotas of object storage? (Select all that apply)

- A. Tenant quota: After the capacity for written data of a tenant is used up, no more data can be written by the tenant.
- B. An alarm or event is triggered when the number of resources reaches the limit.
- C. A quota is a method of controlling resource access.
- D. Bucket quota: After the capacity for written data of a bucket is used up, no more data can be written to the bucket.

Answer: A,B,C,D

Explanation:
In Huawei's object storage management (OceanStor Pacific), quotas are a critical administrative tool for resource governance.
Option C is correct as quotas serve as a fundamental method for controlling how much of the physical resource pool a specific entity (tenant or user) can access and consume.
Option A and D are correct because Huawei supports both Tenant-level and Bucket-level quotas. Once a Hard Quota limit is reached for a tenant or a specific bucket, the storage system will reject further write requests (PUT operations) to prevent exceeding the allocated budget. Option B is correct because the storage management system (DeviceManager or eSight) integrates with the quota system to trigger alarms when usage reaches predefined thresholds (such as 80% or 90%) or when the resource limit is reached, allowing administrators to take proactive measures like expanding the quota or cleaning up data.

NEW QUESTION # 39
An HBA is a device that provides input/output (I/O) processing and physical connections on a host.

- A. FALSE
- B. TRUE

Answer: B

Explanation:
A Host Bus Adapter (HBA) is responsible for handling I/O processing and providing the physical connectivity between a host server and a storage network such as Fibre Channel or SAS. It offloads storage-related tasks from the CPU and ensures reliable high-speed data transmission, making the statement correct.

NEW QUESTION # 40
The new-gen OceanStor hybrid flash storage uses a copy-on-write (COW) architecture.

- A. TRUE
- B. FALSE

Answer: B

Explanation:
The new-generation OceanStor hybrid flash storage uses a redirect-on-write (ROW) architecture, not copy-on-write (COW).
ROW is more efficient for handling snapshot operations and reduces write amplification.

NEW QUESTION # 41
What kind of data flows is supported by SmartMobility of OceanStor Dorado?

- A. SAN

- B. Object
- C. NAS
- D. HDFS

Answer: A,C

Explanation:
SmartMobility in OceanStor Dorado focuses on supporting SAN and NAS environments, optimizing data migration and access within these protocols, while HDFS and Object storage flows are not typically included in its supported data flows.
SmartMobility of OceanStor Dorado primarily supports SAN and NAS data flows rather than covering all types listed. HDFS and Object storage flows are not directly supported by SmartMobility.

NEW QUESTION # 42
......

No matter how much you study, it can be difficult to feel confident going into the HCSA-Presales-Storage V4.0 (H19-308_V4.0) exam. However, there are a few things you can do to help ease your anxiety and boost your chances of success. First, make sure you prepare with Real H19-308_V4.0 Exam Dumps. If there are any concepts you're unsure of, take the time to take H19-308_V4.0 practice exams until you feel comfortable.
