If you want to sharpen your skills, or get the DEP-2025 certification done within the target period, it is important to get the best DEP-2025 exam questions. You must try Pass4Test DEP-2025 practice exam that will help you get Apple DEP-2025 certification. Pass4Test hires the top industry experts to draft the Apple Deployment and Management Exam (DEP-2025) exam dumps and help the candidates to clear their DEP-2025 exam easily. Pass4Test plays a vital role in their journey to get the DEP-2025 certification.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 2	• Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 3	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.

Topic 4	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 5	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 6	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 7	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 8	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 9	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 10	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.

DEP-2025 study guide & DEP-2025 training torrent & DEP-2025 free dumps

Our Pass4Test devote themselves for years to develop the DEP-2025 exam software to help more people who want to have a better development in IT field to pass DEP-2025 exam. Although there are so many exam materials about DEP-2025 exam, the DEP-2025 exam software developed by our Pass4Test professionals is the most reliable software. Practice has proved that almost all those who have used the software we provide have successfully passed the DEP-2025 Exam. Many of them just use spare time preparing for DEP-2025 Apple exam, and they are surprised to pass the certificated exam.

Apple Deployment and Management Exam Sample Questions (Q187-Q192):

NEW QUESTION # 187
Which feature allows IT administrators to manage app installation settings on a device?

- A. Find My
- B. Configuration profiles
- C. iCloud
- D. MDM

Answer: B

Explanation:
Configuration profiles enable IT administrators to manage app installation settings on a device, such as restricting the App Store, preventing app removal, or enforcing an allow list of approved apps. These profiles are deployed via MDM or manually, ensuring control over app usage. Find My (option B) and iCloud (option C) are user-focused features unrelated to app installation management. MDM (option D) is the delivery mechanism, but the profiles define the settings. The Apple Platform Deployment Guide details app installation control via configuration profiles.
Reference: Apple Platform Deployment Guide (Chapter: Configuration Profiles).

NEW QUESTION # 188
What's the benefit of using supervision?

- A. Separates personal and managed data
- B. Improves network performance
- C. Allows personalization
- D. Enables advanced management

Answer: D

Explanation:
Supervision, applied via Apple Configurator or ADE, enables advanced management by unlocking additional MDM capabilities, such as blocking app removal, enforcing single-app mode, or managing Activation Lock.
This provides greater control for organizations. Personalization (option A) is often restricted under supervision. Network performance (option C) is unrelated, and data separation (option D) is a User Enrollment feature. The Apple Platform Deployment Guide highlights advanced management as supervision's key benefit.
Reference: Apple Platform Deployment Guide (Chapter: Supervision).

NEW QUESTION # 189
You used your organization's MDM solution to change the password of a managed administrator account that's secure token enabled. What is the result?

- A. The login and secure token passwords are updated.
- B. The login password is updated, not the secure token password.
- C. The login password can't be changed.
- D. The secure token password is updated, not the login password.

Answer: B

Explanation:
MDM updates the login password only. The macOS Security Overview states, "When MDM changes the password of a secure token-enabled account, only the login password is updated; the secure token remains tied to the original password unless explicitly reset." Option C is incorrect due to this separation.
Reference:
macOS Security Overview, "Secure Token" section.
Mobile Device Management Protocol Reference, "Password Management" section.

NEW QUESTION # 190
What's the benefit of using Find My?

- A. Separates personal and managed data
- B. Improves network performance
- C. Enables additional restrictions
- D. Allows device tracking

Answer: D

Explanation:
Find My allows device tracking, enabling users or administrators (via MDM) to locate, lock, or wipe a lost or stolen device using iCloud or GPS. It's a key security feature for personal and managed devices. Additional restrictions (option B) are a supervision feature. Network performance (option C) is unrelated, and data separation (option D) pertains to User Enrollment. The Apple Platform Security Guide emphasizes tracking as Find My's primary benefit.

NEW QUESTION # 191
Which type of network uses individual user credentials or device- and/or user-based certificates to control who or which devices can use the network?

- A. Provisioning network
- B. WPA2 Enterprise network
- C. WPA2 Personal network

Answer: B

Explanation:
WPA2 Enterprise networks utilize individual user credentials (e.g., username and password) or device- and/or user-based certificates for authentication, typically via protocols like EAP-TLS or PEAP, integrated with a RADIUS server. This provides granular control over network access, ideal for organizational settings. A provisioning network (option A) is a temporary network for device setup, not a security standard. WPA2 Personal (option B) uses a shared passphrase, lacking individual authentication. The Apple Platform Deployment Guide specifies WPA2 Enterprise for secure, user-specific network access in managed environments.

NEW QUESTION # 192

......

Might it be said that you are enthused about drifting through the Apple Deployment and Management Exam on the chief endeavor? Then, you are at the ideal locale for Apple DEP-2025 exam. Apple DEP-2025 Dumps gives you the most recent review material that has been figured out for you to pass the Apple DEP-2025 on the key endeavor. Pass4Test is moving these days and is essential to finding a tremendous compensation calling. Different promising beginners stand around inactively and cash due to including an invalid prep material for the Apple DEP-2025 exam.
